50-4-104. State health care policy. (1) It is the policy of the state of Montana to continue to investigate and develop strategies that result in all residents having access to quality health services at costs that are affordable.

(2) It is further the policy of the state of Montana that:

(a) Montana's health care system should ensure that care is delivered in the most effective and efficient manner possible;

(b) health promotion, preventative health services, and public health services should play a central role in the system;

(c) the patient-provider relationship should be a fundamental component of Montana's health care system;

(d) individuals should be encouraged to play a significant role in determining their health and appropriate use of the health care system;

(e) accurate and timely health care information should play a significant role in determining the individual's health and appropriate use of the health care system;

(f) whenever possible, market-based approaches should be relied on to contain the growth in health care spending while attempting to achieve expanded access, cost containment, and improved quality; and

(3) The legislature recognizes the need to increase the emphasis on the education of consumers of health care services. Consumers should be educated concerning the health care system, payment for services, ultimate costs of health care services, and the benefit to consumers generally of providing only those services to the consumer that are reasonable and necessary.

Unfair trade practices and consumer protection, Title 30, ch. 14.

50-4-601. Finding and purpose. The legislature finds that the goals of controlling health care costs and improving the quality of and access to health care will be significantly enhanced in some cases by cooperative agreements and by mergers and consolidations among health care facilities and physicians licensed to practice medicine under Title 37, chapter 3. The purpose of this part is to provide the state, through the department, with direct supervision and control over the implementation of cooperative agreements, mergers, and consolidations among health care facilities and physicians licensed to practice medicine under Title 37, chapter 3, for which certificates of public advantage are granted. It is the intent of the legislature that supervision and control over the implementation of these agreements, mergers, and consolidations substitute state regulation of facilities and physicians licensed to practice medicine under Title 37, chapter 3, for competition between facilities and physicians licensed to practice medicine under Title 37, chapter 3, and that this regulation have the effect of granting the parties to the agreements, mergers, or consolidations state action immunity for actions that might otherwise be considered to be in violation of state or federal, or both, antitrust laws.

History: En. Sec. 37, Ch. 606, L. 1993; amd. Sec. 12, Ch. 378, L. 1995; amd. Secs. 1, 10, Ch. 526, L. 1995.

50-4-602. Cooperative agreements, mergers, and consolidations allowed. (1) A health care facility may enter into a cooperative agreement with one or more health care facilities. A health care facility may also merge or consolidate in whole or in part with one or more other health care facilities.

(2) A physician licensed to practice medicine under Title 37, chapter 3, may enter into a cooperative agreement with one or more physicians licensed to practice medicine under Title 37, chapter 3.

History: En. Sec. 38, Ch. 606, L. 1993; amd. Sec. 2, Ch. 526, L. 1995.

50-4-603. Certificate of public advantage — standards for certification — time for action by department. (1) Parties to a cooperative agreement, merger, or consolidation may apply to the department for a certificate of public advantage. The application for a certificate must include a copy of the proposed or executed cooperative, merger, or consolidation agreement, a description of the scope of the cooperation, merger, or consolidation contemplated by the agreement, and the amount, nature, source, and recipient of any consideration passing to any person under the terms of the agreement.

(2) The department shall hold a public hearing on the application for a certificate before acting upon the application. The department may not issue a certificate unless the department finds that the agreement is likely to result in lower health care costs or is likely to result in improved access to health care or higher quality health care without any undue increase in health care costs. If the department denies an application for a certificate for an executed agreement, the agreement is void upon the decision of the department not to issue the certificate. Parties to a void agreement may not implement or carry out the agreement. The parties to a void agreement may submit a new application for a certificate based upon a cooperative agreement, merger, or consolidation different from the original application.

(3) The department shall deny the application for a certificate or issue a certificate within 90 days of receipt of a completed application or within one 90-day extension, which may be granted by the department upon a showing of good cause by the applicants. If the department does not issue a certificate within that time, the application is considered to have been denied. A certificate may be issued subject to terms and conditions, as the department may determine are appropriate, in order to best achieve lower health care costs or greater access to or quality of health care.

(4) Any amendment to a cooperative, merger, or consolidation agreement and any material change in the operations or conduct of any party to a cooperative, merger, or consolidation agreement is considered to be a new agreement and may not take effect or occur

until the department has issued a new certificate of public advantage approving the amendment or change.

50-4-604. Reconsideration by department. (1) If the department denies an application and refuses to issue a certificate, a party to the agreement may request that the department reconsider its decision. The department shall reconsider its decision if the party applying for reconsideration submits the request to the department in writing within 30 calendar days of the department's decision to deny the initial application.

(2) The department shall hold a public hearing on the application for reconsideration. The hearing must be held within 30 days of receipt of the request for reconsideration unless the party applying for reconsideration agrees to a hearing at a later time. The hearing must be held pursuant to 2-4-604.

(3) The department shall make a decision to deny the application or to issue the certificate within 30 days of the conclusion of the hearing required by subsection (2). The decision of the department must be part of written findings of fact and conclusions of law supporting the decision. The findings, conclusions, and decision must be served upon the applicant for reconsideration.

50-5-301. When certificate of need is required — definitions. (1) Unless a person has submitted an application for and is the holder of a certificate of need granted by the department, the person may not initiate any of the following:

(a) the incurring of an obligation by or on behalf of a health care facility for any capital expenditure that exceeds $1.5 million, other than to acquire an existing health care facility. The costs of any studies, surveys, designs, plans, working drawings, specifications, and other activities (including staff effort, consulting, and other services) essential to the acquisition, improvement, expansion, or replacement of any plant with respect to which an expenditure is made must be included in determining if the expenditure exceeds $1.5 million.

(b) a change in the bed capacity of a health care facility through an increase in the number of beds or a relocation of beds from one health care facility or site to another, unless:

(i) the number of beds involved is 10 or less or 10% or less of the licensed beds, if fractional, rounded down to the nearest whole number, whichever figure is smaller, and no beds have been added or relocated during the 2 years prior to the date on which the letter of intent for the proposal is received;

(ii) a letter of intent is submitted to the department; and

(iii) the department determines that the proposal will not significantly increase the cost of care provided or exceed the bed need projected in the state health care facilities plan;

(c) the addition of a health service that is offered by or on behalf of a health care facility that was not offered by or on behalf of the facility within the 12-month period before the month in which the service would be offered and that will result in additional annual operating and amortization expenses of $150,000 or more;

(d) the incurring of an obligation for a capital expenditure by any person or persons to acquire 50% or more of an existing health care facility unless:

(i) the person submits the letter of intent required by 50-5-302(2); and

(ii) the department finds that the acquisition will not significantly increase the cost of care provided or increase bed capacity;

(e) the construction, development, or other establishment of a health care facility that is being replaced or that did not previously exist, by any person, including another type of health care facility;

(f) the expansion of the geographical service area of a home health agency;

(g) the use of hospital beds in excess of five to provide services to patients or residents needing only skilled nursing care, intermediate nursing care, or intermediate developmental disability care, as those levels of care are defined in 50-5-101;

(h) the provision by a hospital of services for home health care, long-term care, or inpatient chemical dependency treatment; or

(i) the construction, development, or other establishment of a facility for ambulatory surgical care through an outpatient center for surgical services in a county with a population of 20,000 or less according to the most recent federal census or estimate.

(2) For purposes of this part, the following definitions apply:

(a) "Health care facility" or "facility" means a nonfederal home health agency, a long-term care facility, or an inpatient chemical dependency facility. The term does not include:

(i) a hospital, except to the extent that a hospital is subject to certificate of need requirements pursuant to subsection (1)(h);

(ii) an office of a private physician, dentist, or other physical or mental health care professionals, including chemical dependency counselors; or

(iii) a rehabilitation facility or an outpatient center for surgical services.

(b) (i) "Long-term care facility" means an entity that provides skilled nursing care, intermediate nursing care, or intermediate developmental disability care, as defined in 50-5-101, to a total of two or more individuals.

(ii) The term does not include residential care facilities, as defined in 50-5-101; community homes for persons with developmental disabilities, licensed under 53-20-305; community homes for persons with severe disabilities, licensed under 52-4-203; boarding or foster homes for children, licensed under 52-2-622; hotels, motels, boardinghouses, roominghouses, or similar accommodations providing for transients, students, or individuals not requiring institutional health care; or juvenile and adult correctional facilities operating under the authority of the department of corrections.

(3) This section may not be construed to require a health care facility to obtain a certificate of need for a nonreviewable service that would not be subject to a certificate of need if undertaken by a person other than a health care facility.

50-5-302. Letter of intent — application and review process. (1) The department may adopt rules including but not limited to rules for:

(a) the form and content of letters of intent and applications;

(b) the scheduling of reviews;

(c) the format of public informational hearings and reconsideration hearings;

(d) the circumstances under which applications may be comparatively reviewed; and

(e) the circumstances under which a certificate of need may be approved for the use of hospital beds to provide skilled nursing care, intermediate nursing care, or intermediate developmental disability care to patients or residents needing only that level of care.

(2) At least 30 days before any person or persons acquire or enter into a contract to acquire 50% or more of an existing health care facility, they shall submit to the department a letter noting intent to acquire the facility and of the services to be offered in the facility and its bed capacity.

(3) Any person intending to initiate an activity for which a certificate of need is required shall submit a letter of intent to the department.

(4) The department may determine that the proposals should be comparatively reviewed with similar proposals that are also subject to review.

(5) On the 10th day of each month, the department shall publish in a newspaper of general circulation in the area to be served by the proposal a description of each letter of intent received by the department during the preceding calendar month. Within 30 days of the publication, any person who desires comparative review with a proposal described in the publication must submit a letter of intent requesting comparative review.

(6) The department shall give to each person submitting a letter of intent written notice of the deadline for submission of an application for certificate of need, which will be no less than 30 days after the notice is sent.

(7) Within 20 working days after receipt of an application, the department shall determine whether it is complete and, if the application is found incomplete, shall send a written request to the applicant specifying the necessary additional information and a date by which the additional information must be submitted to the department. The department shall allow at least 15 days after the mailing of its written request for the submission of the additional information. Upon receipt of the additional information from the applicant, the department has an additional 15 working days to determine if the application is complete and, if the application is still incomplete, to send a notice to the applicant that the application is incomplete.

(8) If the applicant fails to submit the necessary additional information requested by the department by the deadline prescribed by the department, the application is considered withdrawn.

(9) If the department fails to send either the request for additional information or the notice of incompleteness required by subsection (7) within the period prescribed in subsection

(7), the application is considered to be complete on the last day of the time period during which the notice should have been sent.

(10) The review period for an application may be no longer than 90 calendar days after the application is initially received or, if the application is to be comparatively reviewed as provided in subsection (5), within 90 days after all applications to be comparatively reviewed are received. A longer period is permitted with the consent of all affected applicants.

(11) During the review period a public hearing may be held if requested by an affected person or when considered appropriate by the department.

(12) Each completed application may be considered in relation to other applications pertaining to similar types of facilities affecting the same health service area.

(13) The department shall, after considering all comments received during the review period, issue a certificate of need, with or without conditions, or deny the application. The department shall notify the applicant and affected persons of its decision within 5 working days after expiration of the review period.

(14) If the department fails to reach a decision and notify the applicant of its decision within the deadlines established in this section and if that delay constitutes an abuse of the department's discretion, the applicant may apply to district court for a writ of mandamus to force the department to issue the certificate of need.

(9) in the case of a construction project, the costs and methods of the proposed construction, including the costs and methods of energy provision, and the probable impact of

the construction project reviewed on the costs of providing health services by the person proposing the construction project;

(10) the distance, convenience, cost of transportation, and accessibility of health services for persons who live outside urban areas in relation to the proposal; and

(11) in the case of a project to add long-term care facility beds:

Part 12

Safety Devices in Long-Term Care Facilities

Part Compiler's Comments

Effective Date: This part is effective October 1, 2001.

50-5-1201. Use of safety devices — request and consent — allowed individuals — intent. (1) The following individuals may request the use of and provide informed consent for the use of certain safety devices aimed at ensuring the physical safety of the resident by reducing the risk of falls and injuries associated with a resident's medical symptom even if the resident cannot easily remove the device or the device restricts the resident's total freedom of movement:

(a) a resident;

(b) a family member of a resident who is unable to make decisions because the resident has a communication barrier or has been found by a physician to be medically incapable of granting informed consent, as provided in 50-5-1203;

(c) a guardian, as defined in 72-1-103; or

(d) a person granted the power of attorney for health care decisions.

(2) A concern for a resident's physical safety or a resident's fear of falling may provide the basis for a medical symptom. A safety device may not be used for the convenience of staff or for disciplinary purposes.

(3) This part is intended to provide residents and authorized or designated representatives with the authority to request and consent to the use of safety devices but is not intended to interfere with the right of licensed health care providers acting within their scope of practice to recommend and order treatments and services, including physical restraints, for residents in their care.

History: En. Sec. 1, Ch. 347, L. 2001.

50-5-1202. Definitions. As used in this part, the following definitions apply:

(1) "Department" means the department of public health and human services provided for in 2-15-2201.

(2) "Long-term care facility" means a licensed facility that provides skilled nursing care or intermediate nursing care or that is a personal-care facility, as defined in 50-5-101.

(3) "Medical symptom" means an indication of a physical or psychological condition or of a physical or psychological need expressed by the patient.

(4) "Physician" includes an advanced practice registered nurse to the extent permitted by federal law.

(5) "Resident" means a person who lives in a long-term care facility.

(6) (a) "Safety devices" means side rails, tray tables, seatbelts, and other similar devices.

(b) The term does not include protective restraints as defined in 21 CFR 880.6760.

History: En. Sec. 2, Ch. 347, L. 2001.

50-5-1203. Procedures — informed consent — physician involvement. (1) Upon receiving a request for use of a safety device, a long-term care facility shall inform the requestor of the alternatives and risks associated with the use of the safety device. The long-term care facility shall provide the requested safety device to the resident upon receipt of:

(a) a signed consent form authorizing its use and acknowledging receipt of specific information about available alternatives and risks; and

(b) a written order from the attending physician that specifies the circumstances under and the duration for which the safety device may be used and the medical symptoms that the safety device is intended to address.

(2) The requirements of subsection (1) do not apply if a side rail or other device is used only as an assistive device and does not restrict the resident's movement from bed or chair.

History: En. Sec. 3, Ch. 347, L. 2001.

50-5-1204. Long-term care facility procedures. A long-term care facility that provides a safety device under 50-5-1203 shall:

(1) document that the procedures outlined in 50-5-1203 have been followed;

(2) monitor the use of the safety device in accordance with accepted standards of practice;

(3) reevaluate the resident's need for the safety device, no less than quarterly, in consultation with the resident, the resident's family, and the attending physician.

History: En. Sec. 4, Ch. 347, L. 2001.

50-5-1205. Survey compliance and department enforcement — rulemaking authority. (1) The department is granted rulemaking authority for the purposes of implementing this part.

(2) When determining compliance with state and federal standards for the use of a safety device, the department is bound by the statements and determinations contained in the attending physician's order regarding medical symptoms. A written order from the attending physician that contains statements and determinations regarding medical symptoms is sufficient evidence of the medical necessity of the safety device.

(3) A long-term care facility may not be subject to fines, civil penalties, or other state or federal survey enforcement remedies solely as the result of allowing the use of a safety device as authorized in this part.

(4) This section does not preclude the department from taking action to protect the safety and health of the resident if there is clear and convincing evidence that:

(a) the use of the safety device has jeopardized the health and safety of the resident; and

(b) the long-term care facility has failed to take reasonable measures to protect the health and safety of the resident.

History: En. Sec. 5, Ch. 347, L. 2001.

The development of an emergency medical services program is in the interest of the social well-being and health and safety of the state and all its people.

The order is effective upon receipt by the entity, and the entity shall comply with the terms of the order. If the department receives information that the violation has been corrected, the department may rescind its order by sending a notice to that effect to the entity. The rescission is effective upon its receipt by the entity.

(2) The entity may request a hearing to contest an order issued by the department pursuant to subsection (1) by submitting a written request to the department within 30 days after receipt of the order. A request for a hearing does not stay the enforceability of the department's order. The hearing must be held pursuant to the contested case provisions of the Montana Administrative Procedure Act.

(3) Either the county attorney for the county in which the violation occurred or the department may bring an action in the district court of the county where the violation occurred or in the district court for Lewis and Clark County to enforce the department's order or to directly enjoin a violation of this part or a rule adopted pursuant to 50-6-503.

50-8-102. One-step licensing required. The department shall provide one-step licensing of all facilities under its jurisdiction. One-step licensing is at a minimum the provision of a designated office within the department or, by agreement between departments, in another department, responsible for issuing facility licenses. The one-step licensing office shall facilitate intradepartmental certifications for licensure. When practicable, one-step licensure also includes:

(1) the coordination of all governmental licensing functions, state and local, required for the licensure of a facility for a program or a service and for health and safety standards. The coordination must include at a minimum the names, addresses, and functions of all governmental authorities enforcing such standards and may include the requirement that the responsible office be a clearinghouse for all forms and applications for other agencies and for assuming the responsibility for insuring timely inspections, reviews, and application processing by other agencies.

Such inspections may be limited by type of facility, scope of inspection, and type of inspection, such as original application, renewal application, routine or unannounced inspection, or other identifiable inspection situations.

(2) The inspecting authority, prior to authorizing employees of another department or agency to make an inspection, may require minimal standards of knowledge or training relevant to the type of inspection to be conducted. The inspecting authority may require periodic reexamination of such employees for necessary knowledge and ability.

(3) The inspecting authority delegates authority to the employees of another department or agency and is responsible for the quality of the inspections. The inspecting authority shall perform an inspection delegated to such an employee if the other department or agency or the head of the facility believes that the inspection situation is unique or that the employee is in error. The result of an inspection by the inspecting authority takes precedence over an inspection by an employee of another department or agency.

The declarant may designate another individual of sound mind and 18 or more years of age to make decisions governing the withholding or withdrawal of life-sustaining treatment. The declaration must be signed by the declarant, or another at the declarant's direction, and witnessed by two individuals. A physician or health care provider may presume, in the absence of actual notice to the contrary, that the declaration complies with this chapter and is valid.

(4) If the designation of an attorney-in-fact pursuant to 72-5-501 and 72-5-502, or the judicial appointment of an individual, contains written authorization to make decisions regarding the withholding or withdrawal of life-sustaining treatment, that designation or appointment constitutes, for the purposes of this part, a declaration designating another individual to act for the declarant pursuant to subsection (1).

(5) A physician or other health care provider who is furnished a copy of the declaration shall make it a part of the declarant's medical record and, if unwilling to comply with the declaration, promptly so advise the declarant and any individual designated to act for the declarant.

A revocation is effective upon its communication to the attending physician or other health care provider by the declarant or a witness to the revocation. A health care provider or emergency medical services personnel witnessing a revocation shall act upon the revocation and shall communicate the revocation to the attending physician at the earliest opportunity. A revocation communicated to a person other than the attending physician, emergency medical services personnel, or a health care provider is not effective unless the attending physician is informed of it before the qualified patient is in need of life-sustaining treatment.

(2) The attending physician or other health care provider shall make the revocation a part of the declarant's medical record.

History: En. Sec. 4, Ch. 369, L. 1985; amd. Sec. 2, Ch. 475, L. 1989; amd. Sec. 4, Ch. 391, L. 1991.

(a) it is communicated to the attending physician; and

(b) the declarant is determined by the attending physician to be in a terminal condition and no longer able to make decisions regarding administration of life-sustaining treatment.

(2) When the declaration becomes operative, the attending physician and other health care providers shall act in accordance with its provisions and with the instructions of a designee under 50-9-103(1) or comply with the transfer requirements of 50-9-203.

(a) has been determined by the attending physician to be in a terminal condition and no longer able to make decisions regarding administration of life-sustaining treatment; and

(e) the nearest other adult relative of the individual by blood or adoption who is reasonably available for consultation.

(3) If a class entitled to decide whether to consent is not reasonably available for consultation and competent to decide or if it declines to decide, the next class is authorized to decide. However, an equal division in a class does not authorize the next class to decide.

(4) A decision to grant or withhold consent must be made in good faith. A consent is not valid if it conflicts with the expressed intention of the individual.

(5) A decision of the attending physician acting in good faith that a consent is valid or invalid is conclusive.

(6) Life-sustaining treatment cannot be withheld or withdrawn pursuant to this section from an individual known to the attending physician to be pregnant so long as it is probable that the fetus will develop to the point of live birth with continued application of life-sustaining treatment.

Permit for disposition of body, 50-15-405.

50-15-115 through 50-15-120 reserved.

50-15-121. Copies from system of vital statistics. (1) Except as provided in subsections (6) and (7), the department and county clerk and recorders shall, upon receipt of an application, issue a certified copy or copies of a vital record or a part of a vital record to the registrant, the registrant's spouse, children, parents, or guardian, or an authorized representative. Other individuals may obtain certified copies when the individual demonstrates that the record is needed for the determination or protection of the individual's personal or property rights. The department shall adopt rules to further define those who may obtain copies of vital records filed under this chapter.

(2) All applications, forms, and procedures used in the issuance of certified copies of vital records in the state must be uniform and prepared or approved by the department. All certified copies must contain security features that deter the document from being altered, counterfeited, duplicated, or simulated without ready detection that there have been these changes to the document.

(3) Each copy issued must show the date of filing. Copies issued from amended records must be marked and must show the effective date of the amendment. Copies issued from delayed records must be marked, must include the date of filing, and must contain a statement of the evidence used to establish the delayed certificate. A copy issued of a certificate of foreign birth must indicate the fact of foreign birth and the date of birth (if known), must show the actual place of birth, and must state that the certificate is not proof of United States citizenship for the adoptive child.

(4) A certified copy or other copy of a death certificate must be issued upon request of any person.

(5) A certified copy of a vital record or any part of a vital record, issued in accordance with subsections (1) through (3), must be considered for all purposes the same as the original. The admissibility of a certificate or vital record filed more than 1 year after the event or after a corrective record is filed, of a vital record that has been amended, or of a certificate of foreign birth must be determined by the judicial or administrative body or official before whom the certificate is offered as evidence.

(6) This section may not be construed to permit disclosure of confidential information contained in a birth certificate for medical or health use or of information for statistical purposes only contained in a certificate of marriage or report of dissolution of marriage unless disclosure is specifically authorized by law for statistical or research purposes or unless ordered by a court.

(7) (a) When the department receives information that a certificate may have been registered through fraud or misrepresentation, it shall withhold issuance of the certificate or any copy of that certificate pending issuance of an order after an administrative contested case hearing before the department to determine whether fraud or misrepresentation has occurred.

(b) The hearing provided for in subsection (7)(a) must be conducted pursuant to the Montana Administrative Procedure Act. In the proceeding, the department shall notify the registrant or the registrant's authorized representative and provide the registrant or the representative the opportunity to be heard.

(c) If, upon conclusion of the hearing, fraud or misrepresentation is not found, the department may issue the certificate or copies of the certificate in question.

(d) If, upon conclusion of the hearing, fraud or misrepresentation is found, the department may not register the certificate unless ordered to do so by a court.

(e) An affected person may appeal the department's decision to the district court as provided in Title 2, chapter 4, part 7.

(8) A person may not prepare or issue any certificate that purports to be an original or certified copy, except as authorized in this chapter or rules adopted to implement this chapter.

(9) The department may, by rule, prescribe details for the hearing and appellate procedures contained in this section.

50-15-122. Disclosure of information from vital records or vital reports — rules. (1) It is the policy of the state to protect the integrity of vital records and vital reports, to ensure their proper use, and to ensure the efficient and proper administration of the system of vital statistics. In furtherance of the policy, a person may not permit inspection of or disclose information contained in vital records or in vital reports or copy or issue a copy of all or a part of a record or report unless authorized by this chapter, by administrative rule, or by order of a court of competent jurisdiction. Rules adopted under this chapter must provide for adequate standards of security and confidentiality of vital records.

(2) The execution of a research agreement that protects the confidentiality of the information provided to a researcher in response to a written request is required for disclosure of information that may identify a person or institution named in a vital record or report. This agreement must be made in compliance with this chapter or rules adopted to implement this chapter. Each agreement must prohibit the release by the researcher of any information that might identify a person or institution, other than releases that may be provided for in the agreement.

(3) This section does not prohibit the release of information or data that does not identify a person or institution named in a vital record or report.

(4) A challenge to a decision of a custodian of vital records to refuse disclosing information from records, as prescribed by this section and rules issued to implement this section, must be made before the department in the case of a county clerk and recorder and to a district court in the case of the department. A challenge before the department must be in the form of a contested case pursuant to the Montana Administrative Procedure Act. An appeal of the department's decision to district court must be made by filing an original action pursuant to the Montana Rules of Civil Procedure.

(5) (a) Immediately upon the filing of a record with the department, the fact that a birth or death has occurred may be released to the public without restriction. Notwithstanding the restrictions provided in 50-15-121, complete birth records may be released to the public 30 years after the date of birth. The department shall adopt rules that provide for the continued safekeeping of the records.

(b) Upon the filing of a record of marriage with the clerk of the district court, information that may be released to the public without restriction is specifically limited to:

(i) the names of the parties, the age of the parties, and their place of birth;

(ii) the date and place of the marriage;

(iii) the names and addresses of the parents of the parties;

(iv) the name of the officiant; and

(v) the type of ceremony.

(c) Any other information contained in a marriage license application that is not authorized to be disclosed under subsection (5)(b) is considered confidential and is subject to the disclosure limitations and penalties provided in 50-15-114.

(d) Notwithstanding the restrictions provided in 50-15-121 and this section, the information contained in a marriage license and marriage certificate may be released to the public 30 years after the date of the marriage.

(e) Upon the filing of a record of a dissolution of marriage with the clerk of the district court, that record may be released to the public without restriction unless designated confidential by the court. A record of dissolution of marriage designated confidential by the court may be provided to a federal, state, or local government agency upon request when the record is used solely in the conduct of the agency's official duties.

(6) The department may provide the national center for health statistics or a successor agency with copies of records, reports, or data from the system of vital statistics that are required for national statistics. The department shall enter into an agreement with the center, indicating the scope of disclosure of information, as required by this chapter or rules implementing this chapter, concerning the use of records, reports, or data for statistical or research purposes. The agreement must set forth the financial support to be provided by the center for the collection, processing, and transmission of the records, reports, or data. Upon written request of the center, the department may approve, by amendment to the agreement,

additional statistical or research uses of the records, reports, or data supplied under the agreement.

(7) Federal, state, and local governmental agencies may, subject to this chapter and rules implementing this chapter, upon request, be furnished copies of records or data from the system of vital statistics if the copies or data is used solely in the conduct of the agency's official duties. The department shall, upon request by a licensed adoption agency, provide a birth certificate and related records for purposes of adoption, termination of parental rights, custody actions, paternity actions, child support actions, social security eligibility determinations, or Indian tribal enrollment determinations.

(8) Subject to this chapter and rules implementing this chapter, the department may, by agreement, transmit copies of records and other reports required to be compiled by this chapter to offices of vital statistics outside this state when the records or reports concern residents of those jurisdictions or persons born in those jurisdictions. The agreement must specify the statistical and administrative purposes for which the records may be used, and the agreement must provide instructions concerning proper retention, confidentiality requirements, and disposition of the copies. Copies received by the department from offices of vital statistics in other states must be handled as provided for in this subsection.

(2) The petition must be made on a form adopted or approved by the department and must allege:

(a) that the person for whom a certificate of birth is sought was born in this state;

(5) If the district court finds, from the evidence presented, that the person for whom a certificate of birth is sought was born in this state, it shall make findings as to the date and place of birth, parentage, and other relevant facts and shall issue an order establishing the certificate of birth. The order must include the findings and birth data to be registered, a description of the evidence presented, and the date of the court's action.

(6) The clerk of the court shall forward the order referred to in subsection (5) to the department not later than the 10th calendar day of the month following the month in which it was entered. The order must be registered by the department and constitutes the court-ordered certificate of birth.

(b) a request that a new certificate be established if the request shows that:

(i) a district court, court of appropriate jurisdiction in another state, or administrative agency in this state or another state with appropriate jurisdiction has determined the paternity of the person and information necessary to identify the original certificate of birth is provided; or

(ii) both parents have acknowledged the paternity of the person and request that the surname be changed from that shown on the original certificate.

(2) The date of birth and the city and county of birth must be stated in the newly established certificate of birth. The department shall substitute the new certificate of birth for the original certificate of birth in the files. The original certificate of birth and the evidence of adoption, legitimation, court determination of paternity, or paternity acknowledgment are only subject to inspection, except upon order of a district court, as provided by rule, as provided in Title 42, chapter 6, part 1, or as otherwise provided by state law.

(4) Upon receipt of a report or decree of annulment of adoption, the department shall restore the original certificate of birth issued before the adoption to its place in the files and the certificate of birth issued upon adoption and evidence pertaining to the adoption proceeding may not be open to inspection, except upon order of a district court or as provided by rule adopted by the department.

(5) Upon written request of both parents and receipt of a sworn acknowledgment and other credible evidence of paternity signed by both parents of a child born outside of marriage, the department shall reflect the paternity on the child's certificate of birth if paternity is not already shown on the certificate of birth.

(6) If a certificate of birth is not on file for the adopted child for whom a new certificate of birth is to be established under this section and the date and place of birth have not been determined in the adoption or paternity proceedings pertaining to the child, a delayed certificate of birth must be filed with the department, as provided in 50-15-204, before a new certificate of birth may be established. The new certificate of birth must be prepared on a form prescribed by the department.

(7) When a new certificate of birth is established by the department, the department may direct that all copies of the original certificate of birth in the custody of any other custodian of vital records in this state either be sealed from inspection or be forwarded to the department for sealing from inspection.

(8) (a) The department shall, upon request of the adopting parents, prepare and register a certificate of birth in this state for a person born in a foreign country who is not a citizen of the United States and who was adopted through a district court in this state.

(b) The certificate of birth must be established by the department upon receipt of a certificate of adoption, conforming to the requirements of 50-15-311, from the court that reflects entry of an order of adoption, proof of the date and place of the child's birth, and a request for the establishment of a certificate of birth from the court, the adopting parents, or the adopted person, if the person is 18 years of age or older.

(c) The certificate of birth must be labeled "Certificate of Foreign Birth" and must contain the actual country of birth. A statement must be included on the certificate indicating that it is not evidence of United States citizenship for the child for whom it is issued.

2001 Amendment: Chapter 359 substituted definition of data for former definition that read: ""data" means written reports, notes, or records of tissue committees or other medical staff committees in connection with the professional training, supervision, or discipline of the medical staff of hospitals"; inserted definitions of health care facility, incident reports or occurrence reports, and medical practitioner; and made minor changes in style. Amendment effective April 23, 2001.

50-16-202. Committees to have access to information. It is in the interest of public health and patient medical care that health care facility committees have access to the records and other health care information relating to the condition and treatment of patients in the health care facility to study and evaluate for the purpose of evaluating matters relating to the care and treatment of patients for research purposes and for the purpose of reducing morbidity or mortality and obtaining statistics and information relating to the prevention and treatment of diseases, illnesses, and injuries. To carry out these purposes, any health care facility and its agents and employees may provide medical records or other health care information relating to the condition and treatment of any patient in the health care facility to any utilization review, peer review, medical ethics review, quality assurance, or quality improvement committee of the health care facility.

Uniform Health Care Information

Part Cross-References

Right of privacy guaranteed, Art. II, sec. 10, Mont. Const.

50-16-501. Short title. This part may be cited as the "Uniform Health Care Information Act".

History: En. Sec. 1, Ch. 632, L. 1987.

50-16-502. Legislative findings. The legislature finds that:

(1) health care information is personal and sensitive information that if improperly used or released may do significant harm to a patient's interests in privacy and health care or other interests;

(2) patients need access to their own health care information as a matter of fairness, to enable them to make informed decisions about their health care and to correct inaccurate or incomplete information about themselves;

(3) in order to retain the full trust and confidence of patients, health care providers have an interest in assuring that health care information is not improperly disclosed and in having clear and certain rules for the disclosure of health care information;

(4) persons other than health care providers obtain, use, and disclose health record information in many different contexts and for many different purposes. It is the public policy of this state that a patient's interest in the proper use and disclosure of his health care information survives even when the information is held by persons other than health care providers.

(5) the movement of patients and their health care information across state lines, access to and exchange of health care information from automated data banks, and the emergence of multistate health care providers creates a compelling need for uniform law, rules, and procedures governing the use and disclosure of health care information.

History: En. Sec. 2, Ch. 632, L. 1987.

50-16-503. Uniformity of application and construction. This part must be applied and construed to effectuate their general purpose to make uniform the laws with respect to the treatment of health care information among states enacting them.

History: En. Sec. 3, Ch. 632, L. 1987.

50-16-504. Definitions. As used in this part, unless the context indicates otherwise, the following definitions apply:

(c) requirements for licensing, accreditation, or certification.

(2) "Directory information" means information disclosing the presence and the general health condition of a patient who is an inpatient in a health care facility or who is receiving emergency health care in a health care facility.

(3) "General health condition" means the patient's health status described in terms of critical, poor, fair, good, excellent, or terms denoting similar conditions.

The term does not include a person who provides health care solely through the sale or dispensing of drugs or medical devices.

(8) "Institutional review board" means a board, committee, or other group formally designated by an institution or authorized under federal or state law to review, approve the initiation of, or conduct periodic review of research programs to assure the protection of the rights and welfare of human research subjects.

(10) "Patient" means an individual who receives or has received health care. The term includes a deceased individual who has received health care.

(11) "Peer review" means an evaluation of health care services by a committee of a state or local professional organization of health care providers or a committee of medical staff of a licensed health care facility. The committee must be:

(12) "Person" means an individual, corporation, business trust, estate, trust, partnership, association, joint venture, government, governmental subdivision or agency, or other legal or commercial entity.

(13) "Reasonable fee" means the charge, as provided for in 50-16-540, for duplicating, searching for, or handling recorded health care information.

A disclosure made under a patient's written authorization must conform to the authorization.

(3) Health care information disclosed under an authorization is otherwise subject to this part. An authorization becomes invalid after the expiration date contained in the

authorization, which may not exceed 30 months. If the authorization does not contain an expiration date, it expires 6 months after it is signed.

(4) Notwithstanding subsections (2) and (3), a signed claim for workers' compensation or occupational disease benefits authorizes disclosure to the workers' compensation insurer, as defined in 39-71-116, by the health care provider. The disclosure authorized by this subsection authorizes the physician or other health care provider to disclose or release only information relevant to the claimant's condition. Health care information relevant to the claimant's condition may include past history of the complaints of or the treatment of a condition that is similar to that presented in the claim, conditions for which benefits are subsequently claimed, other conditions related to the same body part, or conditions that may affect recovery. 50-16-528. Patient's revocation of authorization for disclosure. A patient may revoke a disclosure authorization to a health care provider at any time unless disclosure is required to effectuate payments for health care that has been provided or other substantial action has been taken in reliance on the authorization. A patient may not maintain an action against the health care provider for disclosures made in good faith reliance on an authorization if the health care provider had no notice of the revocation of the authorization.

History: En. Sec. 8, Ch. 632, L. 1987.

50-16-529. Disclosure without patient's authorization based on need to know. A health care provider may disclose health care information about a patient without the patient's authorization, to the extent a recipient needs to know the information, if the disclosure is:

(1) to a person who is providing health care to the patient;

(2) to any other person who requires health care information for health care education; to provide planning, quality assurance, peer review, or administrative, legal, financial, or actuarial services to the health care provider; for assisting the health care provider in the delivery of health care; or to a third-party health care payor who requires health care information and if the health care provider reasonably believes that the person will:

(a) not use or disclose the health care information for any other purpose; and

(b) take appropriate steps to protect the health care information;

(3) to any other health care provider who has previously provided health care to the patient, to the extent necessary to provide health care to the patient, unless the patient has instructed the health care provider not to make the disclosure;

(d) contains reasonable safeguards to protect against directly or indirectly identifying any patient in any report of the research project; and

(7) to a person who obtains information for purposes of an audit, if that person agrees in writing to:

(a) remove or destroy, at the earliest opportunity consistent with the purpose of the audit, information that would enable the patient to be identified; and

(b) not disclose the information further, except to accomplish the audit or to report unlawful or improper conduct involving fraud in payment for health care by a health care provider or patient or other unlawful conduct by a health care provider;

(8) to an official of a penal or other custodial institution in which the patient is detained; and

(9) to any contact, as defined in 50-16-1003, if the health care provider reasonably believes that disclosure will avoid or minimize an imminent danger to the health or safety of the contact or any other individual.

(2) Service of compulsory process or discovery requests upon a health care provider must be accompanied by a written certification, signed by the person seeking to obtain health care information or by the person's authorized representative, identifying at least one subsection of 50-16-535 under which compulsory process or discovery is being sought. The certification must also state, in the case of information sought under 50-16-535(1)(b), (1)(d), or (1)(e) or in a civil proceeding under 50-16-535(1)(i), that the requirements of subsection (1) for notice have been met. A person may sign the certification only if the person reasonably believes that the subsection of 50-16-535 identified in the certification provides an appropriate basis for the use of discovery or compulsory process. Unless otherwise ordered by the court, the health care

provider shall maintain a copy of the process and the written certification as a permanent part of the patient's health care information.

(3) In response to service of compulsory process or discovery requests, where authorized by law, a health care provider may deny access to the requested health care information. (4) When access to health care information is denied under 50-16-542(1), the court may order disclosure of health care information, with or without restrictions as to its use, as the court considers necessary. In deciding whether to order disclosure, the court shall consider the explanation submitted by the health care provider, the reasons for denying access to health care information set forth in 50-16-542(1), and any arguments presented by interested parties.

(5) A health care provider required to disclose health care information pursuant to compulsory process may charge a reasonable fee, not to exceed the fee provided for in 50-16-540, and may deny examination or copying of the information until the fee is paid.

(3) If a health care provider denies a request for examination and copying under this section, the provider, to the extent possible, shall segregate health care information for which access has been denied under subsection (1) from information for which access cannot be denied and permit the patient to examine or copy the information subject to disclosure.

(4) If a health care provider denies a patient's request for examination and copying, in whole or in part, under subsection (1)(a) or (1)(c), the provider shall permit examination and copying of the record by the patient's spouse, adult child, or parent or guardian or by another health care provider who is providing health care services to the patient for the same condition as the health care provider denying the request. (1) (a) If an emergency services provider acting in an official capacity attends a patient prior to or during transport or assists in transporting a patient to a health care facility and the emergency services provider has had an exposure, the emergency services provider may request the designated officer to submit the form required by department rule to the health care facility on the emergency services provider's behalf. (c) Upon receipt of the report of exposure from a designated officer, the health care facility shall notify the designated officer in writing whether or not a determination has been made that the patient has or does not have an infectious disease. If a determination has been made and the patient has been found:

(i) to have an infectious disease, the information required by 50-16-703 must be provided by the health care facility;

(ii) to not have an infectious disease, the date on which the patient was transported to the health care facility must be provided by the health care facility.

(2) If a health care facility receiving a patient determines that the patient has an airborne infectious disease, the health care facility shall, within 48 hours after the determination was made, notify the designated officer and the department of that fact. The notice to the department must include the name of the emergency services organization that transported the patient to the health care facility. The department shall, within 24 hours after receiving the notice, notify the designated officer of the emergency services provider who transported the patient.

(3) A designated officer who receives the notification from a health care facility required by 50-16-703(2) or by subsection (1)(c) of this section shall immediately provide the information contained in the notification to the emergency services provider for whom the report of exposure was filed or who was exposed to a patient with an airborne infectious disease.

History: En. Sec. 2, Ch. 390, L. 1989; amd. Sec. 7, Ch. 544, L. 1991; amd. Sec. 2, Ch. 476, L. 1993; amd. Sec. 2, Ch. 146, L. 1999.

50-16-703. Notification of precautions after exposure to infectious disease. (1) After a patient is transported to a health care facility and if a physician determines that the transported patient has an infectious disease, the physician shall inform the infectious disease control officer of the health care facility of the determination within 24 hours after the determination is made.

(2) If it is determined that the infectious disease is airborne or a report of exposure was filed concerning the patient under 50-16-702, the health care facility shall provide the notification required by subsection (3) orally within 48 hours after the time of diagnosis and in writing within 72 hours after diagnosis to the designated officer of each emergency services organization known to the health care facility to have provided emergency services to the patient prior to or during transportation to the health care facility.

(3) The notification must state the disease to which the emergency services provider was exposed, the appropriate medical precautions and treatment that the exposed person needs to take, the date on which the patient was transported to the health care facility, and the time that the patient arrived at the facility.

History: En. Sec. 3, Ch. 390, L. 1989; amd. Sec. 3, Ch. 476, L. 1993; amd. Sec. 3, Ch. 146, L. 1999.

50-16-704. Confidentiality — penalty for violation — immunity from liability. (1) The name of the person diagnosed as having an infectious disease may not be released to anyone, including the emergency services provider who was exposed, nor may the name of the emergency services provider who was exposed be released to anyone other than the emergency services provider, except as required by this part, by department rule concerning reporting of communicable disease, or as allowed by Title 50, chapter 16, part 5.

History: En. Sec. 1, Ch. 614, L. 1989.

50-16-1002. Statement of purpose. (1) The legislature recognizes that the epidemic of human immunodeficiency virus (HIV) infection, the causative agent of acquired immune deficiency syndrome (AIDS), and related medical conditions constitutes a serious danger to the public health and welfare. In the absence of a vaccine or a cure and because of the sexual and intravenous drug use behaviors by which the virus is predominately spread, control of the epidemic is dependent on the education of those infected or at risk for infection.

(2) It is the intent of the legislature that education directed at preventing the transmission of HIV be provided to those infected and at risk of infection and to entreat such persons to come forward to determine their HIV infection status and to obtain appropriate education.

(2) When a health care provider orders an HIV-related test, the provider also certifies that informed consent has been received prior to ordering an HIV-related test.

(3) Before the subject of the test gives informed consent, the health care provider ordering the test or the provider's designee shall give pretest counseling to:

(a) the subject;

(b) the subject's legal guardian;

(c) the subject's next of kin or significant other if:

(i) the subject is unconscious or otherwise mentally incapacitated; and

(4) A health care provider who does not provide HIV-related tests on an anonymous basis shall inform each person who wishes to be tested that anonymous testing is available at one of the counseling-testing sites established by the department, or elsewhere.

(5) The subject of an HIV-related test or any of the subject's representatives authorized by subsection (1) to act in the subject's stead shall designate, after giving informed consent, a health care provider to receive the results of an HIV-related test. The designated health care provider shall inform the subject or the subject's representative of the results in person.

If informed consent cannot be obtained, the health care facility, in accordance with the infectious disease exposure guidelines of the health care facility, may, without the consent of the patient, conduct the test on previously drawn blood or previously collected bodily fluids to determine if the patient is in fact infected. A health care facility is not required to perform a test authorized in this subsection. If a test is conducted pursuant to this subsection, the health care facility shall inform the patient of the results and provide the patient with posttest counseling. Many community professionals have expertise that can be used to promote the health, safety, and welfare of fetuses, infants, and children. The use of these professionals in reviewing fetal, infant, and child deaths can lead to a greater understanding of the causes of death and the methods of preventing deaths. It is the intent of the legislature to encourage local communities to establish voluntary multidisciplinary fetal, infant, and child mortality review teams to study the incidence and causes of fetal, infant, and child deaths.

(2) A health care provider may disclose information about a patient without the patient's authorization or without the authorization of the representative of a patient who is deceased upon request of a local fetal, infant, and child mortality review team. Montana Abortion Control Act

Part Cross-References

Rights of unborn, 41-1-103.

50-20-101. Short title. This chapter shall be known and may be cited as the "Montana Abortion Control Act".

History: En. 94-5-613 by Sec. 1, Ch. 284, L. 1974; R.C.M. 1947, 94-5-613.

50-20-102. Statement of purpose — findings. (1) The legislature reaffirms the tradition of the state of Montana to protect every human life, whether unborn or aged, healthy or sick. In keeping with this tradition and in the spirit of our constitution, we reaffirm the intent to extend the protection of the laws of Montana in favor of all human life. It is the policy of the state to preserve and protect the lives of all human beings and to provide protection for the viable human life. The protection afforded to a person by Montana's constitutional right of privacy is not absolute, but may be infringed upon by a compelling state interest. The legislature finds that a compelling state interest exists in the protection of viable life.

(2) The legislature finds, with respect to 50-20-401, that:

(a) the United States supreme court has determined that states have a legitimate interest in protecting both a woman's health and the potentiality of human life and that each interest grows and reaches a compelling point at various stages of a woman's approach to the full term of a pregnancy;

(b) the court has also determined that subsequent to viability, the state in promoting its interest in the potentiality of human life may, if it chooses, regulate and even proscribe abortion except when necessary, in appropriate medical judgment, for the preservation of the life or health of the woman;

(c) the holdings referred to in subsections (2)(a) and (2)(b) apply to unborn persons in order to extend to unborn persons the inalienable right to defend their lives and liberties;

(d) absent clear proof that an abortion is necessary to save the life of the woman, the abortion of a viable person is an infringement of that person's rights; and

(e) the state has a duty to protect innocent life and that duty has grown to a compelling point with respect to partial-birth abortion.

History: En. 94-5-614 by Sec. 2, Ch. 284, L. 1974; R.C.M. 1947, 94-5-614; amd. Sec. 1, Ch. 479, L. 1999.

50-20-103. Legislative intent. It is the intent of the legislature to restrict abortion to the extent permissible under decisions of appropriate courts or paramount legislation.

History: En. 94-5-623 by Sec. 11, Ch. 284, L. 1974; R.C.M. 1947, 94-5-623.

(1) "Abortion" means the use or prescription of any instrument, medicine, drug, or other substance or device to intentionally terminate the pregnancy of a woman known to be pregnant, with an intention other than to increase the probability of a live birth, to preserve the life or health of the child after live birth, or to remove a dead fetus.

(2) "Attempted abortion" or "attempted" means an act or an omission of a statutorily required act that, under the circumstances as the actor believes them to be, constitutes a substantial step in a course of conduct planned to culminate in the performance of an abortion in violation of this chapter.

(3) "Department" means the department of public health and human services provided for in 2-15-2201.

(4) "Facility" means a hospital, health care facility, physician's office, or other place in which an abortion is performed.

(i) the particular medical risks associated with the particular abortion procedure to be employed, including, when medically accurate, the risks of infection, hemorrhage, breast cancer, danger to subsequent pregnancies, and infertility;

(ii) the probable gestational age of the unborn child at the time the abortion is to be performed; and

(iii) the medical risks of carrying the child to term;

(b) the physician or an agent of the physician:

50-20-106. Informed consent. (1) An abortion may not be performed without the informed consent of the woman upon whom the abortion is to be performed. The informed consent must be received at least 24 hours prior to the abortion and certified prior to or at the time of the abortion.

(2) Informed consent must be certified by a written statement in a form prescribed by the department and signed by the physician and the woman upon whom the abortion is to be performed in which the physician certifies that the physician has made the full disclosure provided in 50-20-104(5) and in which the woman upon whom the abortion is to be performed acknowledges that the disclosures have been made to the woman and that the woman voluntarily consents to the abortion.

(3) If a woman chooses to review the written materials described in 50-20-304, the materials must be provided to her at least 24 hours before the abortion or be mailed to the woman by certified mail, with delivery restricted to the addressee, at least 72 hours before the abortion.

(4) The information required in 50-20-104(5)(a) may be provided by telephone without conducting a physical examination or tests of the patient. The information may be based on facts supplied to the physician by the woman and other relevant information that is reasonably available to the physician. The information may not be provided by a tape recording but must be

provided during a consultation in which the physician is able to ask questions of the woman and the woman is able to ask questions of the physician. If a physical examination, tests, or the availability of other information subsequently indicates, in the medical judgment of the physician, a revision of information previously provided to the patient, the revised information may be communicated to the patient at any time prior to the performance of the abortion.

(5) The information required in 50-20-104(5)(b) may be provided by a tape recording if provision is made to record or otherwise register specifically whether the woman does or does not choose to review the printed materials.

(6) The informed consent or consent provided for in this section is not required if a licensed physician certifies that the abortion is necessary because of a medical emergency as defined in 50-20-303.

(7) An executive officer, administrative agency, or public employee of the state or of any local governmental body may not issue any order requiring an abortion or coerce any woman to have an abortion. A person may not coerce any woman to have an abortion.

(2) Whenever a premature infant which is the subject of abortion is born alive and is viable, it becomes a dependent and neglected child subject to the provisions of state law, unless:

(a) the termination of the pregnancy is necessary to preserve the life of the mother; or

(b) the mother and her spouse or either of them have agreed in writing in advance of the abortion or within 72 hours thereafter to accept the parental rights and responsibilities of the premature infant if it survives the abortion procedure.

(a) except by a licensed physician;

(b) after viability of the fetus, except as provided in subsection (2).

(2) An abortion under subsection (1)(b) may be performed only to preserve the life or health of the mother and only if:

(a) the judgment of the physician who is to perform the abortion is first certified in writing by the physician, setting forth in detail the facts relied upon in making the judgment; and

50-20-110. Reporting of practice of abortion. (1) Every facility in which an abortion is performed within the state shall keep on file upon a form prescribed by the department a statement dated and certified by the physician who performed the abortion setting forth such information with respect to the abortion as the department by regulation shall require, including but not limited to information on prior pregnancies, the medical procedure employed to administer the abortion, the gestational age of the fetus, the vital signs of the fetus after abortion, if any, and if after viability, the medical procedures employed to protect and preserve the life and health of the fetus.

(2) The physician performing an abortion shall cause such pathology studies to be made in connection therewith as the department shall require by regulation, and the facility shall keep the reports thereof on file.

(3) In connection with an abortion, the facility shall keep on file the original of each of the documents required by this chapter relating to informed consent, consent to abortion, certification of necessity of abortion to preserve the life or health of the mother, and certification of necessity of abortion to preserve the life of the mother.

(4) Such facility shall, within 30 days after the abortion, file with the department a report upon a form prescribed by the department and certified by the custodian of the records or physician in charge of such facility setting forth all of the information required in subsections (1), (2), and (3) of this section, except such information as would identify any individual involved with the abortion. The report shall exclude copies of any documents required to be filed by subsection (3) of this section, but shall certify that such documents were duly executed and are on file.

(5) All reports and documents required by this chapter shall be treated with the confidentiality afforded to medical records, subject to such disclosure as is permitted by law. Statistical data not identifying any individual involved in an abortion shall be made public by the department annually, and the report required by subsection (4) of this section to be filed with the department shall be available for public inspection except insofar as it identifies any individual involved in an abortion. Names and identities of persons submitting to abortion shall remain confidential among medical and medical support personnel directly involved in the abortion and among persons working in the facility where the abortion was performed whose duties include billing the patient or submitting claims to an insurance company, keeping facility records, or processing abortion data required by state law.

(6) Violation of this section is a misdemeanor and is punishable as provided in 46-18-212.

50-20-111. Right to refuse participation in abortion. (1) No private hospital or health care facility shall be required contrary to the religious or moral tenets or the stated religious beliefs or moral convictions of its staff or governing board to admit any person for the purpose of abortion or to permit the use of its facilities for such purpose. Such refusal shall not give rise to liability of such hospital or health care facility or any personnel or agent or governing board thereof to any person for damages allegedly arising from such refusal or be the basis for any discriminatory, disciplinary, or other recriminatory action against such hospital or health care facility or any personnel, agent, or governing board thereof.

(2) All persons shall have the right to refuse to advise concerning, perform, assist, or participate in abortion because of religious beliefs or moral convictions. If requested by any hospital or health care facility or person desiring an abortion, such refusal shall be in writing signed by the person refusing, but may refer generally to the grounds of "religious beliefs and moral convictions". The refusal of any person to advise concerning, perform, assist, or participate in abortion shall not be a consideration in respect of staff privileges of any hospital or health care facility or a basis for any discriminatory, disciplinary, or other recriminatory action against such person, nor shall such person be liable to any person for damages allegedly arising from refusal.

(3) It shall be unlawful to interfere or attempt to interfere with the right of refusal authorized by this section. The person injured thereby shall be entitled to injunctive relief, when appropriate, and shall further be entitled to monetary damages for injuries suffered.

(4) Such refusal by any hospital or health care facility or person shall not be grounds for loss of any privileges or immunities to which the granting of consent may otherwise be a condition precedent or for the loss of any public benefits.

(5) As used in this section, the term "person" includes one or more individuals, partnerships, associations, and corporations.

(2) A person convicted of a felony other than deliberate, mitigated, or negligent homicide under this chapter is subject to a fine not to exceed $1,000, imprisonment in the state prison for a term not to exceed 5 years, or both.

(4) (a) A penalty may not be imposed against the woman upon whom the abortion is performed or attempted to be performed.

(b) A penalty may not be imposed for failure to comply with the provision of 50-20-106 that requires a written certification that the woman has been informed of the opportunity to review the information referred to in 50-20-304 if the department has not made the written materials available at the time that the physician or the physician's agent is required to inform the woman of the right to review the materials.

Part 2
Parental Notice of Abortion Act

50-20-201. Short title. This part may be cited as the "Parental Notice of Abortion Act".
History: En. Sec. 1, Ch. 469, L. 1995.

50-20-202. Legislative purpose and findings. (1) The legislature finds that:

(a) immature minors often lack the ability to make fully informed choices that take into account both immediate and long-range consequences;

(b) the medical, emotional, and psychological consequences of abortion are sometimes serious and can be lasting, particularly when the patient is immature;

(c) the capacity to become pregnant and the capacity for mature judgment concerning the wisdom of an abortion are not necessarily related;

(d) parents ordinarily possess information essential to a physician in the exercise of the physician's best medical judgment concerning the minor;

(e) parents who are aware that their minor daughter has had an abortion may better ensure that the daughter receives adequate medical care after the abortion; and

(f) parental consultation is usually desirable and in the best interests of the minor.

(2) The purpose of this part is to further the important and compelling state interests of:

(a) protecting minors against their own immaturity;

(b) fostering family unity and preserving the family as a viable social unit;

(c) protecting the constitutional rights of parents to rear children who are members of their household; and

(d) reducing teenage pregnancy and unnecessary abortion.

History: En. Sec. 2, Ch. 469, L. 1995.

50-20-203. Definitions. As used in this part, unless the context requires otherwise, the following definitions apply:

(1) "Actual notice" means the giving of notice directly in person or by telephone.

(2) "Coercion" means restraining or dominating the choice of a minor female by force, threat of force, or deprivation of food and shelter.

(3) "Emancipated minor" means a person under 18 years of age who is or has been married or who has been granted an order of limited emancipation by a court as provided in 41-3-438.

(4) "Incompetent person" means a person who is an incapacitated person or a protected person who has had a guardian appointed pursuant to Title 72, chapter 5.

(5) "Medical emergency" means a condition that, on the basis of the physician's good faith clinical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of the woman's pregnancy to avert the woman's death or a condition for which a delay in treatment will create serious risk of substantial and irreversible impairment of a major bodily function.

(6) "Minor" means a female under 18 years of age who is not an emancipated minor.

(7) "Physical abuse" means any physical injury intentionally inflicted by a parent or legal guardian on a child.

(8) "Physician" means a person licensed to practice medicine under Title 37, chapter 3.

(9) "Sexual abuse" has the meaning given in 41-3-102.

History: En. Sec. 3, Ch. 469, L. 1995.

50-20-204. Notice of parent required. A physician may not perform an abortion upon a minor or an incompetent person unless the physician has given at least 48 hours' actual notice to one parent or to the legal guardian of the pregnant minor or incompetent person of the physician's intention to perform the abortion. The actual notice may be given by a referring physician. The physician who performs the abortion must receive the written statement of the referring physician certifying that the referring physician has given actual notice. If actual notice is not possible after a reasonable effort, the physician or the physician's agent shall give alternate notice as provided in 50-20-205.

History: En. Sec. 4, Ch. 469, L. 1995.

50-20-205. Alternate notification. In lieu of the actual notice required by 50-20-204, notice may be made by certified mail addressed to the parent at the usual place of residence of the parent with return receipt requested and delivery restricted to the addressee, which means a postal employee may deliver the mail only to the authorized addressee. Time of delivery is considered to occur at noon on the next day on which regular mail delivery takes place after mailing.

History: En. Sec. 5, Ch. 469, L. 1995.

50-20-206 and 50-20-207 reserved.

50-20-208. Exceptions. Notice is not required under 50-20-204 or 50-20-205 if:

(1) the attending physician certifies in the patient's medical record that a medical emergency exists and there is insufficient time to provide notice;

(2) notice is waived, in writing, by the person entitled to notice; or

(3) notice is waived under 50-20-212.

History: En. Sec. 6, Ch. 469, L. 1995.

50-20-209. Coercion prohibited. A parent, a guardian, or any other person may not coerce a minor to have an abortion. If a minor is denied financial support by the minor's parents, guardian, or custodian because of the minor's refusal to have an abortion, the minor must be considered an emancipated minor for the purposes of eligibility for public assistance benefits. The public assistance benefits may not be used to obtain an abortion.

History: En. Sec. 7, Ch. 469, L. 1995.

50-20-210 reserved.

50-20-211. Reports. A monthly report indicating the number of notices issued under this part and the number of times in which exceptions were made to the notice requirement under 50-20-208, as well as the type of exceptions, must be filed with the department of public health and human services on forms prescribed by the department. Patient names and other identifying information may not be used on the forms. The department shall prepare and make available to the public on an annual basis a compilation of the data reported.

History: En. Sec. 8, Ch. 469, L. 1995.

50-20-212. Procedure for judicial waiver of notice. (1) The requirements and procedures under this section are available to minors and incompetent persons whether or not they are residents of this state.

(2) (a) The minor or incompetent person may petition the youth court for a waiver of the notice requirement and may participate in the proceedings on the person's own behalf. The petition must include a statement that the petitioner is pregnant and is not emancipated. The court may appoint a guardian ad litem for the petitioner. A guardian ad litem is required to maintain the confidentiality of the proceedings. The youth court shall advise the petitioner of the right to court-appointed counsel and shall provide the petitioner with counsel upon request.

(b) If the petition filed under subsection (2)(a) alleges abuse as a basis for waiver of notice, the youth court shall treat the petition as a report under 41-3-202. The provisions of Title 41, chapter 3, part 2, apply to an investigation conducted pursuant to this subsection.

(3) Proceedings under this section are confidential and must ensure the anonymity of the petitioner. All proceedings under this section must be sealed. The petitioner may file the petition using a pseudonym or using the petitioner's initials. All documents related to the petition are confidential and are not available to the public. The proceedings on the petition must be given preference over other pending matters to the extent necessary to ensure that the court reaches a prompt decision. The court shall issue written findings of fact and conclusions of law and rule within 48 hours of the time that the petition is filed unless the time is extended at the request of the petitioner. If the court fails to rule within 48 hours and the time is not extended, the petition is granted and the notice requirement is waived.

(4) If the court finds by clear and convincing evidence that the petitioner is sufficiently mature to decide whether to have an abortion, the court shall issue an order authorizing the minor to consent to the performance or inducement of an abortion without the notification of a parent or guardian.

(5) The court shall issue an order authorizing the petitioner to consent to an abortion without the notification of a parent or guardian if the court finds, by clear and convincing evidence, that:

(a) there is evidence of a pattern of physical, sexual, or emotional abuse of the petitioner by one or both parents, a guardian, or a custodian; or

(b) the notification of a parent or guardian is not in the best interests of the petitioner.

(6) If the court does not make a finding specified in subsection (4) or (5), the court shall dismiss the petition.

(7) A court that conducts proceedings under this section shall issue written and specific findings of fact and conclusions of law supporting its decision and shall order that a confidential record of the evidence, findings, and conclusions be maintained.

(8) The supreme court may adopt rules providing an expedited confidential appeal by a petitioner if the youth court denies a petition. An order authorizing an abortion without notice is not subject to appeal.

(9) Filing fees may not be required of a pregnant minor who petitions a court for a waiver of parental notification or appeals a denial of a petition.

History: En. Sec. 9, Ch. 469, L. 1995.

50-20-213 and 50-20-214 reserved.

50-20-215. Criminal and civil penalties. (1) A person convicted of performing an abortion in violation of 50-20-204 or 50-20-205 shall be fined an amount not to exceed $500 or be imprisoned in the county jail for a term not to exceed 6 months, or both.

(2) Failure to provide the notice required under 50-20-204 or 50-20-205 is prima facie evidence in an appropriate civil action for a violation of a professional obligation. The evidence does not apply to issues other than failure to notify the parents or guardian. A civil action may be based on a claim that the failure to notify was the result of a violation of the appropriate legal standard of care. Failure to provide notice is presumed to be actual malice pursuant to the provisions of 27-1-221. This part does not limit the common-law rights of parents.

(3) A person who coerces a minor to have an abortion is guilty of a misdemeanor and upon conviction shall be fined an amount not to exceed $1,000 or be imprisoned in the county jail for a term not to exceed 1 year, or both. On a second or subsequent conviction, the person shall be fined an amount not less than $500 and not more than $50,000 and be imprisoned in the state prison for a term not less than 10 days and not more than 5 years, or both.

(4) A person not authorized to receive notice under 50-20-205 who signs a notice of waiver as provided in 50-20-208(2) is guilty of a misdemeanor.

History: En. Sec. 10, Ch. 469, L. 1995.

Part 3
Woman's Right to Know

50-20-301. Short title. This part may be cited as the "Woman's Right-to-Know Act".

History: En. Sec. 1, Ch. 566, L. 1995.

50-20-302. Legislative purpose and findings. (1) The legislature finds that:

(a) it is essential to the psychological and physical well-being of a woman who is considering an abortion that the woman receive complete and accurate information on alternatives;

(b) the knowledgeable exercise of a woman's decision to have an abortion depends on the extent to which the woman receives sufficient information to make an informed choice between the alternatives of giving birth and having an abortion;

(c) in most instances, the only contact with a physician that a woman who has an abortion has occurs simultaneously with the abortion procedure, with little opportunity to receive counseling concerning the decision;

(d) the decision to abort is an important and often stressful one, and it is desirable and imperative that it be made with full knowledge of its nature and consequences;

(e) the medical, emotional, and psychological consequences of an abortion are serious and can be lasting;

(f) some abortion facilities or providers offer only limited or impersonal counseling opportunities; and

(g) some abortion facilities or providers hire untrained and unprofessional counselors whose primary goal is to sell abortion services.

(2) Based on the findings in subsection (1), it is the purpose of this part to:

(a) ensure that every woman who is considering an abortion receive complete information on alternatives and that every woman submitting to an abortion do so only after giving informed consent to the abortion procedure;

(b) protect unborn children from a woman's uninformed decision to have an abortion; and

(c) reduce the risk that a woman may elect an abortion, only to discover later, with devastating psychological consequences, that the decision was not fully informed.

History: En. Sec. 2, Ch. 566, L. 1995.

50-20-303. Definitions. As used in this part, unless the context requires otherwise, the following definitions apply:

(1) "Medical emergency" means a condition that, on the basis of the physician's good faith clinical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of the woman's pregnancy to avert the woman's death or for which a delay will create serious risk of substantial and irreversible impairment of a major bodily function.

(2) "Physician" means a person licensed to practice medicine under Title 37, chapter 3.

(3) "Pregnant" or "pregnancy" means that female reproductive condition of having an unborn child in the woman's body.

(4) "Unborn child" means the offspring of human beings from conception until birth.

History: En. Sec. 3, Ch. 566, L. 1995.

50-20-304. Publication of materials. (1) The department shall publish and annually update easily comprehensible printed, unbiased materials that are geographically indexed and designed to inform women of public and private agencies and services available to assist a woman through pregnancy, during childbirth, and while a woman's child is dependent. The materials must:

(a) include adoption agencies;

(b) include a comprehensive list of the agencies, a description of the services offered, and the telephone numbers and addresses of the agencies;

(c) inform a woman about medical assistance benefits for prenatal care, childbirth, neonatal care, and child support obligations of a father of a child.

(2) The department shall ensure that the materials described in this section are comprehensive and do not directly or indirectly promote, exclude, or discourage the use of any agency or service. The materials must include a toll-free, 24-hour telephone number that may be called to orally obtain a list and description of agencies in the locality of the caller and of the services offered by the agencies.

(3) The materials must state that:

(a) it is unlawful for any individual to coerce a woman to undergo or not to undergo an abortion;

(b) a physician who performs an abortion on a woman without the woman's informed consent may be liable to the woman for damages in a civil action; and

(c) the law allows adoptive parents to pay the costs of prenatal care, childbirth, and neonatal care.

(4) The materials must inform the pregnant woman of the probable anatomical and physiological characteristics of the unborn child at 2-week gestational increments from fertilization to full term, including pictures or drawings representing the development of unborn children at 2-week gestational increments. The pictures or drawings must contain the dimensions of the unborn child and must be realistic. The materials must include any relevant information on the possibility of the unborn child's survival at each stage depicted. The materials must be objective, nonjudgmental, and designed to convey only accurate scientific information about the unborn child at the various gestational ages. The materials must contain objective information describing the methods of abortion procedures commonly employed, the medical risks commonly associated with each procedure, the possible detrimental psychological effects of abortion, the possible detrimental psychological effects of adoption, and the medical risks associated with carrying a child to term.

(5) The materials must be printed in a clearly legible typeface.

(6) The materials required to be produced under this section must be provided at no cost upon request and must be provided in appropriate quantities to any person, facility, or hospital.

History: En. Sec. 4, Ch. 566, L. 1995.

50-20-305. Emergency. When a medical emergency compels the performance of an abortion, the physician shall inform the woman, before the abortion if possible, of the medical indications supporting the physician's judgment that an abortion is necessary to avert the woman's death or that a 24-hour delay will create serious risk of substantial and irreversible impairment of a major bodily function.

History: En. Sec. 5, Ch. 566, L. 1995.

50-20-306. Physician reporting requirements — penalty — action — department report. (1) Within 90 days after July 1, 1995, the department shall prepare a reporting form to be used by physicians that contains a reprint of this chapter and on which the physician shall list:

(i) the number of women provided the information by telephone and the number to whom it was provided in person; and

(ii) the number of women in each group referred to in subsection (1)(a)(i) to whom the physician provided the information in the capacity of a referring physician and the number to whom it was provided in the capacity of a physician who is to perform the abortion;

(b) the number of women to whom the physician or an agent of the physician provided the information described in 50-20-104(5)(b), including:

(i) the number of women to whom the physician provided the information by telephone and the number to whom it was provided in person;

(ii) the number of women in each group referred to in subsection (1)(b)(i) to whom the physician provided the information in the capacity of a referring physician and the number to whom it was provided in the capacity of a physician who is to perform the abortion; and

(iii) the number of women in each group referred to in subsection (1)(b)(ii) to whom information was provided by the physician and the number to whom it was provided by an agent of the physician;

(c) the number of women who availed themselves of the opportunity to obtain a copy of the printed information described in 50-20-304 and the number who did not;

(d) of each of the numbers described in subsections (1)(a) through (1)(c), the number who, to the best of the reporting physician's information and belief, obtained an abortion; and

(e) the number of abortions that were performed by the physician but in which information otherwise required to be provided at least 24 hours before the abortion was not provided because:

(i) an immediate abortion was necessary to avert the woman's death; or

(ii) a delay would create serious risk of substantial and irreversible impairment of a major bodily function.

(2) The department shall ensure that copies of the reporting forms described in subsection (1) are provided:

(a) by 120 days after July 1, 1995, to all physicians licensed in this state;

(b) to each physician licensed to practice after July 1, 1995, at the time of licensure;

(c) by December 1 of each succeeding year, to all physicians licensed to practice in this state.

(3) By February 28 of each year, each physician or the physician's agent who provided information to one or more women in accordance with 50-20-106 shall submit a copy of the reporting form described in subsection (1) to the department with the requested data entered accurately and completely.

(4) Reports that are not submitted by March 31 are subject to a penalty of $500 for each 30-day period that the reports are overdue. A physician who is required to report but who, more than 1 year after the due date, has not submitted a report or who has submitted an incomplete report may, in an action brought by the department, be directed by a district court to submit a complete report within a period stated in the court order or be subject to sanctions for civil contempt.

(5) By June 30 of each year, the department shall issue a public report providing statistics for the previous calendar year submitted in accordance with this section for each of the items

listed in subsection (1). Each report must provide the statistics for all previous calendar years, adjusted to reflect information from late or corrected reports. The department shall ensure that none of the information included in the public reports could reasonably lead to the identification of an individual who was provided information in accordance with 50-20-106. The department shall design the reporting process to ensure that confidentiality regarding the physician or the physician's agent is maintained in the department records.

(6) The department may, by rule, alter the dates established by subsection (2)(c), (3), or (5) or consolidate the forms or reports described in this section with other forms or reports to achieve administrative convenience, achieve fiscal savings, or reduce the burden of reporting requirements. However, reporting forms must be sent to all licensed physicians at least once a year, and the report described in subsection (5) must be issued at least once a year.

50-30-201. Hazardous substance defined. (1) "Hazardous substance" means:

(a) a substance or mixture of substances which:

(i) is toxic;

(ii) is corrosive;

(iii) is an irritant;

(iv) is a strong sensitizer;

(v) is flammable or combustible; or

(vi) generates pressure through decomposition, heat, or other means if the substance or mixture of substances may cause substantial personal injury or substantial illness during or as a proximate result of any customary or reasonably foreseeable handling or use, including reasonably foreseeable ingestion by children;

(b) substances which the department by rule finds under 50-30-215 meet the requirements of subsection (1)(a) of this section;

(c) a radioactive substance if, with respect to the substance as used in a particular class of article or as packaged, the department determines by rule that the substance is sufficiently hazardous to require labeling in accordance with this chapter in order to protect the public health; or

(d) a toy or other article intended for use by children which presents an electrical, mechanical, or thermal hazard as determined by the department by rule in accordance with 50-30-220.

(2) (a) The term "hazardous substance" does not apply to pesticides subject to the federal Pesticide Environmental Control Act or the Montana Pesticides Act, to foods, drugs, and cosmetics subject to the Montana Food, Drug, and Cosmetic Act, or to substances intended for use as fuels when stored in containers and used in the heating, cooking, or refrigeration system of a house.

(b) The term applies, however, to an article which is not itself a pesticide within the meaning of the federal Pesticide Environmental Control Act or the Montana Pesticide Act but which is a hazardous substance within the meaning of subsection (1) of this section by reason of bearing or containing a pesticide.

(c) The term also applies to pesticides whenever human health is directly affected from the use or misuse of pesticides requiring an accident investigation for the purpose of preparing recommendations to federal or state pesticide control agencies.

(3) The term "hazardous substance" does not include source material, special nuclear material, or byproduct material as defined in the Atomic Energy Act of 1954, as amended, and rules issued pursuant thereto by the atomic energy commission.

(1) "Misbranded hazardous substance" means a hazardous substance (including a toy or other article intended for use by children which is a hazardous substance or which bears or contains a hazardous substance in such a manner as to be susceptible of access by a child to whom the toy or other article is entrusted) intended or packaged in a form suitable for use by the public or by children which, except as otherwise provided under 50-30-216 or 50-30-217, fails to bear a label:

(a) which states conspicuously:

(i) the name and place of business of the manufacturer, packer, distributor, or seller;

(ii) the common or usual name or the chemical name (if there is not a common or usual name) of the hazardous substance or each component which contributes substantially to its hazard unless the department by rule permits or requires the use of a recognized generic name;

(iii) the signal word "danger" on substances which are extremely flammable, corrosive, or highly toxic;

(iv) the signal word on all other hazardous substances;

(v) an affirmative statement of the principal hazard or hazards, such as:

(A) "flammable";

(B) "combustible";

(C) "vapor harmful";

(D) "causes burns";

(E) "absorbed through skin"; or

(F) similar wording descriptive of the hazard;

(vi) precautionary measures describing the action to be followed or avoided, except when modified by a rule of the department under 50-30-216 or 50-30-217;

(vii) instruction, when necessary or appropriate, for first-aid treatment;

(viii) "poison" for any hazardous substance which is defined as "highly toxic" by 50-30-205; and

(ix) instructions for handling and storage of packages which require special care in handling or storage such as:

(A) "keep out of the reach of children" or its practical equivalent; or

(B) if the article is intended for use by children and is not a banned hazardous substance, adequate directions for the protection of children from the hazard; and

(b) on which a statement required under subsection (1)(a) of this section is located prominently and is in the English language in conspicuous and legible type in contrast by typography, layout, or color with other printed matter on the label.

(2) The reuse of a food, drug, or cosmetic container as a container for a hazardous substance shall be deemed to be an act which results in the hazardous substance being a misbranded hazardous substance. As used in this subsection, the terms "food", "drug", and "cosmetic" shall have the same meanings as in the Montana Food, Drug, and Cosmetic Act.

(b) a hazardous substance intended or packaged in a form suitable for use by the general public which the department by rule classifies as a banned hazardous substance on the basis of a finding that, notwithstanding such cautionary labeling as is or may be required under this chapter for that substance, the degree or nature of the hazard involved in the presence or use of the substance by the general public is such that the objective of the protection of the public health and safety can be adequately served only by keeping the substance, when so intended or packaged, out of the channels of commerce.

(2) The department by rule shall exempt from subsection (1)(a) of this section articles such as chemical sets which, by reason of their functional purpose, require the inclusion of the hazardous substance involved or necessarily present an electrical, mechanical, or thermal hazard and which bear labeling giving adequate directions and warnings for safe use and are intended for use by children who have attained sufficient maturity and may reasonably be expected to read and heed the directions and warnings.

(3) Proceedings for the issuance, amendment, or repeal of rules under subsections (1)(b) and (2) of this section shall be governed by the provisions of 50-30-219 and 50-30-220.

(2) If, before or during a proceeding under subsection (1) of this section, the department finds that because of an electrical, mechanical, or thermal hazard distribution of a toy or other article involved presents an imminent hazard to the public health and the department gives notice of the finding, the toy or other article is a banned hazardous substance for purposes of this chapter until the proceeding has been completed. If not yet initiated when the notice is given, the proceeding shall be initiated as promptly as possible.

(3) (a) In the case of a toy or other article intended for use by children which is determined by the department to present an electrical, mechanical, or thermal hazard, a person who will be adversely affected by the determination may, at any time before the 60th day after the rule making the determination is issued by the department, file a petition with the court for a judicial review of the determination. A copy of the petition shall be immediately transmitted by the clerk of the court to the department. The department shall file in the court the record of the proceedings on which the department based its determination.

(b) If the petitioner applies to the court for leave to adduce additional evidence and shows to the satisfaction of the court that the additional evidence is material and that there was no opportunity to adduce the evidence in the proceeding before the department, the court may order the additional evidence (and evidence in rebuttal thereof) to be taken before the department in a hearing or in another manner and upon other terms and conditions as the court considers proper. The department may modify its findings as to the facts or make new findings by reason of the additional evidence so taken, and it shall file the modified or new findings and its recommendation, if any, for the modification or setting aside of its original determination with the return of the additional evidence.

(c) Upon the filing of the petition under subsection (3) of this section, the court has jurisdiction to review the determination of the department. If the court ordered additional evidence to be taken under subsection (3)(b) of this section, the court shall also review the department's determination to determine if, on the basis of the entire record before the court under subsections (3)(a) and (3)(b) of this section, it is supported by substantial evidence. If the court finds the determination is not so supported, the court may set it aside. With respect to a determination reviewed under subsection (3) of this section, the court may grant appropriate relief pending conclusion of the review proceedings.

(1) it bears or contains any poisonous or deleterious substance that may render it injurious to health. If the poisonous or deleterious substance is not an added substance, the food may not be considered adulterated under this subsection if the quantity of the substance in that food does not ordinarily render it injurious to health.

(2) it bears or contains any added poisonous or added deleterious substance, other than one that is:

(a) a pesticide chemical in or on a raw agricultural commodity;

(b) a food additive; or

(c) a color additive that is unsafe within the meaning of 50-31-109;

(3) it is a raw agricultural commodity and it bears or contains a pesticide chemical that is unsafe within the meaning of section 408(a) of the federal act (21 U.S.C. 346a(a)), as amended;

(4) it is or it bears or contains any food additive that is unsafe within the meaning of section 409 of the federal act (21 U.S.C. 348) as amended. However, if a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or

tolerance prescribed under section 408 of the federal act (21 U.S.C. 346) and the raw agricultural commodity has been subjected to processing, such as canning, cooking, freezing, dehydrating, or milling, the residue of the pesticide chemical remaining in or on the processed food may, notwithstanding the provisions of 50-31-108, 50-31-109, and subsection (4) of this section, not be determined unsafe if the residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice and the concentration of the residue in the processed food when ready to eat is not greater than the tolerance prescribed for the raw agricultural commodity.

(5) it consists in whole or in part of a diseased, contaminated, filthy, putrid, or decomposed substance or if it is otherwise unfit for food;

(6) it has been produced, prepared, packed, or held under unsanitary conditions under which it may have become contaminated with filth or under which it may have been rendered diseased, unwholesome, or injurious to health;

(7) it is the product of a diseased animal or an animal that has died otherwise than by slaughter or that has been fed upon the uncooked offal from a slaughterhouse;

(8) its container is composed in whole or in part of any poisonous or deleterious substance that may render the contents injurious to health;

(9) any valuable constituent has been in whole or in part omitted or abstracted from the food;

(10) any substance has been substituted wholly or in part for the food;

(11) damage or inferiority has been concealed in any manner;

(12) any substance has been added to the food or mixed or packed with the food so as to increase its bulk or weight, reduce its quality or strength, or make it appear better or of greater value than it is;

(13) it is confectionery and it bears or contains any alcohol or nonnutritive article or substance except harmless coloring, harmless flavoring, harmless resinous glaze not in excess of 0.4%, harmless natural wax not in excess of 0.4%, or harmless natural gum and pectin. However, this paragraph does not apply to any confectionery by reason of its containing less than 0.5% by volume of alcohol derived solely from the use of flavoring extracts or to any chewing gum by reason of its containing harmless nonnutritive masticatory substances.

(2) has been produced, prepared, packed, or held under unsanitary conditions whereby it may have been contaminated with filth or rendered injurious to health;

(3) is a drug and the methods used in or the facilities or controls used for its manufacture, processing, packing, or holding do not conform to or are not operated or administered in conformity with current good manufacturing practice to assure that such drug meets the requirements of this chapter as to safety and has the identity and strength and meets the quality and purity characteristics which it purports or is represented to possess;

(4) is a drug and its container is composed in whole or in part of any poisonous or deleterious substance which may render the contents injurious to health;

(5) is a drug and it bears or contains, for purposes of coloring only, a color additive which is unsafe within the meaning of the federal act or it is a color additive, the intended use of which in or on drugs is for purposes of coloring only, and is unsafe within the meaning of the federal act;

(6) purports to be or is represented as a drug, the name of which is recognized in an official compendium, and its strength differs from or its quality or purity falls below the standard set forth in such compendium. Such determination as to strength, quality, or purity shall be made in accordance with the tests or methods of assay set forth in such compendium or, in the absence of or inadequacy of such tests or methods of assay, those prescribed under authority of the federal act. 50-31-306. When drug or device misbranded. (1) A drug or device is considered to be misbranded:

(a) if its labeling is false or misleading in any particular;

(b) if in package form unless it bears a label containing:

(i) the name and place of business of the manufacturer, packer, or distributor, except that a prescription drug must contain the name and place of business of the manufacturer as well as the packer or distributor; and

(ii) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count; provided that reasonable variation may be permitted and exemptions as to small packages may be allowed in accordance with regulations prescribed by the department or issued under the federal act;

(c) if any word, statement, or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed on the label or labeling with conspicuousness (as compared with other words, statements, designs, or devices in the labeling) and in terms that render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use;

(d) if it is for use by humans and contains any quantity of the narcotic or hypnotic substance alpha-eucaine, barbituric acid, beta-eucaine, bromal, cannabis, carbromal, chloral, coca, cocaine, codeine, heroin, marijuana, morphine, opium, paraldehyde, peyote, sulfonmethane, or any chemical derivative of the substance that, after investigation, has been found to be and designated as habit-forming by regulations issued by the department under this chapter or by regulations issued pursuant to section 502(d) of the federal act (21 U.S.C. 352(d)), unless its label bears the name and quantity or proportion of the substance or derivative in juxtaposition to the statement "Warning—May be habit-forming";

(e) if it is a drug, unless its label bears to the exclusion of any other nonproprietary name (except the applicable systematic chemical name or the chemical formula):

(i) the established name (as defined in 50-31-301) of the drug, if there is one; and

(ii) in case the drug is fabricated from two or more ingredients, the established name and quantity of each active ingredient, including the kind and quantity or proportion of any alcohol and also including, whether active or not, the established name and quantity or proportion of any bromides, ether, chloroform, acetanilid, acetphenetidin, amidopyrine, antipyrine, atropine, hyoscine, hyoscyamine, arsenic, digitalis, digitalis glucosides, mercury, ouabain, strophanthin, strychnine, thyroid, or any derivative or preparation of any such substances contained in the drug. However, the requirement for stating the quantity of the active ingredients, other than the quantity of those specifically named in this subsection (1)(e)(ii), applies only to prescription drugs, and to the extent that compliance with the requirements of this subsection (1)(e)(ii) is impracticable, exemptions may be allowed under regulations promulgated by the department or under the federal act.

(f) unless its labeling bears:

(i) adequate directions for use; however, if any requirement of this subsection (1)(f)(i), as applied to any drug or device, is not necessary for the protection of the public health, the department shall promulgate regulations exempting the drug or device from the requirements, and articles exempted under regulations issued under section 502(f) of the federal act (21 U.S.C. 352(f)) may also be exempt; and

(ii) adequate warnings against use in those pathological conditions or by children when its use may be dangerous to health or adequate warnings against unsafe dosage or methods or duration of administration or application, in a manner and form that are necessary for the protection of users;

(g) if it purports to be a drug, the name of which is recognized in an official compendium unless it is packaged and labeled as prescribed in the compendium. The method of packing may be modified with the consent of the department or if consent is obtained under the federal act. In the event of inconsistency between the requirements of this subsection (1)(g) and those of subsection (1)(e) as to the name by which the drug or its ingredients must be designated, the requirements of subsection (1)(e) prevail.

(h) if it has been found by the department or under the federal act to be a drug liable to deterioration, unless it is packaged in a form and manner and its label bears a statement of precautions that the regulations issued by the department or under the federal act require as necessary for the protection of public health. A regulation may not be established for any drug recognized in an official compendium until the department has informed the appropriate body charged with the revision of the compendium of the need for the packaging or labeling requirements and the body has failed within a reasonable time to prescribe the requirements.

(i) if it is a drug and its container is made, formed, or filled in a way that is misleading;

(j) if it is an imitation of another drug;

(k) if it is offered for sale under the name of another drug;

(l) if it is dangerous to health when used in the dosage or with the frequency or duration prescribed, recommended, or suggested in the labeling;

(m) if it is, purports to be, or is represented as a drug composed wholly or partly of insulin, unless:

(i) it is from a batch with respect to which a certificate or release has been issued pursuant to section 506 of the federal act (21 U.S.C. 356); and

(ii) the certificate or release is in effect with respect to the drug;

(n) if it is, purports to be, or is represented as a drug composed wholly or partly of any kind of penicillin, streptomycin, chlortetracycline, chloramphenicol, bacitracin, any other antibiotic drug, or any derivative thereof unless:

(i) it is from a batch with respect to which a certificate or release has been issued pursuant to section 507 of the federal act (21 U.S.C. 357); and

(ii) the certificate or release is in effect with respect to the drug. This subsection (1)(n) does not apply to any drug or class of drugs exempted by regulations promulgated under section 507(c) or (d) of the federal act (21 U.S.C. 357(c) or (d)).

(o) if it is a color additive, the intended use of which in or on drugs is for the purpose of coloring only, unless its packaging and labeling are in conformity with the packaging and labeling requirements applicable to the color additive prescribed under the provisions of 50-31-108 or of the federal act;

(p) in the case of any prescription drug distributed or offered for sale in this state, unless the manufacturer, packer, or distributor of the drug includes in all advertisements and other descriptive printed matter issued or caused to be issued by the manufacturer, packer, or distributor with respect to that drug a true statement of:

(i) the established name, as defined in 50-31-301;

(ii) the formula showing quantitatively each ingredient of the drug to the extent required for labels under section 502(e) of the federal act (21 U.S.C. 352(e)); and

(iii) other information in brief summary relating to side effects, contraindications, and effectiveness that is required in regulations issued under the federal act; or

(q) if a trademark, trade name, or other identifying mark, imprint, or device or another or any likeness of the foregoing has been placed on the drug or upon its container with intent to defraud.

(2) A drug that is subject to 50-31-307 is considered to be misbranded if, at any time prior to dispensing, its label fails to bear the statement "Caution: Federal Law Prohibits Dispensing Without Prescription", or "Caution: State Law Prohibits Dispensing Without Prescription". A drug to which 50-31-307 does not apply is considered to be misbranded if, at any time prior to dispensing, its label bears the caution statement quoted in the preceding sentence.

(3) If the board suspends or revokes a registration, all dangerous drugs owned or possessed by the registrant at the time of suspension or the effective date of the revocation order may be placed under seal. (1) Before denying, suspending, or revoking a registration or refusing a renewal of registration, the board shall serve upon the applicant or registrant an order to show cause why registration should not be denied, revoked, or suspended or why the renewal should not be refused. The order to show cause shall contain a statement of the basis therefor and shall require the applicant or registrant to appear before the board at a time and place not less than

30 days after the date of service of the order, but in the case of a denial of renewal of registration, the show cause order shall be served not later than 30 days before the expiration of the registration. These proceedings shall be conducted without regard to any criminal prosecution or other proceeding. Proceedings to refuse renewal of registration do not abate the existing registration, which remains in effect pending the outcome of the administrative hearing.

(2) The board may suspend, without an order to show cause, any registration simultaneously with the institution of proceedings under 50-32-311 or whenever renewal of registration is refused if it finds that there is an imminent danger to the public health or safety which warrants such action. The suspension continues in effect until the conclusion of the proceedings, including judicial review thereof, unless sooner withdrawn by the board or dissolved by a court of competent jurisdiction.

Part 1
General Provisions

50-51-101. Findings and purpose of regulation. (1) It is found that the public welfare requires control and regulation of the operation of establishments providing lodging space accommodations and the control, inspection, and regulation of persons providing accommodations in order to prevent or eliminate unsanitary and unhealthful conditions and practices, which conditions and practices may endanger public health. It is further found that the regulation of establishments providing lodging space accommodations is in the interest of social well-being and the health and safety of the state and all of its people.

(2) The legislature recognizes that there is a wide disparity in the type of establishments, especially in the size, the time of year at which the establishments operate, and the ability of small establishments with few employees and a limited operating season to conform to the same standards to which larger establishments are required to conform. These factors must be considered, especially in the operation of small or seasonal businesses that are such an important part of Montana's tourism business. For these reasons, the legislature believes that department rules must be tailored to properly and reasonably address differences in the size, location, purpose, and time of year of operation of certain small or seasonal establishments. The legislature believes that rules governing certain small or seasonal establishments must be limited to requirements meant to ensure basic health standards and should not detract from the rustic, out-of-doors experience offered by many guest ranches and outfitter and guide facilities and desired by many tourists.

(2) A separate license is required for each public swimming pool or public bathing place unless more than one public swimming pool is operated on the same premises by the same person, in which case a single license is required for all public swimming pools on the premises.

(3) The state or a political subdivision of the state owning or operating a public swimming pool or public bathing place is not required to obtain a license under subsection (1) but is

required to comply with the health and safety requirements in part 1, this part, and department rules.

2001 Amendments — Composite Section: Chapter 483 in definition of department substituted reference to department of labor and industry for reference to department of commerce and substituted "part 17" for "part 18"; and made minor changes in style. Amendment effective July 1, 2001.

Chapter 546 inserted definition of county jurisdictional area; substituted definition of municipal jurisdictional area as within limits of incorporated municipality for "means the area within the limits of an incorporated municipality unless the area is extended at the written request of a municipality.

(b) Upon request of a municipality with the written consent of the county in which the municipality is located, the department may approve extension of the jurisdictional area to include:

(i) all or part of the area within 4 ½ miles of the corporate limits of a municipality;

(ii) all of any platted subdivision that is partially within 4 ½ miles of the corporate limits of a municipality; and

(iii) all of any zoning district adopted pursuant to Title 76, chapter 2, part 1 or 2, that is partially within 4 ½ miles of the corporate limits of a municipality.

(c) Distances must be measured in a straight line on a horizontal plane.

(d) The initial written consent by a county to an extended municipal jurisdiction area must disclose the scope of the building codes to be enforced, the type of structures to be subject to the building codes, and the schedule of fees to be charged for permits. If after the county's initial written consent, the municipality wishes to change either the scope of the building codes enforced or the type of structures covered, the changes must first be approved in writing by the county. Unapproved changes result in the rescission of the county approval of the extended municipal jurisdiction area"; in definition of municipality at end deleted "and its jurisdictional area as defined in this section"; and made minor changes in style. Amendment effective May 1, 2001.

Retroactive Applicability: Section 12, Ch. 546, L. 2001, provided: "[Sections 2(12) and 8] [50-60-101(12) and 50-60-314] apply retroactively, within the meaning of 1-2-109, to a municipal jurisdictional area as defined in 50-60-101 created before [the effective date of this act]." (a) residential buildings containing less than five dwelling units or their attached-to structures, any farm or ranch building of any size, and any private garage or private storage structure of any size used only for the owner's own use, located within the municipality's or county's jurisdictional area, unless the local legislative body or board of county commissioners by ordinance or resolution makes the state building code applicable to these structures;

(1) The examination, approval, or disapproval of plans and specifications, the issuance and revocation of building permits, licenses, certificates, and similar documents, the inspection of buildings, and the administration and enforcement of building regulations within the municipal jurisdictional area are the responsibility of the municipalities of the state.

(2) Each municipality or county certified under 50-60-302 shall, within its jurisdictional area:

(a) examine, approve, or disapprove plans and specifications for the construction of any building, the construction of which is pursuant or purports to be pursuant to the applicable provisions of the state or municipal building code, and direct the inspection of the buildings during and in the course of construction;

(b) require that construction of buildings be in accordance with the applicable provisions of the state or municipal building code, subject to the powers of variance or modification granted to the department;

(c) make available to building contractors at a price that is commensurate with reproduction costs a checklist devised by the department pursuant to 50-60-118 for single-family dwellings and provide to contractors who attach a completed checklist to the plans submitted for examination the relevant building permit or notice of plan disapproval within 10 working days of the contractor's submission;

(d) during and in the course of construction, order in writing the remedying of any condition found to exist in, on, or about any building that is being constructed in violation of the applicable state or municipal building code. Orders may be served upon the owner or the owner's authorized agent personally or by sending by certified mail a copy of the order to the owner or the owner's authorized agent at the address set forth in the application for permission for the construction of the building. A local building department, by action of an authorized officer, may grant in writing time as may be reasonably necessary for achieving compliance with the order. If indirect costs are waived for any local government proprietary fund, they must also be waived for the program established in this section. Indirect charges are limited to the charges that are allowed under federal cost accounting principles that are applicable to a local government.

(ii) reduced if the amount of the fees or charges accumulates above the amount needed to enforce building codes for 12 months. The excess must be placed in a reserve account and may only be used for building code enforcement. Collection and expenditure of fees and charges must be fully documented.

(iii) allocated and remitted to the department, in an amount not to exceed 0.5% of the building fees or charges collected, for the building codes education program established in 50-60-116.

(1) provide reasonably uniform standards and requirements for construction and construction materials consistent with accepted standards of design, engineering, and fire prevention practices;

(2) permit to the fullest extent feasible the use of modern technical methods, devices, and improvements that tend to reduce the cost of construction consistent with reasonable requirements for the health and safety of the occupants or users of buildings and, consistent with the conservation of energy, by design requirements and criteria that will result in the efficient use of energy, whether used directly or in a refined form, in buildings;

(3) eliminate restrictive, obsolete, conflicting, and unnecessary building regulations and requirements that tend to unnecessarily increase construction costs, unnecessarily prevent the use of proven new materials that have been found adequate through experience or testing, or provide unwarranted preferential treatment to types or classes of materials, products, or methods of construction;

(4) ensure that any newly constructed public buildings and certain altered public buildings are readily accessible to and usable by persons with disabilities, according to the principles applicable to accessibility to public buildings for persons with disabilities in the state building code;

(5) ensure statewide uniformity in the inspection and enforcement of exterior features of all newly constructed public buildings and certain altered public buildings, including building sites, for physical accessibility to people with disabilities;

(6) encourage efficiencies of design and insulation that enable buildings to be heated in the winter with the least possible quantities of energy and to be kept cool in the summer without air conditioning equipment or with the least possible use of the equipment;

(7) encourage efficiencies and criteria directed toward design of building envelopes with high thermal resistance and low air leakage and toward requiring practices in the design and selection of mechanical, electrical, and illumination systems that promote the efficient use of energy;

(8) provide, to the greatest extent possible, with the advice and consent of the building codes council and the Montana chapter of the international conference of building officials, a broadly uniform system of building code interpretations for the purposes of predictability, fairness, and efficiency.

50-60-211. Inspections. (1) The construction of a public building or alteration to a primary function area of a public building must be inspected for physical accessibility to persons with disabilities.

(2) The inspection must include the building site, including applicable exterior features, such as parking areas, passenger loading zones, private sidewalks, and the accessibility from adjacent public sidewalks, public streets, and public transportation stops.

(3) (a) The inspections must be completed by state building inspectors in areas not covered by a municipal or county building code.

(b) (i) Municipalities and counties that have adopted a building code may assign appropriately trained personnel to perform site inspections conducted pursuant to this part.

(ii) Municipalities and counties conducting inspections pursuant to this section must have an enforcement mechanism in place to ensure compliance with the accessibility provisions of this part, including but not limited to denying building permits or certificates of occupancy, injunctions, or other civil enforcement procedures allowed by law.

(4) Existing public buildings that are not undergoing an alteration to a primary function area are not subject to the inspection provisions of this section.

50-60-212. Disclaimer. A building permit or certificate of occupancy issued by the state or by a municipality or county must contain a statement that reads: "Compliance with the requirements of the state building code for physical accessibility to persons with disabilities does not necessarily guarantee compliance with the Americans with Disabilities Act of 1990, the Rehabilitation Act of 1973, the Fair Housing Amendments Act of 1988, Title 49, chapter 2, commonly known as the Montana Human Rights Act, or other similar federal, state, or local laws that mandate accessibility to commercial construction or multifamily housing."

History: En. Sec. 2, Ch. 331, L. 1997.

50-60-213. Accessible exterior routes — exceptions. (1) Except as provided in subsection (6), for a public building, an accessible exterior route must be provided from public transportation stops located within the boundary of the building site, from accessible parking and accessible passenger loading zones within the boundaries of the building site, and from public sidewalks that are immediately adjacent to the building site, if sidewalks exist, to the building's accessible entrance served by the transportation stops, parking and loading zones, or sidewalks.

(2) (a) When more than one public building is located on a site, at least one accessible exterior route must connect accessible elements, facilities, and buildings that are on the site.

(b) For the purposes of 50-60-214 and this section, "element" means an architectural or mechanical component of a public building, facility, space, or site and includes but is not limited to telephones, curb ramps, doors, drinking fountains, seating, and water closets.

(3) An accessible exterior route between accessible public parking and an accessible building entrance must be the most practical direct route.

(4) (a) A person or entity constructing a public building is not required to fully comply with the provisions of this section if the person can demonstrate that due to characteristics of the terrain, it is structurally impractical to fully comply.

(b) Full compliance may be considered structurally impractical only in those rare circumstances when the unique characteristics of the terrain prevent the incorporation of accessibility features.

(c) The person or entity shall comply with the provisions of this section to the extent that compliance is not structurally impractical.

(d) The department shall adopt rules to assist all interested parties involved in the design, construction, and inspection processes in determining structural impracticality.

(5) (a) If a paved parking lot is not planned or present for a public building, a person or entity constructing the public building is not required to pave the entire lot, unless otherwise required by law, ordinance, or applicable building code, but shall provide pavement or a similarly firm, stable, and slip-resistant surface for parking spaces designated for persons with disabilities.

(b) An accessible exterior route with a suitably firm, stable, and slip-resistant surface must be provided from the designated parking spaces to an accessible building or facility entrance.

(c) The total number of designated accessible parking spaces in a parking lot or area must be the number provided for in the applicable state or local government building code.

(6) An accessible route is not required in cases where there is not a pedestrian route for the general public.

(7) The state, municipalities, and counties shall use the same accessibility standards.

History: En. Sec. 3, Ch. 331, L. 1997.

50-60-214. Alteration of primary function area. (1) An alteration that affects or could affect the use of or access to a primary function area in a public building must be made to ensure, to the extent possible, that the path of travel to the altered primary function area and the restrooms, telephones, and drinking fountains serving the altered primary function area are readily accessible and usable by persons with disabilities.

(2) (a) A person or entity is not required to make alterations to provide an accessible path of travel to an altered primary function area if in terms of cost and scope the alterations to the path of travel are disproportionate to the cost of the alterations to the primary function area. Alterations to a path of travel to an altered primary function area must be considered

disproportionate if the cost exceeds 20% of the cost of the alterations to the primary function area. This subsection does not prohibit an expenditure to alter a path of travel that exceeds 20% of the cost of the alterations to a primary function area.

(b) If the cost of altering a path of travel to an altered primary function area is disproportionate as provided in subsection (2)(a), the path of travel must be made accessible to the extent possible without incurring disproportionate costs. The alterations to the path of travel must be made by providing, in the following order or priority:

(i) an accessible entrance and accessible exterior route to the accessible entrance from accessible parking and passenger loading zones or from a public sidewalk if the public sidewalk is immediately adjacent to the public building site;

(ii) an accessible path of travel to the altered primary function area;

(iii) accessible restrooms for each sex or a single unisex restroom when allowed by the applicable building code; and

(iv) accessible elements, including but not limited to storage spaces and alarms.

(3) A person or entity subject to the provisions of this section is also subject to the provisions of 50-60-213(5)(a) and (5)(b).

50-60-302. Certification of municipal and county building codes. (1) A county or municipality may not enforce a building code unless:

(a) the code enforcement program has been certified by the department as in compliance with applicable statutes and department certification rules;

(b) the current adopted code, a current list of fees to be imposed, and a current plan for enforcement of the code have been filed with and approved by the department; and

(c) all inspectors inspecting or approving any installations, which if accomplished commercially require state licensure, must themselves be properly and currently state-licensed as journeymen in that craft or occupation or be certified by a nationally recognized entity for testing and certification of inspectors that is approved by the department before being permitted to inspect or approve any installations.

(2) The department shall adopt additional rules and standards governing the certification of municipal and county building code enforcement programs that must include provisions for prompt revocation of certification for refusal or failure to comply with any applicable statute or rule. The department may allow a county or municipality a reasonable amount of time, not to exceed 6 months, to correct identified code enforcement program deficiencies, unless the deficiencies constitute an immediate threat to the public health, safety, or welfare, in which case the department may require immediate correction. Failure to correct deficiencies within the time set by the department constitutes a basis for immediate decertification of the code enforcement program. Continued operation of a county or municipal code enforcement program in violation of a department order to correct deficiencies may be enjoined or subject to a writ of mandamus by a judge of the district court in the jurisdiction in which the county or municipality is located. The rules and standards must include provisions for the department to ensure that all code enforcement program functions are being properly performed.

(3) If the certification of any local government code enforcement program is revoked for any violation or deficiency, the state resumes its original jurisdiction for state building code enforcement within the municipal or county area and the local government retains the responsibility for completion of inspections and issuance of certificates of occupancy on any incomplete construction projects previously permitted by the local government, unless the reason for the decertification is directly related to the protection of health, safety, and welfare of the public.

(4) If a local government voluntarily decertifies its code enforcement program, the department must be given written notification of the intended decertification at least 90 days prior to the date of decertification. The local government retains the responsibility for completion of inspections and issuance of certificates of occupancy on any incomplete construction projects permitted by the local government prior to decertifying its code enforcement program.

(5) An individual circulating a petition for signatures must make available to individuals who may sign the petition a copy of the building code approved by the department of labor and industry and a map showing the county jurisdictional area within which the code will apply. (2) The department may require that applications for permits must be accompanied by plans, specifications, and other information that it considers necessary.

(3) The department shall provide for the issuance, suspension, revocation, and renewal of permits which it may require pursuant to this section.

Except as otherwise provided in or pursuant to this section, the levels, concentrations, or quantities must be controlled and emissions in excess of the limitations are unlawful. The department may also establish standards for sanitary facilities and lunchrooms.

(2) The department may by rule use any widely recognized measuring system for measuring emissions of pollutants.

(3) If federal minimum standards of industrial hygiene or occupational health are set by federal law, the department may, if necessary, set more stringent standards by rule.

History: En. Sec. 9, Ch. 316, L. 1971; R.C.M. 1947, 69-4214; amd. Sec. 327, Ch. 546, L. 1995.

50-70-114. Variances. (1) Any person who owns or is in control of any plant, building, structure, process, or equipment may apply to the department for an exemption or partial exemption from rules governing the quality, nature, duration, or extent of emissions of pollutants. The application must be accompanied by the information and data that the department may require.

(2) The department may grant the exemption or partial exemption if it finds that:

(a) the emissions occurring or proposed to occur do not constitute an immediate danger to the health and safety of the worker; and

(b) compliance with the rules from which exemption is sought would produce hardship without equal or greater benefits to the worker.

(3) An exemption or partial exemption may not be granted pursuant to this section except after a public hearing on notice and until the department has considered the relative interests of the applicant and the worker or workers involved.

(4) An exemption or partial exemption pursuant to this section may not be granted for a period to exceed 1 year, but an exemption or partial exemption may be renewed if a complaint is not made to the department or if, after a complaint has been made and considered at a public hearing held by the department on notice, the department finds that renewal is justified. A renewal may not be granted except on application. Application for renewal must be made at least 60 days prior to the expiration of the exemption or partial exemption. Immediately prior to application for renewal, the applicant shall give public notice of the application in accordance with the rules of the department. Any renewal pursuant to this subsection must be on the same grounds and subject to the same limitations and requirements as provided in subsection (2)(a).

(5) An exemption, partial exemption, or renewal is not a right of the applicant or holder but is in the discretion of the department.

(6) This section and any exemption, partial exemption, or renewal granted may not be construed to prevent or limit the application of the emergency provisions and procedures of 50-70-117 to any person or the person's property.

History: En. Sec. 12, Ch. 316, L. 1971; R.C.M. 1947, 69-4217; amd. Sec. 22, Ch. 37, L. 1979; amd. Sec. 328, Ch. 546, L. 1995.

(2) A person may not refuse entry or access to the department when it requests entry for purposes of inspection. A person may not obstruct, hamper, or interfere with an inspection.

(3) At his request, the owner or operator of the premises shall receive a report setting forth facts found which relate to compliance status.

History: En. Sec. 8, Ch. 316, L. 1971; amd. Sec. 39, Ch. 349, L. 1974; R.C.M. 1947, 69-4213.

50-70-116. Enforcement. (1) When the department has reason to believe that a violation of this chapter or rule made under it has occurred, it may have written notice and the facts alleged to constitute a violation served on the alleged violator and may include an order to take necessary corrective action within a reasonable period of time stated in the order. An order becomes final unless, no later than 30 days after the date of notice is received, the person named requests in writing a hearing before the department. On receipt of a request, the department shall hold a hearing.

(2) If, after a hearing held under subsection (1), the department finds that a violation has occurred, it shall either affirm or modify an order previously issued or issue an appropriate order for the prevention, abatement, or control of the emissions involved or for the taking of other corrective action it considers appropriate. If, after hearing on an order contained in a notice, the department finds that no violation is occurring, it shall rescind the order. An order issued as part of a notice or after hearing may prescribe the date by which the violation shall cease and may prescribe time limits for particular action in preventing, abating, or controlling the pollutant.

(3) Instead of issuing the order provided for in subsection (1), the department may either:

(a) require that the alleged violator appear before it for a hearing at a time and place specified in a notice and answer the charges complained of; or

(b) initiate action under 50-70-118.

(4) This chapter does not prevent the department from making efforts to obtain voluntary compliance through warning, conference, or other appropriate means.

(5) In connection with a hearing held under this section, the department may, and on application by a party shall, compel the attendance of witnesses and the production of evidence on behalf of parties.

History: En. Sec. 10, Ch. 316, L. 1971; amd. Sec. 40, Ch. 349, L. 1974; R.C.M. 1947, 69-4215; amd. Sec. 329, Ch. 546, L. 1995.

50-70-117. Emergency procedure. (1) Any other law to the contrary notwithstanding, if the department finds that a generalized hazard at a workplace exists and that it creates an emergency requiring immediate action to protect human health, the department shall order persons causing or contributing to the hazard to reduce or discontinue immediately the emissions creating the hazard. Upon issuance of this order, the department shall fix a place and time, not later than 72 hours after issuance, for a hearing to be held before the department. Not more than 24 hours after the commencement of the hearing and without adjournment, the department shall affirm, modify, or set aside the order.

(2) In the absence of a generalized condition as that referred to in subsection (1), if the department finds that emissions from an operation are causing imminent danger to human health, it may order the person responsible for the operation in question to reduce or discontinue emissions immediately without regard to 50-70-116. In this event, the requirements for hearing and affirmance, modification, or setting aside of orders provided in 50-70-116 apply.

(3) This section does not limit any power which the governor or any other officer may have to declare an emergency and act on the basis of the declaration, whether the power is conferred by statute, constitutional provisions, or inheres in the office.

History: En. Sec. 11, Ch. 316, L. 1971; amd. Sec. 41, Ch. 349, L. 1974; R.C.M. 1947, 69-4216; amd. Sec. 330, Ch. 546, L. 1995.

50-70-118. Penalty. (1) A person who violates this chapter relating to limitations of levels, concentrations, or quantities of emissions of various pollutants from a source determined to be necessary to prevent, abate, or control occupational diseases (unless in compliance with this chapter) is guilty of an offense and subject to a fine not to exceed $1,000. Each day of violation constitutes a separate offense.

(2) Proceedings under this section are not a bar to enforcement of this chapter or of rules or orders made under it by injunction or other appropriate remedy. The department may institute and maintain in the name of the state these enforcement proceedings.

(3) This chapter does not abridge, limit, impair, create, enlarge, or otherwise affect substantively or procedurally the right of a person to damage or other relief on account of injury to persons or property and to maintain an action or other appropriate proceeding.

(4) Fines collected, except those collected by a justice's court, shall be deposited to the state general fund.

Provided that, for those employments or places of employment for which no code has been adopted and where it is found by the department that such place of employment is in such an unsafe condition as to constitute an immediate menace to the life or safety of the workers there employed, the department may order that portion of the plant, installation, or facility as is directly and immediately affected by such unsafe condition closed for a period not to exceed 4 hours unless such period be extended by order of the department.

(2) The applicant for rehearing shall be deemed to have finally waived all objections, irregularities, and illegalities concerning the matters upon which rehearing is sought other than those set forth in the application.

(3) A copy of the application for rehearing shall be served immediately on all adverse parties, who may file an answer thereto within 10 days after being served.

50-71-333. Disposition of application for rehearing. (1) Upon the filing of the application for rehearing, if the issues raised thereby have theretofore been adequately considered by the department, it may determine the same by confirming without hearing its previous determination or, if a rehearing is necessary to determine one or more of the issues raised, the department shall order a rehearing thereon and consider and determine the matters raised by such application.

(2) Notice of the time and place of the rehearing shall be given to the applicant, the adverse parties, and such other persons as the department may order.

(3) If, after the rehearing and the consideration of all the facts, including those arising since the making of the order or decision involved, the department shall be of the opinion that all or any part of the original order or decision is in any respect unjust or unwarranted or should be changed, the department shall abrogate, change, or modify the same.

(4) An order or decision made after the rehearing abrogating, changing, or modifying the original order or decision shall have the same force and effect as an original order or decision but shall not affect any right or the enforcement of any right arising from or by virtue of the original order or decision unless so ordered by the department.

(5) An application for rehearing is considered denied by the department unless it has been acted upon within 30 days from the date of filing; provided that the department may, upon good cause being shown therefor, extend the time within which it may act upon an application for rehearing for not exceeding an additional 30 days.

(2) Within 30 days after an application for rehearing is denied or, if the application is granted, within 30 days after rendition of the decision on the rehearing, any party affected thereby may appeal to the district court for the county in which is situated the place of employment complained of for the purpose of having the lawfulness of the original order or decision or the order or decision on rehearing inquired into and determined.

(3) To give the district court jurisdiction, it is sufficient that a notice be filed with the clerk of the court to the effect that an appeal is taken to the district court from the order or decision of the department and describing the order or decision sufficiently for purposes of identification. The notice shall be signed by the party appealing or his attorney, and a copy thereof shall be served by certified mail upon the department.

(4) Within 10 days after the receipt of the notice, the department shall file with the clerk of court the record of proceedings before the department, including a transcript of all the evidence adduced upon the hearing and any rehearing before the department. The district court, on application for good cause shown, may extend the time within which the department shall file the record, transcript, and evidence.

(5) The cause shall be tried in the same manner as a civil action, provided that no new or additional evidence may be introduced in the court, but the cause shall be heard on the record to the court as certified to it by the department.

(6) The appeal shall not be extended further than to determine whether or not:

(a) the department acted without or in excess of its powers or in violation of the law;

(b) the order or decision was procured by fraud;

(c) the order, decision, or rule is unreasonable;

(d) if findings of fact are made, the finding of fact supports the order or decision under review.

50-72-204. Debarment of persons from mine when death or serious injury likely. If, upon any inspection of a mine which is subject to this chapter, authorized representatives of the department find that the conditions or practices in the mine are such that a danger exists which could reasonably be expected to cause death or serious physical harm immediately or before the imminence of such danger can be eliminated, such representatives shall determine the extent of the area of such mine throughout which the danger exists and thereupon issue an order requiring the operator of such mine to cause all persons to be withdrawn from and to be debarred from entering such area, except the persons designated below whose presence in such area is necessary to eliminate the danger described in such order:

(1) If, upon any inspection or investigation, an authorized representative finds that there has been a failure to comply with a mandatory standard which is applicable to such mine, but that such failure to comply has not created a danger that could reasonably be expected to cause death or serious physical harm in such mine immediately or before the imminence of such danger can be eliminated, he shall find what would be a reasonable period of time within which such violation should be totally abated and thereupon issue a notice fixing a reasonable time for the abatement of the violation.

(2) If, upon the expiration of such period of time as originally fixed or extended, the authorized representative finds that such violation has not been totally abated and if he also finds that such period of time should not be further extended, he shall also find the extent of the area which is affected by such violation. Thereupon, the department shall make an order requiring the operator of such mine to cause all persons in such area to be withdrawn from and to be debarred from entering such area, excepting the following persons whose presence in such area is necessary to abate the violation described in the order:

(a) any person whose presence in such area is necessary in the judgment of the operator of the mine to abate the violation described in the order;

(b) any public official whose official duties require him to enter such area;

Whenever the department after such a hearing, upon complaint or upon its own motion, finds that danger throughout the area of such mine as set out in such order existed at the time of making the inspection, it shall make an order denying a revision or annulment; but if it finds that such danger did not exist throughout the area of such mine, it shall make an order consistent with its findings revising or annulling the order under review.

(2) An operator notified of an order made pursuant to 50-72-205 may apply to the department for a hearing or revision of such order. If the department finds that there was no violation, it shall make an order annulling the order under review. 50-73-412. Debarment of persons from mine when death or serious injury likely. If, upon an inspection of a mine, the department finds that the conditions or practices in the mine are such that a danger exists which could reasonably be expected to cause death or serious physical harm immediately or before the danger can be eliminated, the department shall determine the extent of the area of the mine throughout which the danger exists and order the operator of the mine to have all persons withdrawn from and excluded from entering the area, except the persons designated below whose presence in the area is necessary to eliminate the danger described in the order:

50-73-413. Procedure when noncompliance not likely to cause death or serious injury. If upon an inspection or investigation the department finds that there has been a failure to comply with a mandatory standard which is applicable to the mine, but that the failure to comply has not created a danger that could reasonably be expected to cause death or serious physical harm in the mine immediately or before the imminence of the danger can be eliminated, it shall determine what would be a reasonable period of time within which the violation should be totally abated and issue a notice fixing a reasonable time for the abatement of the violation. If, upon the expiration of the period of time as originally fixed or extended, the department finds that the violation has not been totally abated and if it also finds that the period of time should not be further extended, it shall also find the extent of the area which is affected by the violation. The department shall order the operator of the mine to have all persons in the area to be withdrawn from and excluded from entering the area, excepting the following persons whose presence in the area is necessary to abate the violation described in the order:

50-73-417. Right to hearing. (1) An operator notified of an order made under 50-73-412 may apply to the department for a hearing, revision, or amendment of the order. When the department after a hearing upon complaint or upon its own motion finds that danger throughout the area of the mine as set out in the order existed at the time of making the inspection, it shall make an order denying a revision or amendment. However, if it finds that the danger did not exist throughout the area of the mine, it shall make an order consistent with its findings, revising or amending the order under review.

(2) An operator notified of an order made under 50-73-413, as amended, may apply to the department for a hearing or revision of the order. If the department finds that there was no violation, it shall make an order rescinding the order under review. 50-74-215. Interior and exterior examination of boiler. (1) The inspector must satisfy himself by a thorough interior and exterior examination that the boilers are well-made and of good and suitable material; that the openings for the passage of water and steam, respectively, and all pipes and tubes exposed to heat are of the proper dimensions and free from obstructions; that the flues are circular in shape; that the fire line of the furnace is at least 2 inches below prescribed minimum waterline of the boilers; that the arrangements for delivering the feed water are such that the boilers cannot be injured thereby; and that such boilers and the steam connections may be safely employed without danger to life.

50-74-217. Other inspection requirements. The inspector must satisfy himself that:

(1) the safety valves are of suitable relieving capacity ratings, sufficient in number and area, and properly arranged and are properly adjusted so as not to allow a greater pressure in a boiler than the amount prescribed by the inspection certificate;

(2) there are a sufficient number of gauge cocks properly inserted to indicate the amount of water and suitable gauges that will correctly record the pressure of steam; and

(3) adequate and certain provisions for an ample supply of water to feed the boiler at all times and suitable means for blowing out are provided so as to thoroughly remove mud and sediment from all parts of the boiler when it is under pressure of steam.

50-74-218. Safe working pressure. (1) If a boiler is constructed with lap horizontal seams on the boiler, dome, or drum, a factor of 4 $\frac{1}{2}$ shall be used in determining the safe working pressure allowed on the boiler.

(2) If a boiler is constructed with butt strap horizontal seams, a factor of four may be used in determining the safe working pressure.

(3) If a boiler rests on a side wall on lugs, is hung by I-beams, or is in any way set up so that the weight of the boiler is pulling against the horizontal seam of rivets, a factor of five must be used in determining the safe working pressure.

(4) If the horizontal lap seams of a boiler are exposed to the fire, a factor of five must be used in determining the safe working pressure.

(5) On new stay bolts, 7,500 pounds pressure per square inch is allowed. If the stay bolts are corroded or defective, the inspector must determine the pressure to be allowed on them.

(6) On braces made of solid material, 8,000 pounds pressure per square inch is allowed. On welded braces or braces with only one crowfoot, 6,000 pounds pressure per square inch is allowed.

(7) No cast iron may be used in the construction or reinforcements of a boiler if the pressure allowed on the boiler is more than 100 pounds per square inch.

(a) operating certificate, $26;
(b) internal inspection, $75;
(c) external inspection:
(i) hot water heating and supply, $30;
(ii) steam heating, $40; and
(iii) power boiler, $55; and
(d) special inspection, $50 an hour plus expenses.

(2) If two or more boilers in the same room are inspected at the same time, the total fee imposed for all boilers must be the fee for inspection of one boiler, and the fee is the amount for the type of boiler with the highest fee.

(3) Fees collected under this section must be deposited in a department state special revenue account for administration of the boiler inspection program.

(e) the employer claims that the information is a trade secret and that claim can be supported.

(2) If a person believes that disclosing certain trade information on a material safety data sheet will reveal a trade secret, a trade secret claim may be filed with the department, which shall use this procedure to determine the validity of the trade secret claim:

(a) The department shall give notice by certified mail to the person making the claim to submit trade secret substantiation information within 30 days after receipt of such notice. Failure to supply the substantiation information constitutes a waiver of the trade secret claim.

(b) The department has the responsibility to determine the validity of the trade secret claim and shall consider the trade secret substantiation information as confidential.

(c) If the department determines the trade secret claim is not valid, the department shall so notify by certified mail the person making the claim for trade secret protection, stating the basis for the decision. The person making the claim has 30 days after notification by the department to initiate judicial review in the district court of Lewis and Clark County and obtain a preliminary injunction or other court order to prevent disclosure of the trade secret.

(5) The terms and conditions of all licenses shall be subject to amendment, revision, or modification by rules or orders issued in accordance with the provisions of this chapter.

(6) The department may require registration and inspection of persons dealing with sources of ionizing radiation which do not require a specific license and may require compliance with specific safety standards to be promulgated by the department.

(7) The department is authorized to exempt certain users from the licensing or registration requirements set forth in this section when the department makes a finding that the exemption of the users will not constitute a significant risk to the health and safety of the public.

(8) Rules promulgated pursuant to this chapter may provide for recognition of such other state or federal licenses as the department considers desirable, subject to such registration requirements as the department prescribes.

(2) The department shall require each person who acquires, possesses, or uses a source of ionizing radiation to maintain appropriate records showing the radiation exposure of all individuals for whom personnel monitoring is required by rules of the department. Copies of these records and those required to be kept by subsection (1) of this section shall be submitted to the department on request.

(3) The department shall adopt reasonable regulations, compatible with those of the United States nuclear regulatory commission or the national committee on radiation protection, pertaining to reports of exposure of personnel to radiation. The regulations shall require that reports of excessive exposure be made to the individual exposed and to the department and shall make provision for periodic and terminal reports to individuals for whom personnel monitoring is required.

The department may incorporate by reference comparable federal regulations or guidelines.

(2) The department may adopt a rule to implement this chapter that is more stringent than comparable federal regulations or guidelines only if the department makes a written finding after a public hearing and public comment and based on evidence in the record that:

(a) the proposed state standard or requirement protects public health or the environment of the state; and

A petition under this section does not relieve the petitioner of the duty to comply with the challenged rule. The department may charge a petition filing fee in an amount not to exceed $250.

(b) A person may also petition the department for a rule review under subsection (4)(a) if the department adopts a rule after January 1, 1990, in an area in which no federal regulations or guidelines existed and the federal government subsequently establishes comparable regulations or guidelines that are less stringent than the previously adopted department rule.

(5) This section does not apply to a rule adopted under the emergency rulemaking provisions of 2-4-303(1).

50-79-501. Northwest Interstate Compact on Low-Level Radioactive Waste Management. The legislature of the state of Montana approves and ratifies the compact designated as the "Northwest Interstate Compact on Low-Level Radioactive Waste Management", which compact is as follows:

NORTHWEST INTERSTATE COMPACT ON LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT

ARTICLE I — Policy and Purpose

The party states recognize that low-level radioactive wastes are generated by essential activities and services that benefit the citizens of the states. It is further recognized that the protection of the health and safety of the citizens of the party states and the most economical management of low-level radioactive wastes can be accomplished through cooperation of the states in minimizing the amount of handling and transportation required to dispose of such wastes and through the cooperation of the states in providing facilities that serve the region. It is the policy of the party states to undertake the necessary cooperation to protect the health and safety of the citizens of the party states and to provide for the most economical management of low-level radioactive wastes on a continuing basis. It is the purpose of this compact to provide the means for such a cooperative effort among the party states so that the protection of the citizens of the states and the maintenance of the viability of the states' economies will be enhanced while sharing the responsibilities of radioactive low-level waste management.

ARTICLE II — Definitions

As used in this compact:

(1) "Facility" means any site, location, structure, or property, excluding federal waste facilities, used or to be used for the storage, treatment, or disposal of low-level waste.

(2) "Low-level waste" means waste material which contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities which exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than 10 nanocuries of transuranic contaminants per gram of material,

spent reactor fuel, or material classified as either high-level waste or waste which is unsuited for disposal by near-surface burial under any applicable federal regulations.

(3) "Generator" means any person, partnership, association, corporation, or any other entity whatsoever which, as a part of its activities, produces low-level radioactive waste.

(4) "Host state" means a state in which a facility is located.

ARTICLE III — Regulatory Practices

Each party state hereby agrees to adopt practices which will require low-level waste shipments originating within its borders and destined for a facility within another party state to conform to the applicable packaging and transportation requirements and regulations of the host state. Such practices shall include:

(1) maintaining an inventory of all generators within the state that have shipped or expect to ship low-level waste to facilities in another party state;

(2) periodic unannounced inspection of the premises of such generators and the waste management activities thereon;

(3) authorization of the containers in which such waste may be shipped and a requirement that generators use only that type of container authorized by the state;

(4) assurance that inspections of the carriers which transport such waste are conducted by proper authorities and appropriate enforcement action is taken for violations;

(5) after receiving notification from a host state that a generator within the party state is in violation of applicable packaging or transportation standards, taking appropriate action to assure that such violations do not recur. Such action may include inspection of every individual low-level waste shipment by that generator.

Each party state may impose fees upon generators and shippers to recover the cost of the inspections and other practices under this article. Nothing in this article shall be construed to limit any party state's authority to impose additional or more stringent standards on generators or carriers than those required under this article.

ARTICLE IV — Regional Facilities

(1) Facilities located in any party state, other than facilities established or maintained by individual low-level waste generators for the management of their own low-level waste, shall accept low-level waste generated in any party state if such waste has been packaged and transported according to applicable laws and regulations.

(2) No facility located in any party state may accept low-level waste generated outside the region comprising the party states, except as provided in Article V.

(3) Until such time as paragraph (2) of this article takes effect as provided in Article VI, facilities located in any party state may accept low-level waste generated outside of any of the party states only if such waste is accompanied by a certificate of compliance issued by an official of the state in which such waste shipment originated. Such certificate must be in such form as may be required by the host state and shall contain at least the following:

(a) the generator's name and address;

(b) a description of the contents of the low-level waste container;

(c) a statement that the low-level waste being shipped has been inspected by the official who issued the certificate or by his agent or by a representative of the United States Nuclear Regulatory Commission and was found to have been packaged in compliance with applicable federal regulations and such additional requirements as may be imposed by the host state;

(d) a binding agreement by the state of origin to reimburse any party state for any liability or expense incurred as a result of an accidental release of such waste during shipment or after such waste reaches the facility.

(4) Each party state shall cooperate with the other party states in determining the appropriate site of any facility that might be required within the region comprising the party states in order to maximize public health and safety while minimizing the use of any one party state as the host of such facilities on a permanent basis. Each party state further agrees that decisions regarding low-level waste management facilities in its region will be reached through

a good faith process which takes into account the burdens borne by each of the party states as well as the benefits each has received.

(5) The party states recognize that the issue of hazardous chemical waste management is similar in many respects to that of low-level waste management. Therefore, in consideration of the state of Washington allowing access to its low-level waste disposal facility by generators in other party states, party states such as Oregon and Idaho, which host hazardous chemical waste disposal facilities, will allow access to such facilities by generators within other party states. Nothing in this compact may be construed to prevent any party state from limiting the nature and type of hazardous chemical or low-level wastes to be accepted at facilities within its borders or from ordering the closure of such facilities, so long as such action by a host state is applied equally to all generators within the region composed of the party states.

(6) Any host state may establish a schedule of fees and requirements related to its facilities to assure that closure, perpetual care, and maintenance and contingency requirements are met, including adequate bonding.

ARTICLE V — Northwest Low-Level Waste Compact Committee

The Governor of each party state shall designate one official of that state as the person responsible for administration of this compact. The officials so designated shall together comprise the Northwest Low-Level Waste Compact Committee. The committee shall meet as required to consider matters arising under this compact. The parties shall inform the committee of existing regulations concerning low-level waste management in their states and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in such regulations. Notwithstanding any provision of Article IV to the contrary, the committee may enter into arrangements with states, provinces, individual generators, or regional compact entities outside the region comprising the party states for access to facilities on such terms and conditions as the committee may deem appropriate. However, it shall require a two-thirds vote of all such members, including the affirmative vote of the member of any party state in which a facility affected by such arrangement is located, for the committee to enter into such arrangement.

ARTICLE VI — Eligible Parties and Effective Date

(1) Each of the following states is eligible to become a party to this compact: Alaska, Hawaii, Idaho, Montana, Oregon, Utah, Washington, and Wyoming. As to any eligible party, this compact shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this compact by enacting a statute repealing its approval.

(2) After the compact has initially taken effect pursuant to paragraph (1) of this article, any eligible party state may become a party to this compact by the execution of an executive order by the Governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its Legislature or July 1, 1983, whichever occurs first, unless the compact has by then been enacted as a statute by that state.

(3) Paragraph (2) of Article IV of this compact shall take effect on July 1, 1983, if consent is given by Congress. As provided in Public Law 96-573, Congress may withdraw its consent to the compact after every 5-year period.

ARTICLE VII — Severability

If any provision of this compact or its application to any person or circumstance is held to be invalid, all other provisions of this compact and the application of all of its provisions to all other persons and circumstances shall remain valid, and to this end the provisions of this compact are severable.

50-79-502. Administration of compact — fees. (1) The department of public health and human services, as the state radiation control agency, shall administer the provisions of the compact.

(2) The department may assess and collect fees for services rendered in inspecting and regulating low-level radioactive waste generators, transporters, and disposal facilities. The fees must cover the department's costs for those services and must be deposited in the state special revenue fund for use by the department. State and local government agencies, including the university system, are exempt from the payment of fees.

(3) The department may adopt rules under the authority contained in 50-79-201(3)(b) to implement the provisions of this compact.

Part 3
Multiagency Service Placement Plan

Part Compiler's Comments

Multiagency Children's Services Initiative: Sections 1 through 4, Ch. 416, L. 2001, provided: "Section 1. Purpose. The legislature finds that it is necessary to immediately direct coordinated efforts to provide services to children with serious emotional disturbances who are in need of integrated services from multiple agencies. The legislature directs that the respective agencies engage in unified planning to further develop a continuum of services to reduce the use of high-cost, highly restrictive, out-of-home residential placements. The legislature directs that concentrated efforts be made to bring together the respective agencies that provide multiagency services to children with serious emotional disturbances for the purpose of containing costs and increasing the capacity of communities to serve these children in the least restrictive environment. These efforts are intended to parallel and supplement efforts to develop long-term structural changes in the public mental health system.

Section 2. Coordination of integrated multiagency services for children with serious emotional disturbances. (1) The department of public health and human services shall work with the office of public instruction, the department of corrections, the department of justice, and youth courts to coordinate responsibility for integrated multiagency services for children with serious emotional disturbances. The collaboration may include:

(a) pooling funding from federal, state, and local sources, to the extent possible, to maximize the most cost-effective use of funds to provide the appropriate services to children with serious emotional disturbances and multiagency needs in the least restrictive environment;

(b) applying for any federal waivers necessary to provide necessary services or to pool funds to achieve the purpose of this section;

(c) providing for multiagency data collection and analysis of data that is relevant to the use of services based on client needs and outcomes and using the analysis in the decisionmaking process;

(d) developing mechanisms for the pooling of human and fiscal resources; and

(e) providing training and technical assistance, as funds permit, at the local level regarding governance and the development and delivery of integrated multiagency children's services to children with serious emotional disturbances.

(2) The department of public health and human services shall identify the children with serious emotional disturbances:

(a) who are using the highest proportion of fiscal resources in the public mental health system; and

(b) who are receiving services out of state; or

(c) who, in order to be served in state or in the child's home community, may require services or who have required services in the past:

(i) from the child protective services system;

(ii) from the developmental disabilities system;

(iii) for mental health services as a youth adjudicated in need of intervention or delinquent from the juvenile correctional system;

(iv) in day treatment or special education in school;

(v) from public assistance; or

(vi) from the chemical dependency system.

(3) The department of public health and human services shall identify the children by community to facilitate organization or identification of local children's service agencies and providers to develop care and treatment plans for these children at a cost less than the current funding required for the children. Care and treatment plans must identify the least restrictive placements, as close to home as possible, the services required, and the responsible lead agency.

(4) The department of public health and human services shall report on its progress and any findings and recommendations to the governor's budget office and the children, families, health, and human services interim committee at least every 6 months.

Section 3. Provider networks. (1) Any licensed mental health provider willing to participate in this initiative, subject to the limitations in law or rule pursuant to each program, must be allowed initially to participate in a provider network.

(2) (a) All providers who choose to participate in the provider network shall work in alignment with the department of public health and human services, the mental health oversight advisory council, and any existing local interagency children's service groups to determine the core services that must be available in a provider network.

(b) The provider network is responsible to coordinate efforts with the department of public health and human services in developing performance-based outcomes and standards of care and developing mechanisms for ensuring that standards are met by all providers in the network.

(3) Providers may provide services within areas that are defined in any contract for services. A provider must be part of a provider network, with the exception of a provider who has been granted an out-of-network waiver by the department of public health and human services, to provide services pursuant to [section 2] [not codified].

(4) The department of public health and human services shall maintain listings of local, regional, and statewide provider networks.

Section 4. Long-term transition to regional mental health system. The department of public health and human services shall work with the mental health oversight advisory council to respond to technical assistance recommendations received by the department to define and design new mental health structures in order to develop a continuum of core services for children with serious emotional disturbances that is integrated with other children's services and to coordinate any development of future programs for mental health services for children and adults." These sections were effective April 28, 2001, and terminate June 30, 2003.

52-2-301. State policy. The legislature declares that it is the policy of this state:

52-2-702. Purpose — findings. (1) The purpose of this part is to assure that children requiring day care be provided such food, shelter, security and safety, guidance and direction, nurture and comfort, and learning experiences commensurate to their ages and capabilities so as to safeguard the growth and development of such children, thereby facilitating their proper physical and emotional maturation.

(2) (a) The legislature finds that the number of children living in homes where both parents work or in homes with a single parent who works has increased dramatically over the last decade.

(b) The legislature finds that the availability of quality child care is critical to the self-sufficiency and independence of Montana families, including the growing number of mothers who have young children and who work out of economic necessity.

(c) The legislature further finds that the number of quality child-care arrangements falls far short of the number required for children in need of child-care services.

(d) It is the intent of the legislature that the state promote day care for the purposes of:

(i) improving the quality of, and coordination among, child-care programs and providing additional resources for child-care services;

(ii) promoting the availability and diversity of quality child-care services for all children and families that need such services;

(iii) providing assistance to families whose financial resources are not sufficient to enable them to pay the full costs of necessary child-care services;

(iv) ensuring that parents are not forced by lack of available programs or financial resources to place a child in an unsafe or unhealthy child-care facility; and

(v) assisting people in finding and maintaining employment by lessening the stress related to the lack of adequate child care.

(1) When it is alleged by a juvenile parole officer that a youth has violated the terms of the youth's parole agreement, the youth must be granted a hearing at the site of the alleged violation or in the county in which the youth is residing or is found within 10 days after notice has been served on the youth or the youth is detained, whichever is earlier. At the discretion of the hearings officer, this hearing may be held by means of interactive video transmission. The purpose of the hearing is to determine whether the youth committed the violation and, if so, whether the violation is of such a nature that the youth should be returned to a youth correctional facility or whether a different plan for custody and supervision of the youth should be pursued by the department of corrections.

(2) Pending the hearing on a violation and pending the department's decision, a youth may not be detained except when the youth's detention or care is required to protect the person or property of the youth or of others or when the youth may abscond or be removed from the community. The department shall determine the place and manner of detention pursuant to 41-5-348 and is responsible for the cost of the detention. (a) written notice of the alleged violation of the parole agreement, including notice of the purpose of the hearing;

(b) a disclosure of the evidence against the youth and the facts constituting the alleged violation;

(c) the opportunity to be heard in person or by interactive video transmission and to present witnesses and documentary evidence to controvert the evidence against the youth and to show that there are compelling reasons that justify or mitigate the violation;

(d) the opportunity to have the hearings officer subpoena witnesses;

(e) the right to confront and cross-examine adverse witnesses in person or by means of interactive video transmission;

(f) the right to be represented by an attorney;

(g) a record of the hearing; and

(h) notice that a written statement as to the evidence relied upon in reaching the final decision and the reasons for the final decision will be provided by the hearings officer.

(5) The department shall provide a hearings officer to conduct the hearing. The department shall adopt rules necessary to effect a prompt and full review.

(6) If the hearings officer finds, by a preponderance of the evidence, that the youth did in fact commit the violation, the hearings officer shall make a decision for the placement of the youth. In making this decision, the hearings officer may consider mitigating or aggravating circumstances. The youth or the youth's attorney may appeal the hearings officer's decision to the department director. The appeal must be made in writing within 5 days of the hearing. The department director or designee shall grant or deny the appeal within 5 days of receipt of the appeal.

(7) The youth may appeal the decision of the department director to the district court of the county in which the hearing was held by serving and filing a notice of appeal with the court within 10 days of the department director's decision. The youth may obtain a written transcript of the hearing from the department by giving written notice of appeal. The district court, upon receipt of a notice of appeal, shall order the department to promptly certify to the court a record of all proceedings before the department and shall proceed to a prompt hearing on the appeal based upon the record on appeal. The decision of the department may not be altered except for abuse of discretion or manifest injustice.

(8) If the decision made under subsection (6) is to return the youth to a youth correctional facility and the youth appeals that decision, the youth shall await the outcome of the appeal at the facility.

(9) If a decision is made under subsection (6) to revoke the parole of a youth who was placed in and released from an alternative facility under 41-5-355 because of overcrowding in a state youth correctional facility, the youth may be placed in a state youth correctional facility if the state youth correctional facility is no longer overcrowded.

53-1-203. Powers and duties of department of corrections. (1) The department of corrections shall:

(a) adopt rules necessary to carry out the purposes of 41-5-123 through 41-5-125, rules necessary for the siting, establishment, and expansion of prerelease centers, and rules for the admission, custody, transfer, and release of persons in department programs except as otherwise provided by law. However, rules adopted by the department may not amend or alter the statutory powers and duties of the state board of pardons and parole. The rules for the siting, establishment, and expansion of prerelease centers must state that the siting is subject to any existing conditions, covenants, restrictions of record, and zoning regulations. The rules must provide that a prerelease center may not be sited at any location without community support. The prerelease siting, establishment, and expansion must be subject to, and the rules must include, a reasonable mechanism for a determination of community support or objection to the siting of a prerelease center in the area determined to be impacted. The prerelease siting, establishment, and expansion rules must provide for a public hearing conducted pursuant to Title 2, chapter 3.

(b) subject to the functions of the department of administration, lease or purchase lands for use by correctional facilities and classify those lands to determine those that may be most profitably used for agricultural purposes, taking into consideration the needs of all correctional facilities for the food products that can be grown or produced on the lands and the relative value of agricultural programs in the treatment or rehabilitation of the persons confined in correctional facilities;

(c) contract with private, nonprofit Montana corporations to establish and maintain prerelease centers for purposes of preparing inmates of a Montana prison who are approaching parole eligibility or discharge for release into the community, providing an alternative placement for offenders who have violated parole, and providing a sentencing option for felony offenders pursuant to 46-18-201. The centers shall provide a less restrictive environment than the prison while maintaining adequate security. The centers must be operated in coordination with other department correctional programs. This subsection does not affect the department's authority to operate and maintain prerelease centers.

(d) utilize the staff and services of other state agencies and units of the Montana university system, within their respective statutory functions, to carry out its functions under this title;

(e) propose programs to the legislature to meet the projected long-range needs of corrections, including programs and facilities for the custody, supervision, treatment, parole, and skill development of persons placed in correctional facilities or programs;

(f) encourage the establishment of programs at the local and state level for the rehabilitation and education of felony offenders;

(h) collect and disseminate information relating to youth in need of intervention and delinquent youth;

(i) maintain adequate data on placements that it funds in order to keep the legislature properly informed of the specific information, by category, related to youth in need of intervention and delinquent youth in out-of-home care facilities;

(j) provide funding for and place youth who are adjudicated to be delinquent or in need of intervention and who are committed to the department;

(k) administer youth correctional facilities;

(l) provide supervision, care, and control of youth released from a state youth correctional facility; and

(i) provide for delinquent youth committed to the department; and

(ii) coordinate and apply the principles of modern correctional administration to the facilities and programs administered by the department.

(2) The department and a private, nonprofit Montana corporation may not enter into a contract under subsection (1)(c) for a period that exceeds 10 years. The provisions of 18-4-313 that limit the term of a contract do not apply to a contract authorized by subsection (1)(c). Prior to entering into a contract for a period of 10 years, the department shall submit the proposed contract to the legislative audit committee. The legislative audit division shall review the contract and make recommendations or comments to the legislative audit committee. The committee may make recommendations or comments to the department. The department shall respond to the committee, accepting or rejecting the committee recommendations or comments prior to entering into the contract.

53-1-405. Monthly payment amount. (1) A resident and a financially responsible person are liable for the resident's cost of care in an amount that the department determines that the resident or financially responsible person is able to pay. The department shall determine ability to pay based upon financial information and documentation obtained by the department through an investigation conducted as provided in 53-1-406.

(2) The department shall adopt rules that establish criteria and procedures for determining ability to pay. The criteria established by rules adopted under this section must address factors relevant to the person's ability to pay, including but not limited to:

(a) the amount of the resident's or financially responsible person's income, including the anticipated receipt of retroactive benefits, such as veteran's benefits or social security benefits;

(b) the amount of the resident's or financially responsible person's assets, including the availability of assets that are liquid or that are able to be readily converted to cash;

(c) the amount of the resident's or financially responsible person's fixed expenses for reasonable and necessary housing, utilities, transportation, medical care, food, and clothing;

(d) the amount of the resident's or financially responsible person's taxes and other mandatory payments, such as social security withholdings, insurance, child support, restitution, and court-ordered payments;

(e) the number of persons dependent upon the resident or financially responsible person for support;

(f) the amount of the resident's or financially responsible person's discretionary income;

(g) the resident's personal needs requirements while in the institution; and

(h) the extent to which requirement of a particular monthly payment or any monthly payment would impose an undue financial burden on the resident or financially responsible person.

(3) The department may determine ability to pay and assess charges up to the full cost of care but may require monthly payments in a lesser amount based upon:

(a) a resident's or financially responsible person's income-producing assets, such as stocks, bonds, certificates of deposit, or other similar assets;

(b) real property of the resident or the resident's spouse if:

(i) the property has been listed or advertised for sale, unless the sale proceeds are or will be used to purchase a home within 18 months or are used for primary residence living expenses; or

(ii) the property is not occupied as the home of the resident, the resident's spouse, or a dependent child or parent of the resident or the resident's spouse and if there is no reasonable expectation that the resident, the resident's spouse, or a dependent child or parent of the resident or the resident's spouse will return to occupy the property as a home; or

(c) the anticipated receipt of retroactive benefits, such as veteran's benefits or social security benefits.

(4) If the department has determined an ability to pay and has assessed charges but has required monthly payments in a lesser amount as provided in subsection (3), the department may bill and collect all or a part of the accumulated difference between the assessed charges and the minimum payment amount:

(a) upon sale or liquidation of the assets or real property;

(b) upon the actual receipt of retroactive benefits, such as veteran's benefits or social security benefits;

(c) upon determination of a current ability to pay; or

(d) from the resident's or financially responsible person's estate as provided in 53-1-412.

(5) The department may not require payment of a monthly amount that would place an undue financial burden on the resident or financially responsible person.

(6) The department shall refund to the resident or financially responsible person any payment made to the department for any month to the extent that the total payments received

from the resident, financially responsible person, and third party exceed the resident's cost of care for that month.

(7) The fact that a managed care organization contracting with the department to administer a mental health managed care program is or may be liable to pay or has paid an amount to an institution with respect to the resident does not reduce or otherwise affect the resident's or financially responsible person's obligation to pay for the cost of care as provided in this part.

(8) The department shall provide a written notice and an opportunity for a hearing regarding a department determination of ability to pay to any resident or financially responsible person who is determined able to pay.

(9) In addition to providing the notice required by subsection (8), the department shall bill the resident or financially responsible person monthly for the amount determined in accordance with this section. The bill must state the amount due for the current month, the amount of any payments received during the billing cycle, and the total amount of unpaid costs of care that the department has determined the resident or financially responsible person is able to pay. The bill need not state the current or accrued full cost of care that is or would be payable by a third party.

(10) This section may not be construed to reduce the liability of a third party for the resident's full cost of care as provided in this part.

History: En. Sec. 15, Ch. 199, L. 1965; amd. Sec. 1, Ch. 240, L. 1969; amd. Sec. 53, Ch. 120, L. 1974; amd. Sec. 2, Ch. 336, L. 1974; amd. Sec. 46, Ch. 37, L. 1977; amd. Sec. 3, Ch. 450, L. 1977; R.C.M. 1947, 80-1603(part); amd. Sec. 3, Ch. 594, L. 1983; amd. Sec. 5, Ch. 190, L. 1997.

53-1-406. Investigation of ability to pay. (1) Before determining an ability to pay under 53-1-405, the department shall investigate each resident's and each financially responsible person's ability to pay. For purposes of the investigation, the determination of ability to pay, or any later review or redetermination, the department may require the resident or financially responsible person to complete, sign, and submit financial information and documentation, including financial statements on a form supplied by the department.

(2) Each agency of the state shall provide to the department all reasonable assistance and all requested information and documents necessary for the financial investigation of residents or financially responsible persons. The department of revenue may not provide confidential tax return information to the department without the consent of the taxpayer.

(3) Upon request of the department, the resident or financially responsible person shall make available to the department and shall cooperate with the department in obtaining any financial information and documentation that the department considers essential for the purpose of determining ability to pay and that, under federal law, the department is not prohibited from seeking or obtaining from the resident or financially responsible person. The information and documentation that the department is entitled to receive include but are not limited to:

(a) income statements and verification;

(b) liability statements and verification;

(c) tax returns and related forms, documents, and records, but the department of revenue may not provide confidential tax return information to the department without the consent of the taxpayer;

(d) asset statements and descriptions, including valuation appraisals;

(e) records of a bank or other financial institution, including account balances, loan statements, account ownership information, and transaction records;

(f) expense statements and verification;

(g) financial statements, including existing financial statements and financial statements on forms provided by the department;

(h) releases authorizing the department to obtain information or documents directly from an employer, creditor, federal agency, financial institution, or other person or entity; and

(i) any other information or documentation necessary to the determination.

(4) If a resident or financially responsible person fails to provide or cooperate in obtaining the financial information or documentation requested by the department, the department may

make a determination of ability to pay based upon any information or documentation available to the department, including a determination of ability to pay up to the full cost of care. The determination is effective until the requested information and documentation are provided and the department makes a new determination of ability to pay, taking into consideration the additional information and documentation.

(5) In a hearing under 53-1-407, if a hearings examiner determines that information or documentation is relevant and admissible and orders the resident or financially responsible person to produce it and if the resident or financially responsible person fails or refuses to produce that information or documentation, a determination of ability to pay the full cost of care may be affirmed or payment of the full cost of care ordered, regardless of other information presented.

53-1-408. Periodic review by department of ability to pay. (1) The department shall review at least annually each determination of ability to pay, and if there has been a significant change in a resident's or financially responsible person's ability to pay, the department shall make a new determination.

(2) In addition to the annual review required by subsection (1), the department shall review a determination of ability to pay upon the request of a resident or financially responsible person if the person provides the department with documentation of a changed circumstance that would substantially affect the amount determined under 53-1-405.

(3) A new determination of ability to pay may not be applied retroactively unless:

(a) the new determination results in a monthly payment amount that is less than the previous monthly payment amount; or

(b) the resident or financially responsible person has misrepresented or failed to provide any financial information or documentation that the person was obligated to provide under 53-1-406 and unless the resident or financially responsible person would have been required to pay a higher monthly amount based upon consideration of the complete and correct information and documentation.

(4) The department may adopt rules to implement the provisions of this section, including but not limited to rules for credit or refund of any overpayment resulting from an assessment retroactively reduced because of a new determination of ability to pay.

53-1-409. Limitations on liability of resident or financially responsible person for cost of care. (1) The resident or financially responsible person is liable only for the cost of care that the department has determined that the person is able to pay and for which the department has billed the resident or financially responsible person. If the amount payable is retroactively reduced because of a new determination of ability to pay, the resident or financially responsible person shall pay only the reduced amount for the period of time covered by the retroactive reduction.

(2) The natural or adoptive parents of a long-term resident may not be required to pay for the resident's cost of care in an amount exceeding the cost of caring for a normal child at home as determined and updated annually by the department based upon the annual cost of raising a child, as estimated by the United States department of agriculture.

(3) The natural or adoptive parents of a long-term resident may not be required to pay for the resident's cost of care for periods after the resident attains 18 years of age.

(4) (a) A resident or financially responsible person is not financially liable for care provided to a resident under any provision of a criminal statute.

53-1-410. Nonpayment not grounds for discharge. A resident of an institution listed in 53-1-402 may not be discharged by reason of the nonpayment of the resident's cost of care unless, by certification of a physician consulted by the superintendent of the institution, the discharge is medically advisable.

53-1-411. Collections from residents and financially responsible persons. (1) If a resident or financially responsible person refuses or fails to pay the amount required under this part, any amount remaining unpaid 30 days after the department mails a written demand for payment may be collected:

(a) by the department in any manner allowed by law for the collection of debts; or

(b) by the department of administration in the manner set forth in Title 17, chapter 4, for the collection of debts owing to the state or by a civil suit brought by the department of administration in the name of the state.

(2) A resident's death or discharge from an institution does not reduce or eliminate the obligation of any person to pay an amount required under this part.

History: En. Sec. 16, Ch. 199, L. 1965; amd. Sec. 4, Ch. 450, L. 1977; R.C.M. 1947, 80-1604(1); amd. Sec. 3, Ch. 35, L. 1995; amd. Sec. 7, Ch. 589, L. 1995; amd. Sec. 11, Ch. 190, L. 1997.

53-1-412. Collections from estates. (1) The department has a claim against the estate of a resident and against the estate of a financially responsible person for the amounts that the department determined that the resident or financially responsible person was able to pay under 53-1-405, less any amounts actually paid by the resident, a financially responsible person, or a third party.

(2) The fact that a managed care organization contracting with the department to administer a mental health managed care program is or may be liable to pay or has paid an amount to an institution with respect to the resident does not reduce or otherwise affect the estate's obligation to pay for the cost of care as provided in this part.

(3) Except as provided in subsection (4), the department's claim under this section is enforceable against an estate after the death of a resident or financially responsible person. The department's claim is timely if presented within the time specified in the published notice to creditors in the probate proceeding.

(4) The department's claim under subsection (1) may be enforced only to the extent that enforcement does not deprive a surviving spouse or dependent child or parent of the resident or financially responsible person of:

(a) an amount necessary for reasonable living expenses or educational expenses; or

(b) real estate while it is occupied as a home by the surviving spouse or dependent child or parent of the resident or financially responsible person.

The department is entitled to collect from the third party the full amount payable by the third party, up to the resident's full cost of care. Collection is not limited to the amount that the resident or financially responsible person has been determined able to pay under 53-1-405.

(3) The fact that a managed care organization contracting with the department to administer a mental health managed care program is or may be liable to pay or has paid an amount to an institution with respect to the resident does not reduce or otherwise affect the third party's obligation to pay for the cost of care as provided in this part.

(4) The department may assign its rights under this section to a managed care organization contracting with the department to administer a mental health managed care program.

(5) If a third party that has been notified of the department's or managed care organization's claim under this section pays benefits, resources, or other amounts to a resident, financially responsible person, or another person or entity without satisfying the department's or managed care organization's claim, the third party is liable to the department or to the managed care organization for the amount that the department or managed care organization was entitled to receive under this part.

53-2-612. Lien of department or county upon third-party recoveries. (1) Upon notice by the department, a county, or the recipient to a third party or the third party's insurer as provided in subsection (5)(b), the department or county has a lien upon all money paid by a third party or the third party's insurer in satisfaction of a judgment or settlement arising from a recipient's claim for damages or compensation for personal injury, disease, illness, or disability to the extent that the department or county has paid medical assistance on behalf of the recipient for the same personal injury, disease, illness, or disability.

(2) The department or county may, in the name of the recipient on whose behalf medical assistance has been paid by the department or county, commence and prosecute to final conclusion any action that may be necessary to recover from a third party or the third party's insurer compensation or damages for medical assistance paid by the department or county on behalf of the recipient. This section does not affect the right of the recipient to initiate and prosecute to final conclusion an action for damages or compensation in the recipient's own name in accordance with the provisions of this section.

(3) (a) The lien:

(i) applies to all money paid by a third party or a third party's insurer regardless of whether the recovery is allocated by the parties or a court to any particular type or element of damages; and

(ii) is subordinate to the lien of an attorney under 37-61-420.

(b) Unless specifically provided by law, the recipient's right to recover damages or compensation from a third party or a third party's insurer may not be reduced or denied on the ground that the recipient's costs of medical treatment and medical-related services have been paid by the department or county under any public assistance program.

(c) From the amount collected by the department, county, or recipient from legal proceedings or as a result of settlement, reasonable attorney fees and costs must be first deducted and paid. Unless the department or county and the recipient agree to a different settlement, the amount previously paid as medical assistance by the department or county, less a pro rata share of attorney fees and costs, must be deducted next and paid to the department or county. The remainder, if any, must be paid to the recipient.

(d) In all cases of payment to the department or county out of an amount collected from a third party or insurer on a recipient's claim, the amount of the lien must be reduced by a pro rata share of attorney fees and costs as provided in subsection (3)(c), but the department or county may not be required to participate in payment of attorney fees and costs unless the recipient's claim results in recovery out of which the department or county receives full or partial payment of its lien.

(e) Except as provided in subsections (3)(e)(i) and (3)(e)(ii), the department may not impose a lien under this section upon a self-sufficiency trust established pursuant to Title 53, chapter 18, part 1, or upon the assets of a self-sufficiency trust established pursuant to Title 53, chapter 18, part 1.

(i) The department may impose a lien under this section upon a self-sufficiency trust or upon the assets of a self-sufficiency trust established pursuant to Title 53, chapter 18, part 1, if the department is required by federal law to recover or collect from the trust or its assets as a condition of receiving federal financial participation for the medicaid program.

(ii) To the extent otherwise permitted by this section, the department is not precluded from asserting a claim or imposing a lien upon real or personal property prior to transfer of the property to the trust. If the department imposes a lien upon property prior to transfer to a self-sufficiency trust, any transfer of the property to the trust is subject to the lien.

(4) (a) A recipient of medical assistance or the recipient's legal representative shall notify the department or county by certified letter within 30 days if the recipient or the recipient's legal representative asserts a claim against a third party or a third party's insurer for damages or compensation for a personal injury, disease, illness, or disability for which the department or

county paid medical assistance in whole or in part or for which the recipient has applied for medical assistance. The notice must be mailed to the director of the department or the county commissioners of the county that paid medical assistance. At the same time, a copy must be sent by certified mail to the third party or the third party's insurer.

(b) The notice must contain the following information:

(i) the name and address of the recipient and the recipient's legal representative, if any;

(ii) the name and address of the third party alleged to be liable to the recipient;

(iii) the name and address of any known insurer of the third party; and

(iv) the judicial district and docket number of any action filed.

(c) A recipient or the recipient's legal representative who has received actual notice that the department or county has paid medical assistance is liable to the department or county for the amount it is entitled to receive under this section if:

(i) the recipient or the recipient's legal representative fails to timely notify the department or county or fails to mail a copy of the notice to the third party or the third party's insurer; and

(ii) a third party or the third party's insurer that did not receive notice from the department or county as provided for in subsection (5)(b) pays the recipient or the recipient's legal representative without satisfying any lien of the department or county.

(5) (a) If a third party or the third party's insurer that has received notice of the department's or county's lien as provided for in subsection (5)(b) makes payment in whole or in part of the recipient's claim without first satisfying the lien of the department or county, the third party or the third party's insurer is liable to the department or county for the amount the department or county is entitled to receive under this section.

(b) For the purposes of subsection (5)(a), a third party or the third party's insurer has been given notice if:

(i) the department or county mails, by certified mail, to the third party or the third party's insurer:

(A) a statement of the medical assistance paid or that may be paid by the department or county on behalf of the recipient; and

(B) a claim for reimbursement;

(ii) the recipient or the recipient's legal representative mails, by certified mail, to the third party or the third party's insurer:

(A) a copy of the notice required by subsection (4)(a); or

(B) a statement stating that the recipient has applied for or has received medical assistance from the department or county in connection with the same claim; or

(iii) the recipient or the recipient's legal representative has commenced an action against the third party or the third party's insurer for damages or compensation for personal injury, disease, illness, or disability for which the department or county has paid or may pay medical assistance, in whole or in part, and the department or county files in the court in which the action is pending a notice of lien stating that a lien is claimed for medical assistance on any money paid in satisfaction of any judgment in or settlement of the action and that:

(A) medical assistance in a stated amount has been paid by the department or county on behalf of the recipient; or

(B) medical assistance may be paid on behalf of the recipient.

(6) As used in this section, the following definitions apply:

(a) "County" means a county that has provided medical assistance to a recipient through an indigent assistance program operated at the option of the county.

(b) "Legal representative" means an attorney having or exercising authority on behalf of a recipient with respect to a claim or action to recover damages or compensation from a third party or a third party's insurer.

(c) "Recipient" means a person on whose behalf the department or a county has paid or may pay medical assistance for the cost of medical treatment and medical-related services for personal injury, disease, illness, or disability. If the context allows, the term includes a recipient's legal representative.

(d) "Third party" means an individual, institution, corporation, or public or private agency that is or may be liable to pay all or part of the cost of medical treatment and medical-related services for personal injury, disease, illness, or disability of a recipient of medical assistance from the department or a county and includes but is not limited to insurers, health service organizations, and parties liable or who may be liable in tort.

The application must be submitted, in the manner and form prescribed by the department, and must contain information required by the department.

(2) A person who signs an application for financial assistance, as defined in 53-2-902, or for related medical assistance assigns to the state, to the department, and to the county, if county funds were used to pay for services, all rights that the applicant may have to monetary and medical support from any other person in the applicant's own behalf or in behalf of any other family member for whom application is made. A person who signs an application for public assistance other than financial assistance, as defined in 53-2-902, or for related medical assistance may, in accordance with rules adopted by the department, be required to assign to the state, to the department, and to the county all rights that the applicant may have to monetary and medical support from any other person in the applicant's own behalf or on behalf of any other family member for whom application is made.

(3) The assignment:

(a) is effective for both current and accrued support, including unpaid support that accrued before the applicant received public assistance, and medical obligations;

(b) takes effect upon a determination that the applicant is eligible for public assistance; and

(c) remains in effect with respect to the amount of any unpaid support and medical obligation accrued under the assignment that was owed prior to the termination of public assistance to a recipient.

(4) If a person who is the legal custodian and child support obligee under a support order relinquishes physical custody of a child to a caretaker relative without obtaining a modification of legal custody and the caretaker relative is determined eligible for public assistance on behalf of the child, the child support obligation is transferred by operation of law to the caretaker relative and may be assigned as provided in subsection (2). The transfer and assignment terminate when the caretaker relative no longer has physical custody of the child, except for any unpaid support still owing under the assignment at that time.

(b) A recipient or former recipient of public assistance may not commence or maintain an action to recover or enforce a delinquent support obligation or make any agreements with any other person or agency concerning the support obligation, except as provided in 40-5-202.

(c) If a notice of assigned interest is filed with the district court, the clerk of the court may not pay over or release for the benefit of any recipient or former recipient of public assistance any amounts received pursuant to a judgment or decree or an order of the court until the department's child support enforcement division has filed a written notice that:

(i) the assignment of current support amounts has been terminated; and

(ii) all assigned support delinquencies, if any, are satisfied or released.

(d) A recipient or former recipient of public assistance may not take action to modify or make any agreement to modify, settle, or release any past, present, or future support obligation unless the department's child support enforcement division is given written notice under the provisions of 40-5-202. Any modifications or agreements entered into without the participation of the department are void with respect to the state, the department, and the local office of public assistance.

(e) A support obligation assigned under this section may not be terminated, invalidated, waived, set aside, or considered uncollectible by the conduct, misconduct, or failure of a recipient or former recipient of public assistance to take any action or to cease any action required under a decree, judgment, support order, custody order, visitation order, restraining order, or other similar order.

53-3-115. Legislative findings. (1) The legislature finds that in order to use the limited resources of the state for the purposes of providing public assistance to persons whom it has determined are in need, certain programs must be eliminated and the provision of public assistance programs must be reorganized for more efficient delivery of services.

(2) The legislature finds that county governments are in the best position to efficiently and effectively deliver services for those in need who are not otherwise eligible for similar services provided by the department of public health and human services.

(3) (a) The legislature finds that the needs of persons who are aged, infirm, or misfortunate are adequately and appropriately provided for through the following programs:

(i) medicaid;

(ii) aid for dependent children;

(iii) food stamps;

(iv) commodities; and

(v) low-income energy assistance.

(b) The legislature further finds that the counties may in their discretion provide other programs of public assistance that they determine are appropriate and that may be funded with money derived from a county mill levy.

(4) The legislature finds that the effects of eliminating the state program of general relief are not known and that the administration and financing of public assistance programs by each county may not provide uniform assistance throughout the state.

53-4-248. Parents liable to department for public assistance payments. (1) A payment of public assistance money made to or for the benefit of a dependent child creates a debt due and owing to the department by the natural or adoptive parents who are legally responsible for the support of the child by statute or court decree in an amount equal to the amount of public assistance paid. However, where the support obligation is based upon a court decree, the debt is limited to the amount of the court decree.

(2) The department is subrogated to the right of the child or person having the care, custody, and control of the child to prosecute any support action or execute any administrative remedy existing under the laws of the state to obtain reimbursement of any money expended. If a court decree enters judgment for an amount of support to be paid by an obligor parent, the department is subrogated to the debt created by the order and the money judgment is in favor of the department. An obligee may not commence an action to recover support due and owing to the obligee without first filing an affidavit with the court stating whether the obligee has received public assistance from any source and, if the obligee has received public assistance, that the obligee has notified the department in writing of the pending action.

(3) A debt arising under this section may not be incurred by or collected from a parent or other person while the parent or other person is the recipient of public assistance money for the benefit of minor dependent children.

(4) The remedies provided in this section are in addition to and not in lieu of existing common law and statutory law.

(5) The department or its legal representatives may, at any time consistent with the income, earning capacity, and resources of the debtor, petition the court having jurisdiction over the particular case to set or reset a level and schedule of payments to be paid upon the debt.

Families Achieving Independence in Montana (FAIM) financial assistance program, Title 53, ch. 4, part 2.

53-6-101. Montana medicaid program — authorization of services. (1) There is a Montana medicaid program established for the purpose of providing necessary medical services to eligible persons who have need for medical assistance. The Montana medicaid program is a joint federal-state program administered under this chapter and in accordance with Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be amended. The department of public health and human services shall administer the Montana medicaid program.

(2) Medical assistance provided by the Montana medicaid program includes the following services:

(a) inpatient hospital services;

(b) outpatient hospital services;

(c) other laboratory and x-ray services, including minimum mammography examination as defined in 33-22-132;

(d) skilled nursing services in long-term care facilities;

(e) physicians' services;

(f) nurse specialist services;

(g) early and periodic screening, diagnosis, and treatment services for persons under 21 years of age;

(h) ambulatory prenatal care for pregnant women during a presumptive eligibility period, as provided in 42 U.S.C. 1396a(a)(47) and 42 U.S.C. 1396r-1;

(i) targeted case management services, as authorized in 42 U.S.C. 1396n(g), for high-risk pregnant women;

(j) services that are provided by physician assistants-certified within the scope of their practice and that are otherwise directly reimbursed as allowed under department rule to an existing provider;

(k) health services provided under a physician's orders by a public health department; and

(l) federally qualified health center services, as defined in 42 U.S.C. 1396d(l)(2).

(3) Medical assistance provided by the Montana medicaid program may, as provided by department rule, also include the following services:

(a) medical care or any other type of remedial care recognized under state law, furnished by licensed practitioners within the scope of their practice as defined by state law;

(b) home health care services;

(c) private-duty nursing services;

(d) dental services;

(e) physical therapy services;

(f) mental health center services administered and funded under a state mental health program authorized under Title 53, chapter 21, part 2;

(g) clinical social worker services;

(h) prescribed drugs, dentures, and prosthetic devices;

(i) prescribed eyeglasses;

(j) other diagnostic, screening, preventive, rehabilitative, chiropractic, and osteopathic services;

(k) inpatient psychiatric hospital services for persons under 21 years of age;

(l) services of professional counselors licensed under Title 37, chapter 23;

(m) hospice care, as defined in 42 U.S.C. 1396d(o);

(n) case management services as provided in 42 U.S.C. 1396d(a) and 1396n(g), including targeted case management services for the mentally ill;

(o) inpatient psychiatric services for persons under 21 years of age, as provided in 42 U.S.C. 1396d(h), in a residential treatment facility, as defined in 50-5-101, that is licensed in accordance with 50-5-201; and

(p) any additional medical service or aid allowable under or provided by the federal Social Security Act.

(4) Services for persons qualifying for medicaid under the medically needy category of assistance as described in 53-6-131 may be more limited in amount, scope, and duration than services provided to others qualifying for assistance under the Montana medicaid program. The department is not required to provide all of the services listed in subsections (2) and (3) to persons qualifying for medicaid under the medically needy category of assistance.

(5) In accordance with federal law or waivers of federal law that are granted by the secretary of the U.S. department of health and human services, the department of public health and human services may implement limited medicaid benefits, to be known as basic medicaid, for adult recipients who are eligible because they are receiving financial assistance, as defined in 53-4-201, as the specified caretaker relative of a dependent child under the FAIM project and for all adult recipients of medical assistance only who are covered under a group related to a program providing financial assistance, as defined in 53-4-201. Basic medicaid benefits consist of all mandatory services listed in subsections (2)(a) through (2)(l) but may include those optional services listed in subsections (3)(a) through (3)(p) that the department in its discretion specifies by rule. The department, in exercising its discretion, may consider the amount of funds appropriated by the legislature and whether the provision of a particular service is commonly covered by private health insurance plans. However, a recipient who is pregnant, meets the criteria for disability provided in Title II of the Social Security Act, 42 U.S.C. 416, et seq., or is less than 21 years of age is entitled to full medicaid coverage.

(6) The department may implement, as provided for in Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be amended, a program under medicaid for payment of medicare premiums, deductibles, and coinsurance for persons not otherwise eligible for medicaid.

(7) The department may set rates for medical and other services provided to recipients of medicaid and may enter into contracts for delivery of services to individual recipients or groups of recipients.

(8) The services provided under this part may be only those that are medically necessary and that are the most efficient and cost-effective.

(9) The amount, scope, and duration of services provided under this part must be determined by the department in accordance with Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be amended.

(10) Services, procedures, and items of an experimental or cosmetic nature may not be provided.

(11) If available funds are not sufficient to provide medical assistance for all eligible persons, the department may set priorities to limit, reduce, or otherwise curtail the amount, scope, or duration of the medical services made available under the Montana medicaid program.

(12) Community-based medicaid services, as provided for in part 4 of this chapter, must be provided in accordance with the provisions of this chapter and the rules adopted under this chapter.

(13) Medicaid payment for personal-care facilities may not be made unless the department certifies to the director of the governor's office of budget and program planning that payment to this type of provider would, in the aggregate, be a cost-effective alternative to services otherwise provided.

The rules must be designed for the imposition of incrementally more severe fines for repeated or uncorrected deficiencies. 53-6-109. Consistent regulation of long-term care facilities — rulemaking authority. In order to provide more consistent regulation of long-term care facilities that provide intermediate and skilled nursing care statewide, the department shall adopt rules in consultation with long-term care provider groups, the long-term care ombudsman, as described in 52-3-603, and appropriate consumer groups by July 1, 2003, that:

(1) define the following terms used in the survey and certification process for long-term care facilities that provide intermediate and skilled nursing care:

(a) actual harm;
(b) potential for more than minimal harm;
(c) avoidable;
(d) unavoidable; and
(e) immediate jeopardy;

(2) define an informal dispute resolution process to provide nursing homes with an opportunity to respond to survey findings and deficiency citations that are believed to be made in error. The rules must be consistent with the purpose of informal dispute resolution that is intended to give the provider an opportunity to demonstrate that a deficiency has been applied in error or is a misjudgment of true facts. The objective of the process is to avoid the imposition of unnecessary sanctions and to diminish the need for formal administrative hearings with the state, as provided for in 53-6-108, or the federal government agencies that are responsible for the enforcement of remedies. The process must provide for an objective review of the raised issues by an individual who is independent of the survey process and who can evaluate the legal sufficiency of the findings of the surveyors.

(3) define standards for survey determinations in which the surveyors question the efficacy of orders for drugs and treatments made by a resident's attending physician. The standards must recognize that a written physician's order provides evidence of medical necessity and the appropriateness of the drugs and treatments ordered, unless the survey agency alleges substandard practice by the physician. The standards must provide for the reporting of any substandard practice of a physician to the board of medical examiners by the surveyors. The standards must outline a facility's responsibilities in monitoring drugs and

treatments ordered for residents and for consulting with the attending physician as appropriate.

(a) analysis of past and present funding levels for the various categories and types of health services eligible for medicaid reimbursement;

(b) projected increased medicaid funding needs for the next biennium. These projections must identify the effects of projected population growth and demographic patterns on at least the following elements:

(i) trends in unit costs for services, including inflation;

(ii) trends in use of services;

(iii) trends in medicaid recipient levels; and

(iv) the effects of new and projected facilities and services for which a need has been identified in the state health care facilities plan.

53-6-111. Department charged with administration and supervision of medical assistance program — overpayment recovery — sanctions for fraudulent and abusive activities — adoption of rules. (1) The department of public health and human services may administer and supervise a vendor payment program of medical assistance under the powers, duties, and functions provided in Title 53, chapter 2, and this chapter and that is in compliance with Title XIX of the Social Security Act.

(2) (a) The department is entitled to collect from a provider, and a provider is liable to the department for:

(i) the amount of a payment under this part to which the provider was not entitled, regardless of whether the incorrect payment was the result of department or provider error or other cause; and

(ii) the portion of any interim rate payment that exceeds the rate determined retrospectively by the department for the rate period.

(b) In addition to the amount of overpayment recoverable under subsection (2)(a), the department is entitled to interest on the amount of the overpayment at the rate specified in 31-1-106 from the date 30 days after the date of mailing of notice of the overpayment by the department to the provider, except that interest accrues from the date of the incorrect payment when the payment was obtained by fraud or abuse.

(c) The department may collect any amount described in subsection (2)(a) by:

(i) withholding current payments to offset the amount due;

(ii) applying methods and using a schedule mutually agreeable to the department and the provider; or

(iii) any other legal means.

(d) The department may suspend payments to a provider for disputed items pending resolution of a dispute.

(e) The fact that a provider may have ceased providing services or items under the medical assistance program, may no longer be in business, or may no longer operate a facility, practice, or business does not excuse repayment under this subsection (2).

(3) The department shall adopt rules establishing a system of sanctions applicable to providers who engage in fraud and abuse. Subject to the definitions in 53-6-155, the department rules must include but are not limited to specifications regarding the activities and conduct that constitute fraud and abuse.

(4) Subject to subsections (5) and (6), the sanctions imposed under rules adopted by the department under subsection (3) may include but are not limited to:

(a) required courses of education in the rules governing the medicaid program;

(b) suspension of participation in the program for a specified period of time;

(c) permanent termination of participation in the medical assistance program; and

(d) imposition of civil monetary penalties imposed under rules that specify the amount of penalties applicable to a specific activity, act, or omission involving intentional or knowing violation of specified standards.

(5) In all cases in which the department may recover medicaid payments or impose a sanction, a provider is entitled to a hearing under the provisions of Title 2, chapter 4, part 6. 53-6-143. *(Temporary)* **Medical assistance liens and recoveries.** (1) Except as provided in this section, the department may not impose a lien upon the property of an applicant for or recipient of medical assistance.

(2) A lien for recovery of medical assistance paid or to be paid under this chapter may be imposed against the real or personal property of a medicaid applicant or recipient prior to the applicant's or recipient's death only:

(a) pursuant to a judgment of a court for recovery of medical assistance paid on behalf of the recipient;

(c) as provided in 53-6-171 through 53-6-188.

(3) The department may recover medical assistance correctly paid on behalf of a recipient only as provided in 53-2-612, 53-6-167 through 53-6-169, or 53-6-171 through 53-6-188 or as provided in a written agreement between the department and the recipient or the recipient's representative pursuant to 42 U.S.C. 1382b(b).

(4) Except as otherwise specifically provided by 53-6-144, 53-6-165 through 53-6-169, 53-6-171 through 53-6-189, and this section, the department may pursue recovery under any section or combination of sections as may be applicable in a particular case. However, the department may not recover pursuant to 53-6-167 through 53-6-169 or 53-6-171 through 53-6-188 more than the total amount of recoverable medical assistance paid on behalf of a recipient, plus any applicable costs, interest, or other charges specifically allowed by law. The fact that the department has or may have a lien on particular property does not preclude the department from pursuing recovery under another section against other assets of the recipient or assets of another person as provided in 53-6-144, 53-6-165 through 53-6-169, 53-6-171 through 53-6-189, and this section.

(b) To the extent otherwise permitted by this section, the department is not precluded from asserting a claim or imposing a lien upon real or personal property prior to transfer of the property to the trust. If the department imposes a lien upon property prior to transfer to a self-sufficiency trust, any transfer of the property to the trust is subject to the lien.

53-6-143. *(Effective six months after occurrence of contingency)* **Medical assistance liens and recoveries.** (1) Except as provided in this section, the department may not impose a lien upon the property of an applicant for or recipient of medical assistance.

(2) A lien for recovery of medical assistance paid or to be paid under this chapter may be imposed against the real or personal property of a medicaid applicant or recipient prior to the applicant's or recipient's death only:

(c) as provided in 53-6-171 through 53-6-188; or

(d) to the extent that the recipient has received medical assistance based upon resources not disregarded pursuant to part 8 of this chapter.

(3) The department may recover medical assistance correctly paid on behalf of a recipient only as provided in 53-2-612, 53-6-167 through 53-6-169, or 53-6-171 through 53-6-188 or as provided in a written agreement between the department and the recipient or the recipient's representative pursuant to 42 U.S.C. 1382b(b).

(4) Except as otherwise specifically provided by 53-6-144, 53-6-165 through 53-6-169, 53-6-171 through 53-6-189, and this section, the department may pursue recovery under any section or combination of sections as may be applicable in a particular case. However, the department may not recover pursuant to 53-6-167 through 53-6-169 or 53-6-171 through 53-6-188 more than the total amount of recoverable medical assistance paid on behalf of a recipient, plus any applicable costs, interest, or other charges specifically allowed by law. The fact that the department has or may have a lien on particular property does not preclude the department from pursuing recovery under another section against other assets of the recipient or assets of another person as provided in 53-6-144, 53-6-165 through 53-6-169, 53-6-171 through 53-6-189, and this section.

(5) Except as provided in subsections (5)(a) and (5)(b), the department may not impose a lien under this section upon a self-sufficiency trust established pursuant to Title 53, chapter 18, part 1, or upon the assets of a self-sufficiency trust established pursuant to Title 53, chapter 18, part 1.

(a) The department may impose a lien under this section upon a self-sufficiency trust or upon the assets of a self-sufficiency trust established pursuant to Title 53, chapter 18, part 1, if the department is required by federal law to recover or collect from the trust or its assets as a condition of receiving federal financial participation for the medicaid program.

53-6-145. Agencies to adopt rules governing personal assistant services. (1) Recognizing the importance of consumer control over personal assistance services in a self-directed service model, the legislature directs the department of public health and human services and the department of labor and industry to adopt administrative rules authorizing a person with a disability to act as though the person is the employer, for the purposes of selection, management, and supervision, of a personal assistant, although the personal assistant is the employee of another person or entity. The rules must reflect both the rights and protection guaranteed to workers under existing labor law and ensure that consumers of personal assistant services have day-to-day control, supervision, and direction over those services.

(2) As used in this section, the following definitions apply:

(a) "Ancillary services" means services ancillary to basic services provided to an individual in need of home-based care who needs one or more of the following basic services:

(i) homemaker-type services, including but not limited to shopping, laundry, cleaning, and seasonal chores;

(ii) companion-type services, including but not limited to transportation, letter writing, reading mail, assisting with alternative communication, and escort; and

(iii) assistance with cognitive tasks, including but not limited to managing finances, planning activities, prompting, and problem solving.

(b) "Basic services" includes assistance:

(i) getting in and out of bed, a wheelchair, or a motor vehicle; and

(ii) with routine bodily functions including:

(A) health maintenance activities;

(B) bathing and personal hygiene;

(C) dressing and grooming;

(D) feeding, including preparation and cleanup; and

(E) setup, use, and maintenance of assistive technologies.

(c) "Individual in need of home-based services" means an individual with a physical or mental impairment who requires assistance in completing functions of daily living, self-care, and mobility.

(d) "Personal assistant services" means those basic and ancillary services that enable an individual in need of home-based care to live in the individual's home and community rather than in an institution and to carry out functions of daily living, self-care, and mobility.

(3) The department of public health and human services is not required to provide personal care services as part of the medicaid program in a self-directed service model as described in this section unless the personal assistant is an employee of an entity willing to provide the protections guaranteed to workers under existing labor laws, including but not limited to the payment of workers' compensation and unemployment insurance premiums.

(4) This section does not prohibit the department of public health and human services from determining the amount, scope, and duration of the personal assistance services provided under the medicaid program, nor does this section mandate personal assistance services.

(5) Medical and related liability for personal care services provided pursuant to this section rests with the person directing the services.

53-6-166. Period of ineligibility for medical assistance when assets disposed of for less than fair market value — undue hardship exception — department to adopt rules. (1) The department shall, in accordance with 42 U.S.C. 1396p, as may be amended, and implementing federal regulations and policies, impose upon an applicant or recipient a period of ineligibility for medical assistance under this part when the applicant or recipient or the spouse of either directly or indirectly disposes of any assets for less than fair market value during the applicable 3-year, 5-year, or other period provided by 42 U.S.C. 1396p, as may be amended, or by other federal law.

(2) A period of ineligibility for medical assistance may not be imposed upon an applicant or recipient under this section to the extent that the department determines, in accordance with procedures specified by department rule, that the denial of eligibility would cause an undue hardship as defined by department rule.

(3) The department shall adopt rules that are consistent with 42 U.S.C. 1396p, as may be amended, and that implement federal regulations and policies to implement this section. The rules adopted under this section must include but are not limited to rules addressing the following:

(a) a description of the circumstances considered to constitute an undue hardship;

(b) the procedures by which an individual may seek an undue hardship exception;

(c) the persons entitled to an undue hardship exception; and

(d) notice and opportunity for a hearing regarding imposition of a period of ineligibility or denial of an undue hardship exception.

(4) Nothing in 53-6-143, 53-6-144, 53-6-165, 53-6-167 through 53-6-169, 53-6-171 through 53-6-189, or this section is intended to prohibit the department from adopting rules consistent with federal law that provide for a period of ineligibility for public assistance programs other than medical assistance when an applicant or recipient directly or indirectly disposes of assets for less than fair market value.

53-6-167. Recovery of medicaid benefits after recipient's death. (1) After the death of a recipient, the department shall execute and present a claim:

(a) against the recipient's estate, within the time specified in the published notice to creditors in the estate proceeding, for the total amount of recoverable medical assistance paid to or on behalf of the recipient; and

(b) against a person who has received property of the recipient by distribution or survival for an amount equal to the recoverable medical assistance paid on behalf of the recipient or the value of the property received by the person from the recipient by distribution or survival, whichever is less. The amount recoverable from a person with respect to property of the recipient must be reduced by the value of any property transferred to the person for less than full market value for which a period of ineligibility was imposed under 53-6-166 against the recipient during the recipient's life. The department may bring an action in district court to collect upon a claim under this subsection (1)(b).

(2) A department claim under subsection (1) must include notice of the right to seek an undue hardship exception under rules adopted by the department in accordance with subsection (7).

(3) (a) Notwithstanding any statute of limitations or other claim presentation deadline provided by law, a department claim against an estate is not barred for lack of timely presentation if it is presented in the probate proceeding within the time specified in the published notice to creditors.

(b) An action to collect a claim under subsection (1)(b) must be commenced within 3 years of the later of the recipient's death or the closing of the recipient's estate.

(4) (a) For purposes of this section, property of a deceased recipient received by distribution or survival is any real or personal property or other assets in which the recipient had any right, title, or interest immediately prior to the time of death, including but not limited to assets passing to one or more survivors, heirs, assignees, or beneficiaries of the deceased recipient through joint tenancy, tenancy in common, right of survivorship, conveyance by the recipient subject to life estate, living trust, or other arrangement. For purposes of this section, property is not received by distribution or survival to the extent that the person received the property or property interest for consideration equal to the fair market value of the property or property interest received.

(b) Property received by distribution includes but is not limited to:

(i) property from a deceased recipient's estate distributed to a person through a probated estate or a small estate administration procedure; and

(ii) property from a deceased recipient's estate otherwise distributed to or in the possession of a person through any other procedure or when a legal procedure for distribution has not been followed.

(c) Assets of a deceased recipient's estate and property of a deceased recipient received by distribution or survival are not exempt from recovery under this section because the assets or property were or may have been considered by the department as exempt income or resources for the purpose of determining eligibility for medical assistance during the recipient's lifetime.

(5) (a) The department may seek recovery under subsection (1)(a) or (1)(b), or both, with respect to a deceased recipient until its claim is satisfied in full. Upon full satisfaction of its claim, the department may not seek further recovery and shall provide appropriate releases to the deceased recipient's estate and to other affected persons.

(b) An estate or other person is not entitled to a reduction or waiver of the department's claim on the grounds that there is or may be another person from whom recovery may be made under this section.

(6) The department may waive recovery under this section if it determines that recovery would not be cost-effective. In determining whether recovery would be cost-effective for purposes of this subsection, the department may consider but is not limited to consideration of the following factors:

(a) the estimated cost of recovery;

(b) the amount reasonably likely to be recovered;

(c) the likelihood that recovery by the department will cause a person to become eligible for public assistance; and

(d) the importance of the case or the issues in the case and the need for judicial interpretation of issues that may recur with respect to the administration or implementation of this section.

(7) (a) Upon presentation or assertion of a claim by the department under this section, the personal representative of the estate or another affected person may apply to the department, in accordance with procedures established by department rule, for a waiver of recovery based on undue hardship. The department shall waive its recovery under this section in whole or in part if it determines that recovery would result in undue hardship as defined by department rule.

(b) The department shall adopt rules that are consistent with 42 U.S.C. 1396p, as may be amended, and that implement federal regulations and policies, establishing procedures and criteria for undue hardship exceptions. The rules adopted under this section must include but are not limited to rules addressing the following:

(i) a description of the circumstances considered to constitute an undue hardship;

(ii) the procedures by which an individual may seek an undue hardship exception;

(iii) the persons entitled to an undue hardship exception; and

(iv) whether an exception is partial or temporary and the circumstances under which partial or temporary exceptions may be granted.

(c) If a person is aggrieved by a department determination on an application for an undue hardship exception, the person may assert a claim of entitlement to an undue hardship exception in any court proceeding on a department petition for allowance of an estate claim or for recovery of an amount due under this section. When a person claims entitlement to an undue hardship exception in the proceeding, the court shall make a determination on the claim for an exception based upon the department rules adopted in accordance with this section. Department denial of all or any part of the relief requested in an exception application under this section may be reviewed by a district court only as provided in this subsection (c). Denial does not grant a right to a contested case hearing or a right to judicial review under the Montana Administrative Procedure Act or the department's rules.

(8) (a) Except as provided in subsection (8)(b), if the requirements of this section are met, the department may collect upon its claim.

(b) The department may not recover under this section while there is a surviving spouse of the recipient or while there is a surviving child of the recipient who is under 21 years of age, blind, or permanently and totally disabled. This subsection (b) does not preclude the department from recovering from the recipient's estate after the death of the surviving spouse or child.

(9) All money recovered under this section from any source must be distributed to the state general fund and to the United States as required by applicable state and federal laws and regulations.

53-6-168. Payment of certain funds of deceased recipient to department. (1) (a) A nursing facility or a person, other than a financial institution, holding personal funds of a deceased nursing facility resident who received medicaid benefits at any time shall, within 30 days following the resident's death, pay those funds to the department.

(b) A nursing facility may satisfy a debt owed by the deceased resident to the facility from the deceased resident's personal funds that are held by the nursing facility and that would have been payable to the facility from the resident's funds. The facility shall pay the remaining funds to the department as required by this section.

(c) Funds paid to the department under this section are not considered to be property of the deceased resident's estate, and 53-6-167 does not apply to recovery of the funds by the department.

(2) For purposes of this section, a nursing facility is holding personal funds of a resident if the facility:

(a) maintains possession of the funds in the facility; or

(b) as the recipient's trustee or representative, has deposited the resident's funds in an individual or shared account in a financial institution.

(3) The department shall apply any funds received under this section proportionately to the federal and state shares of recoverable medical assistance and shall pay any remaining amount to a person entitled by law to the funds.

History: En. Sec. 6, Ch. 492, L. 1995.

53-6-169. Payment of excess burial funds or assets to department. (1) After the death of a person who at any time received medicaid benefits, a mortician, funeral director, or other person, including but not limited to the decedent's spouse, heir, devisee, or personal representative, who holds funds or other property in excess of $5,000 in value that was specifically designated and set aside for paying for the disposition of the decedent's remains and for related expenses shall, after paying for the disposition and related expenses, pay all remaining funds to the department within 30 days following the burial, cremation, or other final disposition of the decedent's remains. The funds must be paid to the department regardless of any provision in a written contract, trust, or other agreement entered into on or after July 1, 1995, directing a different disposition of the funds. Funds paid to the department under this section are not considered to be property of the decedent's estate, and 53-6-167 does not apply to recovery of the funds by the department.

(2) The department shall apply any funds received under this section proportionately to the federal and state shares of recoverable medical assistance and shall pay any remaining amount to a person entitled by law to the funds.

53-6-171. Department lien upon real property of certain medicaid recipients — conditions. (1) Following notice and opportunity for hearing as provided in 53-6-172, the department shall impose a lien upon the real property, including the home, of an institutionalized recipient of recoverable medical assistance to secure the assets of the recipient for recovery of medical assistance paid on behalf of the recipient prior to, on, or after the imposition of the lien if:

(a) the recipient has been admitted to a nursing facility, an intermediate care facility for the mentally retarded, or an institution for mental disease;

(b) the property upon which a lien is being imposed is the recipient's home and the home is not lawfully resided in by:

(i) the recipient's spouse;

(ii) the recipient's child who is under 21 years of age, blind, or permanently and totally disabled; or

(iii) the recipient's sibling who was residing in the recipient's home for a period of at least 18 months immediately prior to the recipient's institutionalization; and

(c) the recipient has been determined by the department, pursuant to subsection (2), to be permanently institutionalized.

(2) A recipient is permanently institutionalized for purposes of subsection (1)(c) if the department determines that the recipient cannot reasonably be expected to be discharged from the facility and to return home. There is a rebuttable presumption that the recipient cannot reasonably be expected to be discharged from the facility and return home if the recipient or a representative of the recipient declares that there is no intent to return home or if the recipient has been institutionalized for 6 months or longer without a discharge plan. The recipient's institutionalization for a period of 6 months or longer without a discharge plan does not give rise to the presumption if the facility was required by law to adopt a discharge plan but failed to do so. A recipient or a recipient's representative who alleges that there is a reasonable expectation of discharge from the facility and a return home has the burden of demonstrating the reasonable expectation. The reasonable expectation must be established based upon medical evidence and medical opinion. A declaration by the recipient or a recipient's representative that the recipient intends to be discharged from the facility and to return home is not alone sufficient to establish that there is a reasonable expectation of discharge from the facility and a return home.

(3) For purposes of this section, real property of a recipient includes any interest in real property that may be subject to a judgment lien.

53-6-172. Notice of intent to impose lien — opportunity for hearing. Before imposing a lien under 53-6-171, the department shall provide the recipient 30 days' written notice of its determination under 53-6-171(1)(c), of its intent to impose a lien, and of an opportunity for a hearing pursuant to the department's hearing procedures under Title 2, chapter 4, part 6.

History: En. Sec. 9, Ch. 492, L. 1995.

53-6-173. Contents of lien document — scope of obligation secured. (1) The lien must contain the name and address of the recipient who owns an interest in the property, a legal description of the property, and an address and telephone number of the office or representative of the department who can provide more information about the lien. The lien applies only to the property described in the lien.

(2) The lien need not be executed by or on behalf of the medicaid recipient, but it must be executed by an authorized agent or employee of the department. The execution must be acknowledged as provided in 70-21-203.

(3) The lien need not state the specific amount of medical assistance repayment owed. The lien is sufficient to secure repayment of past, current, and future recoverable medical assistance if the lien states that:

(a) the lien is imposed under 53-6-171 through 53-6-188 to secure the described property for recovery of medical assistance paid on behalf of the recipient prior to, on, and after the date of the lien; and

(b) the amount paid for recoverable medical assistance is due upon sale, transfer, or exchange of any right, title, or interest of the recipient in the property or upon the recipient's death.

History: En. Sec. 10, Ch. 492, L. 1995.

53-6-174. Filing of lien — effect of filing — priority — renewal — dissolution of lien. (1) The lien must be filed in the office of the clerk and recorder in the county in which the real property is located.

(2) Filing of the lien constitutes legal notice of the lien to all persons, including subsequent purchasers, encumbrancers, mortgagees, and other lienholders. Upon filing, the lien is prior to any earlier unrecorded interest or claim and is prior to any subsequent interest or claim, whether or not recorded. The lien is subject to any unpaid property taxes, any prior recorded mortgage, or any other prior recorded encumbrance, interest, or claim. For purposes of recovery under 53-6-171 through 53-6-188, a sale, transfer, or exchange of the property by the recipient is considered a relinquishment of any homestead exemption under 70-32-201 and 70-32-202 of the recipient in the property subject to the lien.

(3) Except as provided in 53-6-171 through 53-6-188, the lien has the effect of a judgment lien when the lien is filed. For purposes of provisions of state laws relating to judgment liens, the department is considered the judgment creditor and the recipient or the recipient's spouse or successor in interest is considered the judgment debtor.

(4) After filing, the lien remains effective for a period of 6 years unless earlier satisfied, released, or dissolved. The department may renew a lien for one or more additional 6-year periods.

(5) If the recipient is discharged from the facility and returns home, the lien dissolves and is no longer effective unless a new lien is later imposed in accordance with 53-6-171 through 53-6-188. Following the recipient's discharge and return home, the department shall upon written request file a release of lien in the clerk and recorder's office. Dissolution of the lien under this subsection does not preclude the department from recovering under 53-6-167, 53-6-168, or 53-6-169.

(6) If the lien is imposed pursuant to 53-6-171 on the recipient's interest in jointly owned property that is subject to a right of survivorship, upon the recipient's death, the recipient's interest passes to the survivor, subject to the lien imposed pursuant to 53-6-171.

History: En. Sec. 11, Ch. 492, L. 1995.

53-6-175. Recovery of medical assistance secured by lien — application for issuance of writ of execution. (1) After the recipient's death or upon the sale, transfer, or exchange of any right, title, or interest of the recipient in the property, the department may file with the clerk of the district court in the county in which the real property is located an application for issuance of a writ of execution for levy on the real property described in the lien. The levy may be for the amount of recoverable medical assistance paid on behalf of the recipient prior to, on, and after the date of the lien, including amounts paid up to the date of sale of the property, plus interest and costs as provided by law. Costs do not include attorney fees.

(2) The application for the writ must be sworn and must contain the following:

(a) the name of the recipient, a legal description of the real property, and a description of the recipient's interest in the property;

(b) a statement that the department has imposed a lien upon the property under 53-6-171;

(c) a statement that the lien complies with the requirements of 53-6-171 through 53-6-188;

(d) the date upon which the lien was filed and the office in which it was filed;

(e) a description of the sale, transfer, exchange, or other event that entitles the department to recover;

(f) a statement that the lien has not dissolved under 53-6-174(5);

(g) the amount of recoverable medical assistance; the amount of any unreimbursed taxes, insurance costs, maintenance costs, or other costs paid under 53-6-186; and, if applicable, a statement that additional amounts may be paid up to the time that the property is sold in satisfaction of the lien;

(h) a statement that the total amount due has not been paid as of the date of the application for the writ;

(i) a statement that recovery is not prohibited by this section;

(j) the names and addresses of all persons who have a recorded interest in the property, including a recipient or recipient's estate, co-owner, purchaser, grantee, encumbrancer, mortgagee, and lienholder; and

(k) a request that a writ of execution be issued for sale of the described property if an action is not filed within the time provided for in 53-6-177.

(3) The filing of an application under this section for a writ of execution is not the filing of a legal action, and the requirements applicable to legal actions do not apply to the application or application proceedings.

History: En. Sec. 12, Ch. 492, L. 1995.

53-6-176. Notice of application — proof of notice — request for issuance of writ of execution. (1) The department shall provide notice, as required by this section, of the filing of the application for a writ of execution pursuant to 53-6-175 to all persons having a recorded interest in the property or residing lawfully on the property.

(2) The notice must contain a description of the property and must state that the department has a lien under 53-6-171 upon the described property, that the department has filed an application for a writ of execution seeking sale of the property, and that a writ will be issued unless an action challenging issuance of the writ has been filed in accordance with 53-6-177 within 60 days of the date of mailing or service of notice or first publication of notice. The department shall include with the notice a copy of the application for the writ. The notice must also include notice of the right to seek an undue hardship exception as provided in 53-6-180.

(3) (a) The department may mail a copy of the notice, postage prepaid and return receipt requested, to the name and address stated in the recorded instrument creating each person's interest in the property or, in the case of a person residing on the property, to the address of the residence on the property. Mailing as provided in this subsection (a) is sufficient notice to the addressee if the return receipt is returned to the department and indicates that the notice was received by or on behalf of the addressee.

(b) If the return receipt is not returned to the department indicating that the notice was received by or on behalf of the addressee, the department shall attempt with reasonable diligence to locate the addressee and to personally serve or mail notice to that person.

(c) If after the exercise of reasonable diligence the department is unable to locate the person owning the interest in the property, the department shall publish the notice required by subsection (2) three times, once each week for 3 successive weeks, in a newspaper published in the county in which the property is located if a newspaper is published in the county. If a newspaper is not published in the county, then publication must be in a newspaper having a general circulation in the county.

(d) With respect to a person residing lawfully on the property but having no recorded interest in the property, the notice may be delivered to the residence and delivery is sufficient notice as to that person.

(e) In the alternative, the notice and application may be personally served upon any person entitled to notice under this section.

(4) (a) After giving notice as required by this section, the department shall file with the clerk of court an affidavit describing:

(i) the manner in which notice has been provided to each person entitled to notice;

(ii) the date of mailing, personal service, or first publication of the notice; and

(iii) the date by which each person is required to file an action to challenge issuance of the writ of execution.

(b) The department shall attach to the affidavit the return receipt, the affidavit of personal service, the affidavit of publication, or other proof of service of the notice. If no action has been filed within the time required by 53-6-177, the affidavit must so state and may request immediate issuance of the writ.

History: En. Sec. 13, Ch. 492, L. 1995.

53-6-177. Action to challenge issuance of writ of execution. A person with a recorded interest in or residing lawfully upon the real property described in an application filed under 53-6-175, including the recipient or recipient's estate or a co-owner, purchaser, grantee, encumbrancer, mortgagee, or lienholder, or any person described in 53-6-171(1)(b) or 53-6-178(2) or (3), may, within 60 days of mailing or service of notice or first publication of notice as provided in 53-6-176, file an action in the district court in the county in which the real property is located challenging the requested issuance of a writ of execution. The court shall determine the validity or invalidity of the department's lien and order appropriate relief, including issuance of the writ or denial of the application for issuance of the writ.

History: En. Sec. 14, Ch. 492, L. 1995.

53-6-178. Department right of recovery — limitations. (1) Except as provided in 53-6-180, 53-6-182, and this section, the department may collect upon its lien as provided in 53-6-171 through 53-6-188.

(2) The department may not recover upon a lien imposed on the recipient's home under 53-6-171 while the recipient's sibling or child who has resided lawfully and continuously in the home for at least 1 year immediately before the recipient's institutionalization continues to lawfully reside in the home. This subsection does not preclude the department from recovering under 53-6-167, 53-6-168, or 53-6-169.

(3) The department may not recover on a lien imposed under 53-6-171 while there is a surviving spouse of the recipient or while there is a surviving child of the recipient who is under 21 years of age, blind, or permanently and totally disabled. This subsection does not preclude the department from later recovery in accordance with 53-6-181.

History: En. Sec. 15, Ch. 492, L. 1995.

53-6-179. Payment of amount due — periodic payments — substitute security. (1) If the total amount due to the department to satisfy a lien imposed under 53-6-171 through 53-6-188 is paid, the department may not file an application under 53-6-175, shall withdraw its application if the application has already been filed, or shall instruct the sheriff to cancel the sale proceedings.

(2) In lieu of applying for a writ of execution, the department may agree with the heirs or devisees of the recipient to accept periodic payments for the repayment of recoverable medical assistance or may agree with the recipient's surviving spouse to accept substitute security and partial payment. The department may agree to periodic payments or substitute security if the terms of agreement, including security for repayment, are acceptable to the department and if the agreement does not reduce the amount due or the likelihood of recovering the amount due. The department may delay filing an application for issuance of a writ of execution for purposes of conducting negotiations for an agreement in lieu of execution.

History: En. Sec. 16, Ch. 492, L. 1995.

53-6-180. Waiver of recovery in cases of undue hardship — rulemaking. (1) (a) A person with a recorded interest in real property subject to a lien under 53-6-171 through 53-6-188 or any other interested person may apply to the department, in accordance with procedures established by department rule, for a waiver of recovery because of undue hardship. The department shall waive its recovery under this section, in whole or in part, if it determines that recovery would result in undue hardship as defined by department rule.

(b) The department shall adopt rules, consistent with 42 U.S.C. 1396p, as may be amended, and implementing federal regulations and policies, establishing procedures and criteria for granting undue hardship exceptions under this section. The rules must include but are not limited to rules addressing the following:

(i) a description of the circumstances considered to constitute an undue hardship;

(ii) the procedures by which an individual may seek an undue hardship exception;

(iii) the persons entitled to an undue hardship exception; and

(iv) whether an exception is partial or temporary and the circumstances under which a partial or temporary exception may be granted.

(c) A person aggrieved by a department determination on an application for an undue hardship exception may assert a claim of entitlement to an undue hardship exception in an action filed under 53-6-177 to challenge issuance of the writ. If a person claims entitlement to an undue hardship exception as part of that action, the court shall make a determination on the undue hardship claim in accordance with the department's rules adopted pursuant to this section. Department denial of all or any part of the relief requested in an application for an undue hardship exception under this section may be reviewed by a district court only through filing of an action as provided in this subsection (c). Denial does not grant a right to a contested case hearing or a right to judicial review under the Montana Administrative Procedure Act or the department's rules.

(2) The department may waive recovery of recoverable medical assistance secured by a lien imposed under 53-6-171 if the department determines that recovery would not be cost-effective. In determining whether recovery would be cost-effective, the department may consider but is not limited to consideration of the following factors:

(a) the estimated cost of recovery;

(b) the amount reasonably likely to be recovered;

(c) the likelihood that recovery by the department will cause a person to become eligible for public assistance; and

(d) the importance of the case or the issues in the case and the need for judicial interpretation of issues that may recur with respect to the administration or implementation of 53-6-171 through 53-6-188.

History: En. Sec. 17, Ch. 492, L. 1995.

53-6-181. Delay in recovery — sale subject to lien. (1) If the department is precluded by 53-6-178(2) or (3) from recovery upon a lien imposed under 53-6-171 through 53-6-188, the department shall maintain the lien in place and upon elimination of the condition that precluded recovery, the department may recover under this section. The department may not file an application for issuance of a writ of execution to recover under this subsection more than 3 years after elimination of the last condition that precluded recovery.

(2) If upon sale, transfer, or exchange of property subject to a lien imposed pursuant to 53-6-171 through 53-6-188 the department is precluded by 53-6-178(2) or (3) from recovering upon the lien, the lien remains in effect, subject to renewal as provided in 53-6-174, and the sale, transfer, or exchange is also subject to the lien.

History: En. Sec. 18, Ch. 492, L. 1995.

53-6-182. Spouse's limited exemption from lien. (1) Subject to Title 70, chapter 32, a recipient's surviving spouse who owns a home or an interest in a home in which the spouse resides that is subject to a lien imposed under 53-6-171 through 53-6-188 is, upon sale, transfer, or exchange of the home, entitled to an exemption from the department's lien in an amount determined in accordance with this section. The exemption is in the form of:

(a) a partial release of the department's lien if the exemption amount is less than the full amount of the department's lien; or

(b) a full release of the department's lien if the exemption amount is equal to or greater than the full amount of the department's lien.

(2) The amount of the exemption is the lesser of an amount equal to:

(a) the fair market value of the interest in the home that the surviving spouse received from the recipient by distribution or survival; or

(b) $100,000 minus the total fair market value of all of the surviving spouse's assets, other than the interest in the home that the surviving spouse received from the recipient by distribution or survival. For purposes of this section, the surviving spouse's assets do not include personal property that is exempt from execution under Title 25, chapter 13, part 6.

(3) The department may by rule require a surviving spouse to file an application for the exemption and to provide information, documentation, and verification regarding the applicant's assets and the fair market value of assets. The department shall provide the applicant notice of its determination on the application and of the opportunity for a hearing pursuant to Title 2, chapter 4, part 6.

(4) Upon determination by the department that the applicant is entitled to an exemption, the department shall provide to the applicant an appropriate full or partial release in the amount of the exemption.

53-6-186. Action by department or other person to preserve property subject to lien — recovery of costs. (1) The department may, in its discretion, take any action it considers necessary to prevent waste or loss or to preserve the value of property subject to a lien under 53-6-171 through 53-6-188, including but not limited to the following:

(2) The department's reasonable costs and expenses to prevent waste or loss or to preserve the value of the property are secured by the lien imposed under 53-6-171 and may be recovered in addition to all other amounts secured by the lien.

(3) A person who, after the institutionalization or death of the recipient and after the institutionalization of the recipient's surviving spouse, if any, paid real property taxes, homeowner's insurance premiums, or reasonable costs of necessary maintenance or repairs on behalf of the recipient or recipient's spouse, with respect to property subject to a lien under 53-6-171 through 53-6-188, has a claim against the proceeds of a sale of the property under writ of execution issued pursuant to 53-6-183 for recovery of any amounts paid for those purposes.

The claim must be supported by written documentation that clearly demonstrates the amount of each payment, the purpose of each payment, and the services and items purchased with each payment. A claim for reimbursement made under this subsection is prior to the department's lien imposed under 53-6-171.

(4) The amount of a claim made under subsection (3) must be reduced by:

(a) the amount of any rents and profits from the property paid after the institutionalization or death of the recipient and the institutionalization of the recipient's surviving spouse, if any;

(2) the death of the recipient; or

(3) the death of the recipient's surviving spouse.

History: **En. Sec. 24, Ch. 492, L. 1995.**

53-6-188. Coordination of lien with other medical assistance recoveries. The existence of a valid lien imposed under 53-6-171 through 53-6-188 or the fact that a lien under 53-6-171 through 53-6-188 is invalid for any reason or is unenforceable under 53-6-180 does not preclude the department from recovering under 53-6-167, 53-6-168, or 53-6-169.

History: **En. Sec. 25, Ch. 492, L. 1995.**

In furtherance of this public policy, the department shall develop and implement integrated health care programs consistent with the provisions of this part. The provisions of this part apply only to programs created under this part. The department shall by rule identify persons eligible for enrollment in a program. Compiler's Comments

2001 Amendment: Chapter 466 deleted former definition of commissioner that read: ""Commissioner" means the commissioner of insurance provided for in 2-15-1903"; in definition of managed care community network near beginning of (a) after "maintenance organization" deleted "that is owned, operated, or governed by a person and", after "arranges" substituted "for comprehensive physical or mental" for "managed", and after "department" substituted "that is reimbursed by a capitated rate or a fixed monetary amount for a specified time period with a risk of financial loss or a financial incentive to the entity, and that:

(i) contracts for an estimated annual value of $1 million or more of state and federal medicaid funds; or

(ii) operates statewide or covers 20% or more of the medicaid population" for "to enrollees of the program" and inserted (b) providing that the definition of managed care community network does not include a provider of health care services under a contract with the department on a fee-for-service basis; deleted former definition of person that read: ""Person" means:

53-6-703. Managed care community network. (1) A managed care community network shall comply with the federal requirements for prepaid health plans as provided in 42 CFR, part 434.

(2) A managed care community network may contract with the department to provide any combination of medicaid-covered health care services that is acceptable to the department.

(3) The department, prior to entering into a contract, shall require that a managed care community network demonstrate to the department its ability to bear the level of financial risk being assumed by servicing enrollees under a contract for comprehensive physical or mental health care services. The department shall by rule adopt criteria for assessing the financial solvency of a network. The rules must consider risk-bearing and management techniques and protections against financial insolvency, if a managed care community network is declared insolvent or bankrupt, as determined appropriate by the department. The rules must also consider whether a network has sufficiently demonstrated its financial solvency and net worth. The department's criteria must be based on sound actuarial, financial, and accounting principles. The department is responsible for monitoring compliance with the rules. The department shall provide for independent review of any contract provisions and contract compliance with the financial solvency rules.

(4) A managed care community network may not begin operation before the effective date of rules adopted by the department to implement the changes made by Chapter 466, Laws of 2001, under this part, the approval of any necessary federal waivers, and the completion of the review of an application submitted to the department. The department may charge the applicant an application review fee for the department's actual cost of review of the application. The fee must be adopted by rule by the department. Fees collected by the department must be deposited in an account in the special revenue fund and are statutorily appropriated, as provided in 17-7-502, to the department to defray the cost of application review.

(5) A health care delivery system that contracts with the department under the program may not be required to provide or arrange for any health care or medical service, procedure, or product that violates religious or moral teachings and beliefs if that health care delivery system is owned, controlled, or sponsored by or affiliated with a religious institution or religious organization but must comply with the notice requirements of 53-6-705(4)(c).

History: En. Sec. 3, Ch. 502, L. 1995; amd. Sec. 9, Ch. 577, L. 1999; amd. Sec. 6, Ch. 466, L. 2001.

Compiler's Comments

2001 Amendment: Chapter 466 throughout section substituted reference to department for reference to commissioner; deleted former (1)(a) that read: "(a) the licensure and financial solvency requirements of Title 33, chapter 31, but the commissioner may by rule reduce or eliminate a requirement of Title 33, chapter 31, if the requirement is demonstrated to be unnecessary for the operation of the managed care community network"; in (3) substituted first sentence regarding a demonstration of a managed care community network's ability to bear the necessary level of financial risk under a contract for comprehensive physical or mental health care services for former sentence that read: "A managed care community network shall demonstrate its ability to bear the financial risk of servicing enrollees under the program", in second sentence substituted "financial solvency" for "financial soundness", in third sentence after "techniques" inserted "and protections against financial insolvency, if a managed care community network is declared insolvent or bankrupt", and inserted seventh sentence requiring the department to provide for independent review of contract provisions and compliance; in (4) near beginning of first sentence after "adopted by the" substituted "department to implement the changes made by Chapter 466, Laws of 2001" for "commissioner"; deleted former (6) that read: "(6) The commissioner shall adopt rules to protect managed care community networks against financial insolvency. Amendment effective October 1, 2001.

53-6-704. Different benefit packages. (1) The department may by rule provide for different benefit packages for different categories of persons enrolled in the program. Alcohol and substance abuse services, services for mental disorders, services related to children with chronic or acute conditions requiring longer-term treatment and followup, and rehabilitation care provided by a freestanding rehabilitation hospital or a rehabilitation unit may be excluded from a benefit package and those services may be made available through a separate delivery system. If a service is excluded from the program but made available in a separate delivery system by a managed care entity, that managed care entity is subject to this part. An exclusion does not prohibit the department from developing and implementing demonstration projects for categories of persons or services. Benefit packages for persons eligible for medical assistance under Title 53, chapter 6, parts 1 and 4, may be based on the requirements of those parts and must be consistent with the Title XIX of the Social Security Act. This part applies only to services purchased by the department.

(2) The program established by this part may be implemented by the department in various contracting areas at various times. The health care delivery systems and providers available under the program may vary throughout the state. Except as otherwise provided in a contract for mental health services, a licensed managed health care entity must be permitted to contract in any geographic area for which it has a sufficient provider network and that otherwise meets the requirements of the state contract.

History: En. Sec. 4, Ch. 502, L. 1995; amd. Sec. 10, Ch. 577, L. 1999.

53-6-705. Requirements for managed health care entities. (1) A managed health care entity that contracts with the department for the provision of services under the program shall comply with the requirements of this section for purposes of the program.

(2) The entity shall provide for reimbursement for health care providers for emergency care, as defined by the department by rule, that must be provided to its enrollees, including emergency room screening services and urgent care that it authorizes for its enrollees, regardless of the provider's affiliation with the managed health care entity. Health care providers must be reimbursed for emergency care in an amount not less than the department's rates for those medical services rendered by health care providers who are not under contract with the entity to enrollees of the entity.

(3) The entity shall provide that any health care provider affiliated with a managed health care entity may also provide services on a fee-for-service basis to department clients who are not enrolled in a managed health care entity.

(4) The entity shall provide client education services as determined and approved by the department, including but not limited to the following services:

(a) education regarding appropriate use of health care services in a managed care system;

(b) written disclosure of treatment policies and any restrictions or limitations on health services, including but not limited to physician services, clinical laboratory tests, hospital and surgical procedures, prescription drugs and biologicals, and radiological examinations; and

(c) written notice that the enrollee may receive from another provider those medicaid-covered services that are not provided by the managed health care entity but that are the financial responsibility of the entity.

(5) The entity shall provide that enrollees within its system will be informed of the full panel of health care providers. Contracts for the provision of services beyond 125 miles from the borders of Montana may not be entered into if services of comparable cost and quality are available within the state of Montana.

(6) The entity may not discriminate in its enrollment or disenrollment practices among recipients of medical services or program enrollees based on health status.

(7) For purposes of participation in the medicaid program, the entity shall comply with quality assurance and utilization review requirements established by the department by rule.

(8) The entity shall require that each provider meets the standards for accessibility and quality of care established by law. The department shall prepare an annual report regarding the effectiveness of the standards on ensuring access and quality of care to enrollees.

(9) The entity shall maintain, retain, and make available to the department records, data, and information, in a uniform manner determined by the department, that is sufficient for the department to monitor utilization, accessibility, and quality of care and that is consistent with accepted practices in the health care industry.

(10) Except for health care providers who are prepaid, the entity shall pay all approved claims for covered services that are correctly completed and submitted to the entity within 30 days after receipt of the claim or receipt of the appropriate capitation payment or payments by the entity from the state for the month in which the services included on the claim were rendered, whichever is later. If payment is not made or mailed to the provider by the entity by the due date under this subsection, an interest penalty of 1% of any amount unpaid must be added for each month or fraction of a month after the due date until final payment is made. This part does not prohibit managed health care entities and health care providers from mutually agreeing to terms that require more timely payment.

(11) The entity shall seek cooperation with community-based programs provided by local health departments, such as the women, infants, and children food supplement program, childhood immunization programs, health education programs, case management programs, and health screening programs.

(12) The entity shall seek cooperation with community-based organizations, as defined by rule of the department, that may continue to operate under a contract with the department or a managed health care entity under this part to provide case management services to medicaid clients.

(13) A managed health care entity that provides written notice pursuant to subsection (4)(c) to an enrollee of medicaid-covered services available from another provider is responsible for payment for those services by another provider.

History: En. Sec. 5, Ch. 502, L. 1995.

53-6-706. Requirements relating to enrollees. (1) All individuals enrolled in the program must be provided with a full written explanation of all fee-for-service and managed health care plan options as provided by rule. The department shall provide to enrollees, upon enrollment in the program and at least annually, notice of the process for requesting an appeal under the department's administrative appeal procedures. The department shall maintain a toll-free telephone number for program enrollees' use in reporting problems with managed health care entities.

(2) If an individual becomes eligible for participation in the program while the individual is hospitalized, the department may, but is not required to, enroll the individual in the program prior to the individual's discharge from the hospital. This subsection does not apply to a newborn infant whose mother is enrolled in the program.

(3) The department shall, by rule, establish rates for managed health care entities that:

(a) are in accordance with federal requirements and with the department's current payment system;

(b) take into account any difference of cost to provide health care to different populations based on age and eligibility category. The rates for managed health care entities must be determined on a capitated basis.

(c) are based on treatment settings reasonably available to enrollees.

History: En. Sec. 6, Ch. 502, L. 1995; amd. Sec. 11, Ch. 577, L. 1999.

53-6-707. Payment reductions and adjustments — freedom to contract. (1) The department shall by rule establish a method to reduce its payments to managed health care entities to take the following into consideration:

(a) any adjustment payments paid to health care facilities under subsection (2)(b) to the extent that those payments or any part of those payments have been taken into account in establishing capitated rates under 53-6-705; and

(b) the implementation of methodologies to limit financial liability for managed health care entities under 53-6-705.

(2) For key services provided by a hospital that contracts with an entity, adjustment payments that are not included in capitated rates must be paid directly to the hospital by the department. Adjustment payments may include but need not be limited to:

(a) adjustment payments to disproportionate share hospitals as defined by department rule;

(b) perinatal center payments; and

(c) payments for capital, direct medical education, indirect medical education, and certified registered nurse anesthetists.
